“Our team is very excited to finally complete the recordation of our patents and trademarks for our Hydroponics systems. It’s always comforting and uplifting when the company completes projects and one more milestone of development of the Business Plan. Some of our deals take several years to complete and we just have to be patient because the overall “Global Plan” for Auri Inc., is very complex. However, we feel that the company is adding shareholder value by completing all of its goals and projections.” Stated Edward Vakser, the Business Plan developer and architect.
