

Invitation to Nova's Quarterly Update Webinar

Nova Minerals Limited (Nova or the Company) (ASX: NVA, Nasdaq: NVA, FSE: QM3) is pleased to provide an opportunity for its shareholders, investors, and the broader market to attend a quarterly update webinar hosted by Redchip Companies as detailed below.

This online event, recorded on site in Alaska, will feature Nova Chief Executive Officer Christopher Gerteisen, who will provide an update on the Company's progress over the past quarter and outline plans for the antimony project. The webinar will also include video footage showcasing the significant volume of mining and processing equipment transported to the Estelle Project during this year's winter freight haul operations, together with an overview of its intended use.

Mr Gerteisen will also review key exploration results from the previous field season, including discoveries at Portage Pass, West Wing and RPM, provide an update on PFS test work for the gold project, and discuss the share and warrant scheme documentation recently distributed to security holders in relation to the Company's proposed redomiciliation to the United States.

If attendees are not able to join the event on the day of the conference, an archived webcast will also be made available on the Company's website.

Redchip Companies Webinar

Time: 4.15pm US EDT Thursday 21 May 2026

6.15 am Australian EST Friday 22 May 2026

About Nova Minerals Limited

Nova Minerals Limited is advancing one of the world's largest undeveloped gold deposits into production and securing a U.S. domestic supply of the critical mineral antimony. The Company is focused on the exploration and development of the Estelle Gold and Critical Minerals Project, located in Alaska, a tier-one mining jurisdiction.

Estelle hosts two defined multi-million-ounce gold resources, and more than 20 prospects distributed along a 35-kilometre mineralised trend, in the prolific Tintina Gold Belt, a province which hosts a >220 million ounce (Moz) documented gold endowment and some of the world's largest gold mines and discoveries including, Kinross Gold Corporation's Fort Knox Gold Mine. In parallel, Nova is advancing its critical minerals strategy, fully funded by a US\$43.4 million U.S. Department of War award to develop a domestic antimony supply chain, targeted for production in late 2026/2027.
