

BioNeutra Global Corporation

Transforming Natural Products into Better Health
(Toronto TSX-V: BGA; US: OTCQB: BGACF)

BioNeutra Global Corporation (Toronto: TSX-V: BGA) (USA: OTCQB: BGACF) is pleased and excited to announce that PUPPY LOVE SMART TREATS, its first retail product using the patented and FDA approved VitaFiber, will launch a massive social media campaign January 15th, 2022.

Please check out and follow: www.puppylove.international

This retail product is a 'first to market' dog treat and food company to use VitaFiber that provides digestive health to pets. The social media launch will be initiated by VitaCanada Inc. (a wholly owned subsidiary of BioNeutra) and AMAZING FOODS INC.

Edmonton, AB, Canada –December 13th, 2021 – BioNeutra Global Corporation (Toronto: TSX-V: BGA) (USA: OTCQB: BGACF) is pleased and excited to announce that its wholly owned subsidiary VitaCanada Inc. is about to start a massive social media campaign for its first retail product in association with AMAZING FOODS INC.

VitaCanada Inc. has been formed specifically to develop and market new “healthy” retail products and grow a new retail business internationally. This will be in addition to continuing to expand and increase our commercial bulk health food ingredient business to new clients across the globe.

BioNeutra Global Corporation and VitaCanada Inc. have recently established global distribution points in North America, Canada, Europe, Australia and elsewhere the Company is poised for a global launch of “healthy” retail products that cover the entire food spectrum from Ice Cream, Sports Drinks, Cola's, Gummies, nutrition and energy bars, jams, pet foods, chocolate bars, candies, baked goods and much more.

The retail products developed by VitaCanada Inc. will use the award winning, patented, all- natural low caloric sweetener/prebiotic/dietary fiber developed by BioNeutra Global Corporation known as VitaFiber.

VitaFiber is the ONLY sugar replacement product, to our knowledge, that has all three major health authority approvals, The FDA, Canada Health and the European Food Safety Authority (EFSA). The product is now also approved in India, China, Indonesia, Australia and is now seeking approvals in various countries in South America.

Until now the Company has primarily been selling this health ingredient in bulk to more than 200 clients across the globe who make everything from candies, energy bars, ice cream, cookies, sauces, and retail products across the entire food spectrum with prebiotic health functions, (promotes the growth of “healthy” bacteria in the “gut” and colon). It is also an all-natural, high fiber, low calorie sweetener with a great mouth feel and taste.

VitaFiber has no bitter aftertaste such as Stevia or other chemical or alcohol-based sweeteners. VitaFiber looks like honey, tastes like honey and has the consistency of honey. The powdered VitaFiber looks and tastes like icing sugar. VitaFiber is produced with impeccable science and the highest standards.

VitaFiber is also prebiotic and promotes the growth of “healthy” bacteria in the ‘Gut’ and Colon which is essential for overall health. Not only does VitaFiber provide this function for humans, but it has the same effect on animals.

VitaCanada Inc is excited to enter the hugely popular dog food and treat space with the innovative and ‘first to market’ introduction of the PUPPY LOVE SMART TREATS.

Please check out www.puppylove.international

This is the first dog treat anywhere in the world to include VitaFiber as an ingredient. The prebiotic function of the VitaFiber product promotes the growth of essential “healthy” bacteria in the “gut” of the animal. Just as a dog must have a healthy heart, lungs it is essential that it also has good “gut” health.

“We have spent a lot of time in developing this incredible product that every pet owner should purchase,” says Dr. Jianhua Zhu. “The pet food space is exploding, and we are the first to include this vital ingredient.” He added.

VitaCanada Inc and AMAZING FOODS INC. are now actively searching for global contract manufacturers who may interested in joint ventures, licensing, partnerships, acquisitions and other business relationships with this great product. If any manufacturing entity making a product with sugar would like a “healthy” alternative with arguably the world’s finest alternative to sugar, we encourage you to contact us immediately.

About BioNeutra Global Corporation

BioNeutra is an award-winning, sector-leading Canadian company in the business of research and development, production and commercialization of ingredients for nutraceutical, functional and mainstream foods and beverages with a focus on its lead product – VitaFiber® series products. BioNeutra’s goal is to improve consumer nutrition and public health.

VitaFiber® IMO and other series products are made using a patented process that naturally and enzymatically converts starch molecules from plant-based starches such as pea or tapioca into a healthy functional food ingredient. The conversion process does not involve any chemical modification making VitaFiber a natural food and beverage ingredient. VitaFiber® series products have been approved for sale by the world’s top three health regulatory bodies: generally regarded as safe (GRAS) by the U.S. Food & Drug Administration; a novel food ingredient by Health Canada and the European Food Safety Authority.

Additionally, Health Canada has approved VitaFiber® IMO as a dietary fiber. VitaFiber® IMO is naturally sweet, lower in calories than sugar and a natural source of prebiotic dietary fiber for human digestive health.

VitaFiber® series products are also non-GMO, vegan friendly, gluten-free, Kosher and Halal certified and available as certified organic.

The Company’s customers include a mix of small and medium businesses as well as a number of high- profile food and beverage manufacturers on four continents. The Company is publicly traded on the OTCQB: BGACF and on the TSX-V: BGA
