The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company was incorporated under the laws of the State of Nevada, U.S. on December 13, 2006 under the name Bosco Holdings Inc. On March 1, 2011, the Company changed its name from Bosco Holdings Inc. to Caduceus Software Systems Corp. The Company was in the development stage as defined under Accounting Codification Standard ("ASC") 915, "Development Stage Entities", and its efforts were primarily devoted to marketing and distributing laminate flooring to the wholesale and retail markets throughout North America. On June 9, 2011, the Company entered into a Licensing Agreement for the exclusive license to software optimized for use in the medical industry for patient management, patient appointment scheduling, physician memorandum recording, medical symptom and ailment recording and digital image recording. The Company is now in the business of providing medical software to medical professionals. The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise.

On July 6, 2018, the Company redomiciled from the State of Nevada to the State of Wyoming. Our goal is to be a leading and innovative provider of Software Services to medical practices around the world. Our Caduceus MMS® software provides a full suite of services for management of the entire medical practice bridging the gap of many software offerings by providing modular components that unite both the Electronic Health Record ("EHR") and the Electronic Medical Billing ("EMB") to streamline the management of any practice, anywhere in the world. Our overall strategy utilizes our core competencies in the design, deployment and management of software and systems to provide installations on small local networks in the medical practice office, to larger systems in medical facilities. With our software, there can, with proper planning, be nominal costs incurred as offices upgrade and gear up for larger client bases.

On January 20 2021, the Company decided to discontinued its effort in its not generated any revenue software operation and to refocus its effort on entering the recession proof Pet Food and Pet Care industry with a lucrative generating operation.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

In the opinion of management, all adjustments necessary to present fairly the financial position as of March 31, 2021 and the results of operations and cash flows presented herein have been included in the interim financial statements. NOTE 3 - GOING CONCERN

The accompanying unaudited financial statements have been prepared assuming that the Company will continue as a going concern. For the year ended March 31, 2021, the Company had no revenue and had a net loss of \$72,421. In view of these matters, the Company's ability to continue as a going concern is dependent upon the continued financial support from its management, its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and its ability to grow operations and to achieve a level of profitability. The Company intends on financing its future development activities and its working capital needs largely from the sale of public equity securities and debt financing. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The unaudited financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.
