## **Peer To Peer Network Provides Investor Update on MOBICARD™ 2.0 & Intelligence Labs**

Cambridge, MA – October 8, 2025 – Peer To Peer Network, Inc. (OTC: PTOPD) today announced key corporate updates highlighting progress with its MOBICARD™ platform and the launch of its new artificial intelligence division, Intelligence Labs.

### **MOBICARD™ Update**

The MOBICARD™ 1.5 beta phase will conclude in Q4, marking an important milestone ahead of the full launch of MOBICARD™ 2.0 in early 2026. With three granted patents and 19 material claims, MOBICARD™ is uniquely positioned in the \$300 billion digital business card market projected by 2030. The Company is preparing enterprise client deals to accelerate adoption upon launch and has already begun planning for the next evolution, MOBICARD™ 3.0.

### **Intelligence Labs Update**

Peer To Peer Network has launched PTOPD Intelligence Labs, a new division focused on delivering scalable AI-powered B2B solutions. Multiple product architectures have been finalized, and discussions are underway with a strategic development partner to expedite go-to-market initiatives. The division is also actively pursuing enterprise partnerships and licensing opportunities to accelerate adoption across key industries. These efforts position PTOPD to expand its market footprint while generating new revenue streams and strategic growth opportunities.

### **Key Progress and Expectations**

- MOBICARD™ 1.5 beta ending in Q4 2025
- MOBICARD™ 2.0 launch targeted for early 2026
- Enterprise client rollout and adoption strategy in motion
- Planning for MOBICARD™ 3.0 development
- Three U.S. patents with 19 material claims protecting core technology
- New version of [www.ptopnetwork.com](http://www.ptopnetwork.com) launching within 7–10 days
- Intelligence Labs advancing AI architectures, partnerships, and licensing opportunities

## CEO Statement

Joshua Sodaitis, CEO of Peer To Peer Network, said:

*“PTOP is at the start of a powerful growth phase. With MOBICARD™ and Intelligence Labs advancing in parallel, we’re building momentum that the market hasn’t yet priced in. The road ahead is full of opportunity, and PTOP V2.0 is just getting started.”*

*“We were the first digital business card in the app stores. I am literally the inventor of the digital business card or “Electronic Interactive Business Card Mobile Software System with Customer Relationship Management Database” Patent# 1616,368, with over 19 unique claims. A Utility Patent good for 25 years. We also have 1 other granted utility patent covering it as well. This wasn’t just innovation it was protection, leverage, and opportunity. What this means is every serious player in the digital business card industry will soon have two choices – work with us and come under my leadership and benefit from our leadership, patents, and stock upside potential. Or compete against us and risk being shut down and put out of business for infringement.”*

*“As momentum builds, we believe PTOP’s current valuation doesn’t yet reflect the scale of what’s coming next. This is the perfect time in our opinion for new shareholders to get involved before the next wave of growth unfolds.”*

## About Peer To Peer Network (OTC: PTOPD)

Peer To Peer Network, Inc. (OTC: PTOPD) is a publicly traded technology company and the inventor of the patented **MobiCard™ digital business card system**, the platform that enables users to instantly share, track, and analyze networking connections in real time.
