Revenue from New Jersey continues to build along with Strategic Partnerships

Denver, December 31st 2021

2021 was a rebuilding year for BLDV after the challenges of 2020. The process of uplisting the company to the OTCQB continues, while BLDV has successfully positioned itself in the cannabis industry in a number of powerful ways:

Acquisition of ICS Consulting Service, now a wholly owned subsidiary of Blue Diamond Ventures Inc. (OTC: BLDV), and a leading voice in Cannabis Compliance and Training. [Jenny Germano & ICS](#) will release the Cannabis Compliance Hub in 2022 and continue to expand from Colorado into Michigan, Illinois, Missouri, New Jersey, New York and more.

Expansion of Kushmaster Partnership, prior to the end of 2021, BLDV and their wholly owned subsidiary Harvest 360 Technologies, expanded the Licensing Program with the Kush Masters to include Michigan, Missouri, Illinois, New York and New Jersey. [The Boones Labs project](#), the Kush Master license in Buchanan will begin producing revenue in March and will be the exclusive manufacturer of Kush Master products in Michigan, H360 will be announcing new license agreements for Kush Master in the coming year.

New Jersey Adult-Use Program - The new NJ cannabis law will create hundreds of licensed assets across the state. Harvest 360, ICS Consulting and our strategic partners WECO and others, have put together a “Suite of Services” for these new operators that are cost effective and compliant. Based on the package developed in Illinois for social equity candidates, the solutions can be customized for cannabis

programs around the country. [Harvest 360 was selected as Social Equity partner for NJ Insider.](#)

Illinois Projects - After getting 27 perfect scores for their nine clients in Illinois, five of those applicant companies have gone on to win dispensaries in the lotteries.
