Use the space below to provide any additional details, including footnotes to the table above:

4) Financial Statements

A. The following financial statements were prepared in accordance with:

- U.S. GAAP
 IFRS

B. The financial statements for this reporting period were prepared by (name of individual)⁴:

Name: **Michael K. Fish**
Title: **Certified Public Accountant**
Relationship to Issuer: **Director**

Provide the financial statements described below for the most recent fiscal year or quarter. For the initial disclosure statement (qualifying for Pink Current Information for the first time) please provide reports for the two previous fiscal years and any subsequent interim periods.

- C. Balance Sheet;
D. Statement of Income;
E. Statement of Cash Flows;
F. Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
G. Financial notes; and
H. Audit letter, if audited

You may either (i) attach/append the financial statements to this disclosure statement or (ii) file the financial statements through OTCIQ as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial statements in a separate report as described above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to OTCIQ in the field below. Financial Statements must be compiled in one document.

The unaudited financial statements for the period ended 06/30/2021 are attached hereto

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Curative Biotechnologies, Inc. (CUBT) is a development stage biotechnology innovator focusing on novel treatments for rare diseases and therapies with accelerated development paths. At the heart of our process is a product development engine that rests on our unique S.O.A.R. filter (Science, Opportunity, Acceleration, Rare Disease). Our first-generation portfolio under development includes a novel monoclonal antibody drug conjugate to treat newly diagnosed glioblastoma, a novel immunotherapy to treat late-stage rabies, and a reformulated version of the drug

⁴ The financial statements requested pursuant to this item must be prepared in accordance with US GAAP or IFRS by persons with sufficient financial skills.

Metformin as a topical administration to treat degenerative eye diseases. At Curative Biotech we envision a world where all patients have a therapeutic option.

B. Please list any subsidiaries, parents, or affiliated companies.

N/A

C. Describe the issuers' principal products or services.

The Company is focused on developing therapies with potentially accelerated development paths as a result of either the disease, the nature of the therapeutic itself, or the stage of clinical development. The Company operates on an outsource model, where it's core management group oversees a network of subject matter experts, clinical advisors, manufacturing vendors and regulatory consultants.

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company utilizes virtual office space at a cost of \$99 per month.

7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% or more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

NOTE 1 - NATURE OF OPERATIONS

Curative Biotechnology Inc. (f/k/a Connectyx Technologies Holdings Group, Inc.), (CUBT) is a Florida corporation, formed as a Nevada corporation on June 29, 1995, reincorporated in Florida on October 30, 2007, with a name change November 30, 2020, which conducts business from its headquarters in Boca Raton, Florida. Curative Biotechnology, Inc. is a development stage biomedical company that seeks to develop, in-license, sub-license and bring to market products in both the Pharmaceutical and Medical Device space. The Company focuses on products that are targeted at FDA-defined "Orphan Diseases" with patient populations under 200,000 in the United States. The company leverages management's experience and business relationships with Life Science development associations as well as Life Science-focused venture capital firms to acquire Life Science candidates that fit within the company's business model. The company has established a scientific advisory board with a successful track record of bringing pharmaceuticals to market.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation The accompanying unaudited condensed interim financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP") in the United States of America ("U.S.") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). In our opinion, the accompanying unaudited interim financial statements contain all adjustments (which are of a normal recurring nature) necessary for a fair presentation. Operating results for the six months ended June 30, 2021 are not necessarily indicative of the results that may be expected for the year ending December 31, 2021. Certain items have been reclassified to conform with the current presentation.

b) Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(c) Cash and equivalents For purposes of the statement of cash flows, the Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

(d) Property and equipment All property and equipment are recorded at cost and depreciated over their estimated useful lives, using the straight-line method. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from their respective accounts, and the resulting gain or loss is included in the results of operations. Repairs and maintenance charges, which do not increase the useful lives of the assets, are charged to operations as incurred.

(e) Intangible Assets The useful life of intangible assets is assessed as either finite or indefinite. Following the initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite useful lives are carried at cost less accumulated amortization. Amortization is calculated using the straight line method over the estimated useful lives.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis. If impairment indicators are present, these assets are subject to an impairment review. Any loss resulting from impairment of intangible assets is expensed in the period the impairment is identified.

Curative Biotechnology, Inc
(f/k/a Connectyx Technologies Holdings Group, Inc.)
Notes to Condensed Financial Statements
(Unaudited)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES, continued

(f) Impairment of Long-Lived Assets A long-lived asset is tested for impairment whenever events or changes in circumstances indicate that its carrying value amount may not be recoverable. An impairment loss is recognized when the carrying amount of the asset exceeds the sum of the undiscounted cash flows resulting from its use and eventual disposition. The impairment loss is measured as the amount by which the carrying amount of the long-lived assets exceeds its fair value.

(g) Financial Instruments and Fair Value Measurements ASC 825-10 “Financial Instruments”, allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be reported in earnings at each subsequent reporting date. The Company did not elect to apply the fair value option to any outstanding instruments.

ASC 825 also requires disclosures of the fair value of financial instruments. The carrying value of the Company’s current financial instruments, which include cash and cash equivalents, accounts payable and accrued liabilities approximates their fair values because of the short-term maturities of these instruments.

FASB ASC 820 “Fair Value Measurement” clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

(h) Related Party Transactions All transactions with related parties are in the normal course of operations and are measured at the exchange amount.

(i) Revenue Recognition The Company adopted Accounting Standards Codification, (“ASC”), 606, “Revenue from Contracts with Customer” on January 1, 2018. This revenue recognition standard has a five step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; e) Recognize revenue when (or as) performance obligations are satisfied.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES, continued

(j) Income Taxes Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income, and between the tax bases of assets and liabilities and their reported amounts in the financial statements. Deferred tax assets and liabilities are included in the consolidated financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in FASB ASC 740. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by the tax authorities.

(k) Net income (loss) per share Basic loss per share is computed by dividing the net income (loss) by the weighted average number of common shares outstanding during the period.

(l) Recent Accounting Pronouncements The Company has considered recent accounting pronouncements during the preparation of these financial statements.

NOTE 3 - LIQUIDITY AND GOING CONCERN CONSIDERATIONS

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company's financial position and operating results raise substantial doubt about the Company's ability to continue as a going concern, as reflected by the net loss of \$1,319,211, accumulated deficit of \$5,205,356 through June 30, 2021 and \$623,377 of working capital. The ability of the Company to continue as a going concern is dependent upon commencing operations, developing sales and obtaining additional capital and financing. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. The Company is currently seeking additional capital to allow it to grow its operations

NOTE 4 - INTANGIBLE ASSETS

(a) Website In December 2020, the Company contracted with a third party to develop and produce a new website for the Company for a contract price of \$22,500, one-half in cash and one-half in common stock of the Company. The Company expects to amortize this cost over 3 years once it is operational. This website was placed into service in March 2021. Amortization expense for the three months ended March 31, 2021 was \$625.

(b) Patent rights option In October 2020, the Company entered into an option agreement to purchase certain exclusive license rights for US Patent No. 8,287,505 Ophthalmic Drop Dispensing Tip Assembly, issued October 16, 2012, from IEM, Inc., (IEM), the sole owner of this patent. The cost of this option was payment to the US Patent and Trademark Office (US PTO) of the 7.5 year PTO maintenance fee in the amount of \$1,800, which the Company paid in October 2020.

The Company has until September 30, 2021, to advise IEM in writing that it wishes to exercise this Option Right and pay IEM \$50,000 in exchange for an exclusive world-wide, royalty free perpetual license. The Company is evaluating the Patent rights, potential products and markets under this Patent.

NOTE 4 - INTANGIBLE ASSETS, continued

(c) IMT504 Patent license In October 2020, the Company entered into a license agreement with MidAtlantic BioTherapeutics, Inc., (MABT), to license the development of a pharmaceutical compound known as IMT504, as immunotherapy for late stage symptomatic rabies. The license is for worldwide use. There are certain conditions to the license, principally that the Company raise \$6.5 million to fund the development. There is not a time limit on raising these funds unless the Company utilizes a public offering process, such as Regulation A.

The total cost for this license is 20 million shares of the Company's common stock, issuable in three tranches - 1- 7 million shares upon execution of the license (which have been issued, valued at \$91,000), 2- 6.5 million shares upon the submission of an Investigational New Drug (IND) to the FDA and 3- 6.5 million shares upon the successful completion of the first rabies clinical trial of this IND. This license calls for royalties of 50% of the net profit, after reimbursement for development costs, of successfully marketed products utilizing IMT504.

A principal goal of this license is to obtain a Priority Review Voucher (PRV) issued by the US FDA, and subsequently sell the PRV to a major pharmaceutical company. The Company and MABT will split the proceeds from the sale of such PRV equally.

(d) National Institute of Health (NIH) Patent license #1 In October 2020, the Company entered into an exclusive 24 month evaluation license of Provisional Patent Application No. 62/199,707, filed July 31, 2015; PCT Application No. PCT/US2016/044777 filed July 29, 2016 and Patent No. 10,548,987 issued February 4, 2020. This license is for the evaluation of and development of an anti-CD56 antibody drug conjugate for the treatment of glioblastoma. Should the Company develop a marketable product, the Company is then required to negotiate a new license with appropriate royalties.

This license calls for the payment of a non-creditable non-refundable license issue royalty of \$10,000, paid ½ at issuance and ½ on the one year anniversary.

(e) National Institute of Health (NIH) Patent license #2 In January 2021 the Company entered into an NIH exclusive 36 month worldwide license of Provisional Patent Application No. 62/899,899, filed September 13, 2019 and PCT Application No. PCT/US2020/050540 filed September 11, 2020. This license is for the development of ocular metformin formulation for the treatment of retinal degenerative diseases.

This license requires two separate royalty streams of payments.

First is a royalty equal to the unreimbursed patent expenses paid by NIH, with an initial amount of \$8,500 due within 30 days of execution of the license. At the first anniversary of the license NIH will supply a statement of additional unreimbursed patent expenses paid by NIH during the year, of which the Company is required to pay 50%, with the remaining balance due on the third anniversary.

Second is an ongoing royalty schedule: an initial royalty of \$5,000 upon execution of the license, and annually thereafter as the minimum royalty amount. The license can be extended on the third anniversary to the remaining life of the licensed patent by the payment of a one-time non-refundable non-creditable royalty of \$45,000. There are three benchmark royalties - \$75,000 upon the initiation of the first Phase 2 Clinical Study; \$300,000 upon the completion of Phase 3 Clinical Study and \$600,000 upon the FDA approval of the first Licensed Product. Upon first commercial sale there is a royalty of \$100,000 each for the United States, Canada, European Union and Asian region. Last is a 3.5% of net sales royalty.

Amortization expense for the three months ended March 31, 2021 and 2020, was \$625 and \$1,193, respectively.
