

PHOENIX, ARIZONA / Disclosure and News Service / December 11, 2023 / PetroSun, Inc (OTC PINK: PSUD) (the “Company”) announced today that the Company has appointed Todd Rawlings to its Science and Technology Advisory Board.

Mr. Rawlings joins PetroSun’s Science and Technology Advisory Board as an award-winning Innovation and Technology leader at Microsoft for 15 years resulting in eight US and International Patents: Submerged Datacenter, Datacenter Immersed in Cooling Liquid, and many more. He successfully gained funding and executive support for several R&D Prototypes: Project Natick (First prototype of the Subsea Cloud Datacenter) which gained national press in Feb/Mar 2016 after NY Times article. Todd was a Founder and Leader in Microsoft’s Innovation Program and led a Hackathon winning team resulting in a story in Gates Notes.

Co-creator of Microsoft’s Submersible Data Center. The design incorporated A Datacenter Immersed in Cooling Liquid patent to further protect the Cloud Servers, Storage, and Network gear from the corrosive nature of saltwater, while optimizing heat transfer and maintaining near constant temperatures for all electronics which will extend the life of the Cloud infrastructure investment and reduce in-rack failures.

Mr. Rawlings experience at Microsoft included numerous upper-level positions including Senior Team Manager-Cloud Operations and Innovation, Senior Quality Engineer + Inventor Cloud Infrastructure and Operations, and Senior Process Consultant. He has served as Senior Project Manager, Search Advertising Biz Group which resulted in the successful Microsoft and Yahoo Advertising Merger. He has also served as Vice President of Operations for JP Morgan Chase. He currently serves as a Digital Innovation Consultant developing datacenter cooling innovation designs using immersion with Helium, CO2 and other coolants. Mr. Rawlings has consulted with global companies on R&D and product development.

Mr. Rawlings has a BA from the University of Minnesota and additional coursework from the Bainbridge Graduate Institute, The University of Washington-Foster School of Business, Project Management coursework at the University of Minnesota, and JP Morgan Corporate training: Lean Six Sigma, Kaizen, Value Stream Mapping, and Agile. He formerly served as an Advisory Board Member of Microsoft Garage, and was a Board Member of Wilderness Awareness School, Duvall, Washington.

Mr. Rawlings brings an important background to the Science and Technology Advisory Board that has synergistic applications across a wide range of Company interests moving forward.

About PetroSun

PetroSun, Inc. is a fully integrated energy and mining business focusing on Lithium, Helium, Natural Gas, Oil, Potash, Zeolite Clays, Water Processing, Mine Tailings, Rare Gases, and Rare Earth Metals Processing through the use of cutting-edge technologies, a broad portfolio of assets and leases, and a management team with decades of research,

development, and production experience. PetroSun is vertically integrated with control of all aspects of the business from exploration and production to delivery to end users, providing customers direct customized solutions and shareholders maximum returns by participating in profitability at each stage in the supply chain.

PetroSun, Inc. owns significant leasehold acreage that is prospective for helium exploration and production in the Holbrook Basin of Arizona and for natural gas and helium in the Paradox Basin of Utah. The Company holds mineral leases on approximately 280,000 gross acres in the Holbrook Basin and Pedregosa Basin of Arizona and over 26,000 gross acres in the Paradox Basin.

PetroSun's greatest assets are its shareholders, partners, advisors, employees, and its patented and proprietary technologies. We seek to provide global solutions to some of the most critical challenges the world faces today and into the future.

The Company trades on the OTC Pink Sheets under the symbol "PSUD".
