

American Networking Joins GestureTek™ Authorized Distribution

Leading Sales Partnership for Interactive Technology Sector

March 22, 2026 - OTCIQ Disclosure & News Service, New York, NY - Winning Brands Corporation (OTCID: WNBD) announces a significant business development partnership for its GestureTek™ brand of immersive virtual experiences. American Networking, www.AmericanNetworking.com will be launching various GestureTek™ systems, www.GestureTek.com, into American Networking’s USA sales pipeline, effective immediately, becoming a lead distributor and installation planning center for GestureTek™.

AMERICAN NETWORKING LEANS INTO THE FUTURE

American Networking provides customized high-tech solutions that are mission-critical for corporations and government in the field of audio visual information technology including software and security system innovation. Through this sales partnership, GestureTek™ products and services will be introduced into all sectors served by American Networking.

Key executives at American Networking, Matthew Thompson, CEO and Kevin Flynn, V.P. Strategic Accounts, will be creating top-of-mind awareness about GestureTek™ interactive concepts amongst American Networking’s institutional customers.

American Networking executive leaders have decades of experience building customized communications and AV infrastructure for America’s premier government and commercial organizations.

SALES LEADERSHIP AT AMERICAN NETWORKING FOR CUSTOMER SOLUTIONS

This alliance will benefit from decades of relevant expertise at American Networking and GestureTek™.

Matthew (Matt) Thompson, American Networking founder and CEO is well known in commercial, federal, and municipal sectors. He has served U.S. government technology needs at the Pentagon, National Security Agency, NASA, Customs and Border Protection, Homeland Security, Drug Enforcement Agency, Department of the Army, Department of Veterans Affairs, Department of Commerce, Federal Trade Commission and the National Oceanic and Atmospheric Administration. As CEO, Mr. Thompson drives the design, build, implementation, and optimization of complex technology ecosystems. These include the verticals of Telecommunications, Building Information Management Systems (BIMS), Audio/Visual integrations, Low-Voltage Systems (AV, Fire/Safety, Access Control), Security, and Integrated Networking.

Mr. Thompson's leadership includes crafting precise "Work Breakdown Structures", spearheading technical proposal development, enforcing quality control and championing preventive maintenance. His passion is to deliver flawless, on-time, on-budget performance that consistently exceeds expectations and drives exceptional client satisfaction.

GestureTek™ had early success with interactive concepts such as the GestureTek™ GroundFX™ system installed at NASA's Space Center Houston Mission Mars exhibit.

Kevin Flynn, Vice President of Strategic Accounts at American Networking, is an experienced AV and IT integration professional specializing in advanced communication systems, command-and-control environments, and enterprise technology solutions. With a strong background in designing and deploying Crestron-based systems, Mr. Flynn has led projects ranging from conference room integrations to large-scale secure infrastructure deployments.

In addition to his technical expertise, Kevin Flynn brings a strong background in managing high-performing sales teams across multiple channels, including retail, distribution, manufacturing, and AV integration. His experience spans working with leading brands, giving him a well-rounded perspective on both technology delivery and go-to-market strategy. Mr. Flynn works closely with clients across government, education, and commercial sectors to deliver reliable, scalable, and cutting-edge solutions.

American Networking CEO, Matthew Thompson, explains why the addition of GestureTek™ to American Networking's business solutions profile is important: "We have been in discussion for a long time to evaluate how we can surge mutual growth by designing and delivering tomorrow's interactive concepts to American Networking's client community. Our customers are the finest anywhere. They want the best available. Gesture controlled interactivity has amazing potential, when it's tailored to specific situations for new possibilities. I've always been turned on by the challenge and satisfaction of creating new outcomes that become the next standard. It's hard to stay at the leading edge, but that's what my group is about. Delivering tomorrow, today. GestureTek is the perfect ally to create these synergies. We're excited!"

GESTURETEK™ BRAND REPUTATION AS A FOUNDATION

The GestureTek™ brand has earned thousands of installation assignments for the world's most discerning corporate and government agencies, earning over 60 awarded patents for GestureTek's work in the innovative field of gesture-controlled interactivity,

Satisfied GestureTek™ customers have included some of the world's most prominent companies for years, shown here, amongst many others. The GestureTek™ brand legacy can be found in customer testimonials across the internet, internationally.

Industry experts agree that the opportunity to provide the public with interactive experiences that are entertaining and useful are greater than ever, and likely to grow faster than almost any other sector. Organizations globally are noticing that public acceptance of tech-interactivity is at an all time high without slowing. Gesture controlled interactivity is becoming intuitive for younger consumers and employees everywhere.
