

FOR IMMEDIATE RELEASE:

Com-Guard.com, Inc. (CGUD.pk) appoints Mr. Antonio Ponte as Strategic Advisor.

Vista, CA – June 2, 2025 – Com-Guard.com, Inc. (CGUD.pk), a Technology pioneering company now focused on leveraging Apple Health app data with artificial intelligence through its revolutionary iTrakHealthAI™ product, which can be downloaded today from the Apple App Store and can be reviewed and read about at, www.iTrakhealth.ai, today announced the appointment of Mr. Antonio Ponte as a Strategic Advisor to Drive Growth Initiatives for CGUD.pk in the Technology marketplace and especially in the Healthcare and Fitness Sector, Focusing on Empowering Baby Boomers to monitor their health and fitness and helping to Reduce Healthcare Costs and assist the Company to focus on the Sports Sector and the Fitness of Athletes. This appointment signals a significant step in Com-Guard.com's strategic evolution within the Healthcare industry, with a particular focus on the United States' 70 million "Baby Boomers" to enable them to effectively monitor their health needs and contribute to reducing costs for Healthcare providers and the government.

Dr. Edward W. Savarese, CEO, President, and Chairman of the Board of Com-Guard.com, Inc., commented, "I have successfully worked with Mr. Ponte previously and we are thrilled to welcome Mr. Ponte to Com-Guard.com. His extensive experience in Venture Capital and European Banking, coupled with his proven success in Corporate Finance and Mergers and Acquisitions, will be invaluable as we execute our strategic vision for iTrakHealthAI™ and explore new avenues for growth within the vital Baby Boomer demographic and Sports Fitness Market."

Mr. Ponte brings a distinguished career spanning over four decades in the European Financial sector. As the founder of Raifin SA, a Swiss investment banking company, he has a strong background in Portfolio Management, Corporate Finance, and Venture Capital operations. His experience includes establishing an investment fund in cooperation with the AIG Group and successfully managing investments in various sectors, including significant involvement in the European football industry. Mr. Ponte's deep understanding of international finance, his multilingual capabilities, and his experience in sports management will be crucial assets for Com-Guard.com as it considers strategic partnerships and expands its reach within the US Healthcare market, Sports Fitness Market and potentially beyond.

In his role as strategic advisor, Mr. Ponte will focus on leveraging his expertise to support Com-Guard.com in several key areas:

- **Strategic Planning:** Guiding the Company's overall strategic direction within the Healthcare industry, specifically targeting the needs of the United States' 70 million Baby Boomers to help them monitor and improve their health and expanding into the European Market.
- **Potential Relationships:** Identifying and fostering relationships with other companies to enhance Com-Guard.com's market position and technological capabilities in delivering solutions for the Baby Boomer generation and potentially in the Sports and Fitness sectors.
- **Potential Mergers and Acquisitions:** Evaluating opportunities for Strategic Mergers and Acquisitions that align with the Company's growth objectives in addressing the Healthcare needs of this demographic and exploring adjacent markets, and using the technology in the area of sports fitness and performance.

- Potential Financing: Advising on potential financing strategies to support the development and expansion of iTrakHealthAI™ and other future initiatives aimed at reducing costs for Healthcare providers and the government while improving patient outcomes for Baby Boomers, as well as exploring opportunities in sports-related technology.
- Participate in selecting qualified, experienced business people to participate on different Advisory Boards, such as, Finance, Marketing, Technology, etc., and to participate on potentially expanding the current Board of Directors.
- Exploring Alternatives: In addition to the Healthcare market, and because of the Company's background and experience in developing technology products in the Computer Industry, it will be important to evaluate potential opportunities that can contribute to the Company's future growth in new technology Markets.

"I am excited to join Com-Guard.com at this pivotal time," said Mr. Ponte. "The Company's innovative approach to utilizing AI within the Healthcare sector, particularly with the iTrakHealthAI™ product which is focused on empowering Baby Boomers to manage their health and contribute to Healthcare cost reduction, presents significant opportunities. With my extensive experience in sports and training, I can also see applications that can be designed and developed with the technical expertise of the Company to monitor the fitness of athletes and to potentially avoid injuries and increase their performance. I look forward to contributing my expertise to help Com-Guard.com achieve its strategic goals and create long-term value for this important demographic and the broader Healthcare system, as well as exploring new and exciting possibilities in related fields."

This strategic appointment underscores Com-Guard.com's commitment to leveraging external expertise to accelerate its growth and solidify its position as an innovator in the Healthcare technology space, with a dedicated focus on the health and well-being of the United States' Baby Boomer population and the reduction of Healthcare costs, while also recognizing potential synergies with the Sports and Fitness industries.

About Com-Guard.com, Inc.

Founded by Dr. Edward W. Savarese, Com-Guard.com, Inc. (CGUD.pk) has a long history in the technology sector, including being an early Apple developer. Today, the Company is focused on the Healthcare industry in the United States, utilizing data from the Apple Health app and applying advanced artificial intelligence to create meaningful insights specifically for the 70 million "Baby Boomers" to help them monitor and improve their health, ultimately aiming to reduce costs for Healthcare providers and the government. Its revolutionary product, iTrakHealthAI™, has been accepted into the Apple App Store.
