## **Note 1. Organization, History and Business**

Human Unitec International, Inc. (the Issuer) is publicly traded on OTC Markets under ticker symbol HMNU and was formed in the state of Nevada on August 19, 2002 under the name Smart Home Concepts, Inc. The Issuer's name was changed to Alo International, Inc. on May 19, 2004, and again on November 14, 2008 to Human Unitec International, Inc.

## **Note 2. Summary of Significant Accounting Policies**

The Issuer's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### **Revenue Recognition**

Revenue is derived from contracts with our consumers. Revenue is recognized in accordance with ASC 605. As such, the Issuer identifies performance obligations and recognizes revenue over the period through which the Issuer satisfies these obligations. Any contracts that by nature cannot be broken down by specific performance criteria will recognize revenue on a straight-line basis over the contractual term of period of the contract.

### **Accounts Receivable**

Accounts receivable is reported at the customers' outstanding balances, less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable.

### **Allowance for Doubtful Accounts**

An allowance for doubtful accounts on accounts receivable is charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses. Management determines the adequacy of the allowance based on historical write-off percentages and information collected from individual customers. Accounts receivable are charged off against the allowance when collectability is determined to be permanently impaired.

### **Stock Based Compensation**

When applicable, the Issuer will account for stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The Issuer accounts for stock-based payments to non-employees in accordance with ASC 505-50, "Equity-Based Payments to Non-Employees." Stock-based payments to non-employees include grants of stock, grants of stock options and issuances of warrants that are recognized in the consolidated statement of operations based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date.

The Issuer calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered stock option or warrant. The Issuer estimates forfeiture rates for all unvested awards when calculating the expense for the period. In estimating the forfeiture rate, the Issuer monitors both stock option and warrant exercises as well as employee termination patterns. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the period in which the Issuer expects to receive the benefit, which is generally the vesting period.

### **Earnings/Loss per Share**

The Issuer reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since there are no dilutive securities.

### **Cash and Cash Equivalents**

For purpose of the statements of cash flows, the Issuer considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

### **Concentration of Credit Risk**

The Issuer primarily transacts its business with one financial institution. The amount on deposit in that one institution may from time to time exceed the federally insured limit.

### **Depreciation**

Equipment is stated at cost less accumulated depreciation. Major improvements are capitalized while minor replacements, maintenance and repairs are charged to current operations. Depreciation is computed by applying the straight-line method over the estimated useful lives, which are generally three to five years.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Business segments**

ASC 280, "*Segment Reporting*" requires use of the "*management approach*" model for segment reporting. The management approach model is based on the way a Issuer's management organizes segments within the Issuer for making operating decisions and assessing performance. The Issuer determined it has one operating segment as of June 30, 2021.

### **Income Taxes**

The Issuer accounts for its income taxes under the provisions of ASC Topic 740, "Income Taxes." The method of accounting for income taxes under ASC 740 is an asset and liability method. The asset and liability method requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of other assets and liabilities.

### **Recent Accounting Pronouncements**

The Issuer continually assesses any new accounting pronouncements to determine their applicability to the Issuer. Where it is determined that a new accounting pronouncement affects the Issuer's financial reporting, the Issuer undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Issuer's financials properly reflect the change. The Issuer currently does not have any recent accounting pronouncements that they are studying, and feel may be applicable.

### **Note 3. Income Taxes**

Deferred income tax assets and liabilities are computed annually for differences between financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The effective tax rate on the net loss before income taxes differs from the U.S. statutory rate as follows:

06/30/2021

U.S statutory rate

34.00%

Less valuation allowance	-34.00%
Effective tax rate	0.00%

The significant components of deferred tax assets and liabilities are as follows:

06/30/2021 Deferred tax assets

Net operating losses	\$		(\$0)
Deferred tax liability			
Net deferred tax assets			(\$0)
Less valuation allowance			0
Deferred tax asset - net valuation allowance	\$		0

The Issuer adopted the provisions of ASC 740-10-50, formerly FIN 48, and “Accounting for Uncertainty in Income Taxes”. The Issuer had no material unrecognized income tax assets or liabilities as of June 30, 2021.

The Issuer’s policy regarding income tax interest and penalties is to expense those items as general and administrative expense but to identify them for tax purposes. During the period ending June 30, 2021 there were no income tax, or related interest and penalty items in the income statement, or liabilities on the balance sheet. The Issuer files income tax returns in the U.S. federal jurisdiction and Nevada state jurisdiction. We are not currently involved in any income tax examinations.

#### Note 4. Related Party Transactions

#### Note 5. Stockholders’ Equity

##### Common Stock

The holders of the Issuer's common stock are entitled to one vote per share of common stock held. As of June 30, 2021, the Issuer **881,930,000** shares issued and outstanding.

##### Preferred Stock

###### Series A

The holders of the Issuer’s Preferred Series A stock are entitled to:

Each individual share of Series A Preferred Stock shall have the voting rights equal to one share of common stock voting issued and outstanding at the time of voting. The Preferred Stock is convertible after 2 years for one share of Preferred Stock for one shares of Common Stock. As of June 30, 2021, the Issuer had 4,708,820 shares of Preferred Series A issued and outstanding.

#### Note 6. Commitments and Contingencies

##### Commitments:

The Issuer currently has no long-term commitments as of our balance sheet date.

##### Contingencies:

None as of our balance sheet date.

## Note 7. Notes Payable

Notes payable consist of the following for the periods ended;		06/30/2021
working capital notes with no stated interest rate. Note is payable on demand .	\$	\$0
Total Notes Payable		\$216,438
Less Current Portion		(\$0)
Long Term Notes Payable	\$	216,438

## Note 8. Going Concern

The accompanying financial statements have been prepared assuming that the Issuer will continue as a going concern. Currently, the Issuer has no operating history and has incurred operating losses, and as of the period ending March 31, 2021, the Issuer had a working capital deficit and an accumulated deficit.

These factors raise substantial doubt about the Issuer's ability to continue as a going concern. Management believes that the Issuer's capital requirements will depend on many factors including the success of the Issuer's development efforts and its efforts to raise capital. Management also believes the Issuer needs to raise additional capital for working capital purposes. There is no assurance that such financing will be available in the future. The conditions described above raise substantial doubt about our ability to continue as a going concern. The financial statements of the Issuer do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Issuer be unable to continue as a going concern.

On March 11, 2020, the World Health Organization declared the outbreak of a novel coronavirus (SARS-CoV-2) to be a global pandemic (COVID-19), which continues to spread throughout the Italy, United States and around the world.. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the Company, COVID-19 may impact various parts of its 2020 operations and financial results including but not limited to reduction in sales, difficulties in obtaining additional financing, or potential shortages of personnel. The Company believes it is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year end and are still developing.

## Note 9. Subsequent Events
