

Impact Fusion International Posts 4th Quarter and Year End 2025 Profit

LETTER TO THE SHAREHOLDERS

February 12, 2026

Napoleonville, LA IFUS:OTCID

Yesterday, February 11, 2026, your company remitted its 4th Quarter and Year-End 2025 Financials. Both the 3rd and 4th Quarter of 2025 proved profitable. This Financial Information can be found at OTC.

The Intact Digest™ Line reflected 3rdQ and 4thQ Growth. The strategic addition of three additional products supports these numbers. The products include:

- Equine Intact™
- Pet Intact™
- AIT™

We have now developed 5-markets for our product lines.

SGP+™ / SupremeAG™ backorders continue to expand as the upgrade to the Napoleonville Operation is on-going. World-wide interest has been generated with our expanding Knowledge Base. Recent successful Trials are having a positive impact on inquiries submitted to your company.

We also have proven success with our SGP+2.0™ Product Line. Furthermore, our IFUS Scientific Team is exploring the replication of other SGP+™ products using regional Sugarcane Bagasse from different parts of the globe. Additionally, initial research is underway in the use of other lignin-rich grasses that can be blended on location to mimic Sugarcane Bagasse. The intent is to reduce the need to ship bagasse or finished product long distances, by using local biomass sources that are presently waste materials. In doing so, IFUS further advances its commitment to eco-friendly, cost-effective, and sustainable solutions through "Research, Validation, and Commercialization of Technology."

"At the beginning of 2025 we committed to expanding sales, revenues, and profits for the company. Although there is still much work to be done, we are encouraged by the results from 2025. We see the potential of our Intact Nutrition™ Lines continuing to expand in markets across the globe. We also see the work being

performed in our Napoleonville Operation as essential to producing SGP+™ and SupremeAG™. Furthermore, we are using this improvement project a "Construction Footprint" for added production capability in other Sugarcane growing areas, and a driver for increased revenues and profits," said Marc Walther, CEO of Impact Fusion International.

Once more, we are "Back to work!"
