Wal-Mart de Mexico S.A.B. de C.V. (BMV / BIVA: WALMEX) informs its shareholders and the general public that on Thursday, December 12, the *Comisión Federal de Competencia Económica* ("COFECE") notified our main operating subsidiary in México that COFECE's governing body, in a split decision reached by the commissioners acting on the matter, concluded that Walmex had engaged in a single relative monopolistic practice regarding supplier contributions. COFECE fined Walmex in the amount of MX\$93,366,000 pesos (less than US\$5 million dollars based on current exchange rates).

COFECE recognizes that Walmex can continue negotiating contributions with its suppliers except for two specific contributions out of the four originally investigated. COFECE ordered remedies that limit the ability of Walmex to implement those two contributions even though they are negotiated and agreed with suppliers and are customary in the market and benefit consumers.

While Walmex is reviewing the specifics of the more than 900-page decision, based on our preliminary review, Walmex believes that COFECE's analysis is flawed and that COFECE erred in the application of the law. Since Walmex and its subsidiaries believe they have acted in compliance with applicable laws to the benefit of Mexican families, and due to the irregularities in COFECE's investigation and proceedings, Walmex will challenge COFECE's decision.

Walmex is disappointed by this decision but will continue working collaboratively with its suppliers to ensure business continuity in compliance with the COFECE's resolution, while we challenge the decision.
