5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

- A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

The Company has the exclusive rights, in perpetuity, to develop and mine on the 10 unpatented mining claims that consist of the Treasure Canyon Lode Mine. A photo representation of these mines is below.

Mine Ownership History

The 10 unpatented claims are owned by Treasure Canyon Enterprises, Inc. (a Wyoming Corporation). On February 12, 2020, the assets of Treasure Canyon Enterprises were contributed and pledged to EON Discovery, Inc. to fund and operate the Treasure Canyon Lode Mine. On July 1, 2020, the Company acquired EON Discovery, Inc.

Mine Location

The Treasure Canyon Lode mine is ten unpatented mining claims located in Plumas National Forest, California. The location of the mine is represented in the photo of the map above.

Mine Description

The ten mining claims cover 200 acres of mineral deposits centered on Lights Creek mining area. The lode claims encompass vein deposits of gold, silver, platinum group minerals, and other valuable minerals and placer deposits of gold, silver and platinum. The mine has been worked by Thomas Heathman, EON Discovery’s President, for approximately 20 years. The tunnel has previous been constructed and was in use. However, in 2006 a forest fire burned the wood support beams in the mine which resulted in a collapse of the tunnel.

Mine Current Operations

The Company expects to begin its mine assessment work on or about August 15, 2020. The assessment work includes, but is not limited to, drilling, excavations, driving shafts and tunnels, sampling (geochemical or bulk), road construction on or for the benefit of the mining claim; and geological, geochemical, and geophysical surveys. The Company expects as part of the assessment work we will process 5-10 tons of raw material per day.

The Company has filed its Plan of Operations with the United States Forest Service. The mining claims were operated under a previously approved Plan of Operations by Treasure Canyon Enterprises. This included a construction of a mining camp on site and the expanding the Ada Drift. The tunnel was originally 70 feet in length and 4 feet in width. A Drift is a general mining term, meaning a near-horizontal passageway in a mine, following the bed or vein of ore.

The Company cannot build the mining camp or rehabilitate the previous tunnel until the Plan of Operations has been approved. Once the Plan of Operations has been approved by the United States Forest Service, the Company will begin to rehabilitate the Ada Draft Tunnel. This consists of the following activities:

1. Build a base camp for mining operations and housing of the workers.
2. Remove the rubble from the Ada Draft Tunnel.
3. Expand the width of the Ada Draft Tunnel from 4 feet to 9 feet.
4. Build concrete and steel support structure system.

Once the Ada Drift has been rehabilitated and opened, the Company would commence mining operations. Initially, the Company would begin processing 5 – 10 tons of raw material per day. The Company anticipates increasing the daily production of raw material to 100 tons per day within 12 months of re-opening of the Ada Drift.

- B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of such entity’s business, contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference

Buscar Company is a holding company with the wholly owned subsidiary EON Discovery, Inc. EON Discovery holds the rights to the mining claims in California and will hold future claims that are acquired. EON Mining CA, Inc. is a wholly owned subsidiary of EON Discovery. EON Mining CA is the mining operator for the California claims. The operations and assets are in separate companies for liability purposes. The address and officers of each are the same.

- C. Describe the issuers’ principal products or services, and their markets

Gold and other precious metal mining.

6) Issuer’s Facilities

The Company’s mailing address is Buscar Company 1624 Market Street Suite 202 Denver, CO 80202. The Company maintains no other offices. The Company’s operations are conducted on the mining site described above.

BUSCAR COMPANY
Notes to Unaudited Condensed Consolidated Financial Statements
June 30, 2020

Note 1 - Business

Buscar Company. (“Buscar”, “we”, “us”, “our”, the “Company”) was incorporated in Nevada as Cascade Springs Ltd. on January 19, 2010. In 2012, we amended our Articles of Incorporation to change our name to Colorado Gold Mines, Inc. On June 18, 2014, changed our name to Buscar Oil, Inc. On May 19, 2015, the Company changed its name to Buscar Company. Buscar is domiciled in the state of Nevada, and its corporate headquarter is located in Denver, CO. The Company selected June 30 as its fiscal year end.

The Company has the exclusive rights, in perpetuity, to develop and mine on the 10 unpatented mining claims that consist of the Treasure Canyon Lode Mine. The 10 unpatented claims are owned by Treasure Canyon Enterprises, Inc. (a Wyoming Corporation). On February 12, 2020, the assets of Treasure Canyon Enterprises were contributed and pledged to EON Discovery, Inc. to fund and operate the Treasure Canyon Lode Mine. On July 1, 2020, the Company acquired EON Discovery, Inc.

Note 2 - Going Concern

These unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these unaudited condensed consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2020, the Company had not yet achieved profitable operations, has accumulated losses of \$7,200 since its inception and expects to incur further losses in the development of its business, all of which raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances, however there is no assurance of additional funding being available or on terms acceptable to the Company.

Note 3 - Summary of Significant Accounting Policies

Basis of Presentation of Interim Financial Statements

The accompanying unaudited interim consolidated financial statements as of and for the Fiscal Years ended June 30, 2020 and June 30, 2019 have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. All intercompany balances and transactions have been eliminated in consolidation. Operating results for the Fiscal Year June 30, 2020 are not necessarily indicative of the results that may be expected for any future periods.

Use of Estimates and Assumptions

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates. It is reasonably possible that a change in the Company’s estimates will occur in the near term and such change could be material as information becomes available. The Company’s estimates include thoroughbreds reserve for potential impairment, and contingent liabilities.

Consolidation Policy

The consolidated financial statements of the Company include the accounts of the Company and its wholly owned subsidiary, EON Discovery. All significant intercompany balances and transactions have been eliminated in consolidation.

Recapitalization

For financial accounting purposes, this transaction was treated as a reverse acquisition by EON Discovery, Inc., and Buscar Company resulted in a recapitalization with EON Discovery being the accounting acquirer and Buscar Company as the acquired company. Buscar had no assets, liabilities or operations on the date of merger. Accordingly, the historical financial statements prior to the acquisition are those of the accounting acquirer, EON Discovery and have been prepared to give retroactive effect to the reverse acquisition completed on July 1, 2020 and represent the operations of EON Discovery.

Long-Lived Assets

Long-lived assets are evaluated for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of these assets are no longer appropriate. Each impairment test is based on a comparison of the undiscounted future cash flows to the recorded value of the asset. If impairment is indicated, the asset is written down to its estimated fair value.

Stock-Based Compensation

ASC 718, “*Compensation – Stock Compensation*,” prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the consolidated financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, “*Equity – Based Payments to Non-Employees*.” Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

Revenue Recognition

The Company pursues opportunities to realize revenues from a principal activity: sale of precious minerals mined. It is the Company’s policy that revenues and gains will be recognized in accordance with ASC Topic 605-10-25, “Revenue Recognition.” Under ASC Topic 605-10-25, revenue earning activities such as selling the horses and the Company has substantially accomplished all it must do to be entitled to the benefits represented by the revenue. Gains or losses from the sale of the precious metal are recognized when the precious metal is sold, and the cost and associated accumulated depreciation are removed from the accounts and the resulting gain or loss is recognized in the statement of operations.

Recent Accounting Pronouncements

Revenue from Contracts with Customers

In September 2017, the FASB has issued Accounting Standards Update (ASU) No. 2017-13, “Revenue Recognition (Topic 605), Revenue from Contracts with Customers (Topic 606), Leases (Topic 840), and Leases (Topic 842): Amendments to SEC Paragraphs Pursuant to the Staff Announcement at the July 20, 2017 EITF Meeting and Rescission of Prior SEC Staff Announcements and Observer Comments.” The amendments in ASU No. 2017-13 amends the early adoption date option for certain companies related to the adoption of ASU No. 2014-09 and ASU No. 2016-02. Both of the below entities may still adopt using the public company adoption guidance in the related ASUs, as amended. The effective date is the same as the effective date and transition requirements for the amendments for ASU 2014-09 and ASU 2016-02.

In May 2014, the FASB issued accounting standards updates which modifies the requirements for identifying, allocating, and recognizing revenue related to the achievement of performance conditions under contracts with customers. This update also requires additional disclosure related to the nature, amount, timing, and uncertainty of revenue that is recognized under contracts with customers. This guidance is effective for fiscal and interim periods beginning after December 15, 2017 and is required to be applied retrospectively to all revenue arrangements. The adoption of this guidance is not expected to have a significant impact on the Company’s consolidated financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA and the SEC did not or are not believed by management to have a material impact on the Company's present or future consolidated financial statements.

Note 7 - Commitments and Contingencies

Dividend policy

The Company intends to distribute cash dividends to the shareholders from the proceeds of its mining operations. However, our ability to pay dividends is subject to limitations imposed by Nevada law. Pursuant to Nevada Revised Statute 78.288, dividends may be paid to the extent that a corporation's assets exceed its liabilities and it is able to pay its debts as they become due in the usual course of business.

Note 8 - Equity

Basic earnings per share (“EPS”) is computed by dividing earnings (loss) attributable to common shareholders by the weighted average number of common shares outstanding for the periods. Diluted EPS reflects the potential dilution of securities that could share in the earnings. As of June 30, 2020, the Company did not have any dilutions.

Note 10 – Subsequent Events

The Company has analyzed its operations subsequent to June 30, 2020 to the date these financial statements were issued, and have the following events to disclose:

On July 1, 2020, the Company acquired EON Discovery, Inc. The Company is currently finalizing the final share issuance to the shareholders of EON Discovery but the expected share issuance is approximately 177,714,157 shares of common stock and we expect those shares to be issued on or about August 15, 2020. All these shares are restricted. As part of the acquisition of EON Discovery, the Company has verbally agreed to a \$2,250,000 cash investment in exchange for 2,250,000 shares of Preferred Stock that will convert into 2,250,000 shares Common Stock 30 months from issuance of the Preferred Stock. We expect this transaction to close within the next 30 days.

In June 2020, the Company received \$200,000 into EON Discovery that will be exchanged into 1,000,000 shares of common stock as part of the EON Discovery Acquisition. These shares will be restricted for a period of at least 2 years.
