## Amazon Announces \$20 Billion Investment in Cloud Computing and AI Facilities in Pennsylvania; Strainsforpains, Inc. to Play Key Role in Expansion

Amazon has announced plans to invest at least \$20 billion in cloud computing and artificial intelligence facilities in Salem Township, Pennsylvania. This significant investment will reinforce the company's growing presence in the region and fuel advancements in AI-driven technology and cloud infrastructure.

Strainsforpains, Inc. is proud to be part of this groundbreaking initiative, with its facility directly connected to Amazon's industrial grid. Amazon Web Services (AWS), a wholly owned subsidiary of Amazon, is recognized as the world's most comprehensive and widely utilized cloud service, according to Pennsylvania Governor Josh Shapiro's office.

"Amazon's multi-billion-dollar investment aligns perfectly with our strategy to expand within the health care and advanced AI technology industries," said Y. Simon Shainberg, President of Strainsforpains, Inc. "Our facility's strategic location—situated on the industrial grid and adjacent to the Susquehanna River—offers easy access to water for coolant systems, ensuring efficiency for cutting-edge technology operations."

As cloud computing and AI continue to evolve, the demand for data centers has surged. These facilities require substantial energy to power servers, storage systems, networking equipment, and essential cooling systems. Strainsforpains, Inc. is prepared to meet these demands with its diversified, forward-thinking approach.

"In our long-term vision for diversification, we remain committed to delivering strong value for our shareholders through strategic investments in energy and health care," Shainberg added. The company continues to redefine health care with innovative cannabis-based pain relief solutions, as well as CBD products designed to address various symptoms.

With rapid growth in both revenue and industry reach, Strainsforpains, Inc. anticipates multiple acquisitions throughout 2025. The company also collaborates with leading health institutions—including The Hebrew University of Jerusalem, Harvard University, Mount Sinai, and Johns Hopkins—to integrate comprehensive data into its mega data system, further strengthening its credibility and impact on health care innovation.

### **Management and Advisory**

Mr. Simon Shainberg has over 17 years of cannabis research and studies within the wellness space, including working with Raphael Mechoulam of Tel Aviv, the well known originator of the concept of the cannabinoid system. He has extensive experience in algorithmic methodology,

healthcare technology, pain management, artificial intelligence, and mergers and acquisitions. He is a member of the prestigious International Cannabinoid Research Society, <https://icrs.com>
