

FOR IMMEDIATE RELEASE

New GestureTek™ Installations for Golisano Hospital Group

Respected Children's Hospital Community

September 16, 2026 – OTC Markets Disclosure & News Service, New York, NY – Winning Brands Corporation (OTCID:WNBD) www.WinningBrands.com www.GestureTekHealth.com www.GestureTek.com previously announced on June 29th its return to Europe with new deliveries. As an extension of this revitalization, Winning Brands now announces a multiple location installation assignment for GestureTek in the USA with the Golisano Hospitals. This group is a rapidly expanding national network of independent pediatric medical facilities backed by billionaire philanthropist and Paychex founder Tom Golisano. Driven by the Golisano Children's Alliance (founded in 2025), Mr. Golisano's total investment in pediatric healthcare has reached \$753 million, growing the network to 21 hospitals nationwide. While many partner hospitals are transitioning to or incorporating the Golisano name, there are several prominent, established standalone facilities historically known by this name.

In September 2026, Tom Golisano announced a \$225 million distribution to six additional hospitals across the United States, expanding the alliance's footprint into the Western U.S. for the first time. The newly added partner institutions include:

- **Johns Hopkins All Children's Hospital** (Wesley Chapel, FL): Receiving \$40 million to construct a new five-story, 56-bed building named *Johns Hopkins All Children's Hospital, Golisano Children's Medical Center at Wesley Chapel* (expected to open in Fall 2027).
- **Renown Health** (Reno, NV): Receiving \$40 million to build a brand new standalone pediatric facility named *Golisano Children's Hospital at Renown Health*.
- **Children's Hospital Colorado** (Colorado Springs, CO): Receiving \$40 million for capital expansions, updating its name to *Golisano Children's Hospital, Colorado Springs*.
- **Monroe Carell Jr. Children's Hospital at Vanderbilt** (Nashville, TN): Receiving \$40 million, renaming its core cardiac division to the *Golisano Pediatric Heart Institute*.
- **Children's Minnesota** (Minneapolis, MN): Welcomed into the alliance with a \$35 million gift
- **Dartmouth Health Children's** (Lebanon, NH): Joined the alliance backed by a \$30 million investment.

The new assignment for GestureTek involves three phases. The first two phases involve the installation of GestureTek into 5 locations, consisting of 1 GestureTek system followed immediately by 4 additional systems. The third phase envisions expansion to additional locations to be specified.

GestureTek will be supplying its proprietary GestureFX System with 8000 lumen laser projection of interactive experiences, complete with associated computer equipment, infra-red cameras, infra-red lighting, special purpose mounting systems, library of more than 50 applications including original custom content created for Golisano, custom integration of sponsor logos, technical support and more.

GestureTek systems have supported the work of medical facilities for years, including children's health settings.

GestureTek is recognized as an early development leader in gesture-controlled interactivity. GestureTek is now public via Winning Brands Corporation (OTCID:WNBD)

The generosity of Tom Golisano is manifesting in the emergence of an important children's health care network, which fosters continuous innovation in services provided to patients, their families and to the community.

MANAGEMENT COMMENTARY

GestureTek Co-Founder and Vision Leader, **Vincent J. Vincent**, comments: "It is a great feeling to be entrusted with this collaboration. My colleagues and I are eager to see GestureTek rise in stature again through our revitalization initiatives in new settings, and also building on earlier customer relationships. Gesture-controlled interactivity is more relevant than ever – with exciting new horizons emerging."

ABOUT WINNING BRANDS

Winning Brands Corporation (Delaware) is an AI technology-driven holding company listed on OTC Markets (OTCID: WNBD). Its core operating division, GestureTek™, is a pioneer of camera-based gesture recognition with a 35+ year operating history, over 60 patents awarded, and a licensing heritage that includes Sony's PlayStation EyeToy and Microsoft's Xbox. GestureTek's focus is AI gesture software that enables touchless human-machine interaction across digital displays, immersive environments, and interactive media networks. The company's strategy is to scale GestureTek through new applications, a recurring-revenue model, and channel partnerships. Corporate X: @GestIntel
