China Health Management Corporation
Notes to the Financial Statements
June 30, 2021
(Unaudited)

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

The Company was incorporated in the State of Nevada as Newcorp One Inc. on September 3, 1996. The Company then became Voxcom Holdings, Inc. on June 19, 1997. On November 15, 1999, the Company filed a certificate of amendment and changed its name to MAX Internet Communications, Inc. On July 28, 2006, the Company filed Articles of Merger and merged with China Health Management Corp. which became the surviving entity. On March 2, 2006, the Company changed its name to China Health Management Corp.

China Health Management Corp. was a development stage business intended to service the private healthcare industry in China. The focus of the operations was to provide management to hospitals in China. On September 12, 2018, Corporate Compliance, LLC filed an application for custodianship pursuant to NRS 78.347. The Eighth Judicial District Court of Clark County, Nevada granted custodianship over China Health Management Corp to Corporate Compliance, LLC on November 6, 2018.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk

Financial instruments which potentially subject the Company to concentration of credit risk consist of cash deposits and customer receivables. The Company maintains cash with various major financial institutions. The Company performs periodic evaluations of the relative credit standing of these institutions. To reduce risk, the Company performs credit evaluations of its customers and maintains reserves when necessary for potential credit losses.

Cash and cash equivalents

We consider all highly liquid securities with original maturities of three months or less when acquired to be cash equivalents. There were no cash equivalents as of June 30, 2021 and 2020.

Stock-based Compensation

We account for equity-based transactions with nonemployees under the provisions of ASC Topic No. 505-50, *Equity-Based Payments to Non-Employees* (“ASC 505-50”). ASC 505-50 establishes that equity-based payment transactions with nonemployees shall be measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The fair value of common stock issued for payments to nonemployees is measured at the market price on the date of grant. The fair value of equity instruments, other than common stock, is estimated using the Black-Scholes option valuation model. In general, we recognize the fair value of the equity instruments issued as deferred stock compensation and amortize the cost over the term of the contract.

We account for employee stock-based compensation in accordance with the guidance of FASB ASC Topic 718, *Compensation—Stock Compensation*, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The fair value of the equity instrument is charged directly to compensation expense and credited to additional paid-in capital over the period during which services are rendered.

Net Loss per Share

Net income (loss) per common share is computed pursuant to section ASC 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented. The Company’s diluted loss per share is the same as the basic loss per share for the years ended June 30, 2021 and 2020, as the inclusion of any potential shares would have had an anti-dilutive effect due to the Company generating a loss.

Fair value of financial instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification (“Paragraph 820-10-35-37”) to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's payables approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for similar financial arrangements at June 30, 2020 and 2019.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis as of June 30, 2021 and 2020.

Income Taxes

We follow ASC 740-10-30, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income in the period that includes the enactment date.

Recent Accounting Pronouncements

The Company has reviewed all recently issued accounting pronouncements and plans to adopt those that are applicable to it. The Company does not expect the adoption of any other pronouncements to have an impact on its results of operations or financial position.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company had an accumulated deficit at June 30, 2021 of \$27,795,323. The Company requires capital for its contemplated operational and marketing activities. The Company's ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the Company's contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. These conditions and the ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements of the Company do not include any adjustments that may result from the outcome of these uncertainties.

NOTE 4 – COMMON STOCK

During the year ended June 30, 2021 and June 30, 2020, the Company issued no shares of common stock.

NOTE 5 – PREFERRED STOCK

During the year ended June 30, 2019, the Company issued 500,000 shares of Series A Preferred Stock to Tech Associates, Inc., for repayment of the related party debt totaling \$20,619 due to Richard Chiang. The control person for Tech Associates, Inc. is Richard Chiang.

During the year ended June 30, 2021 and June 30, 2020, the Company issued no shares of preferred stock.

NOTE 6 – RELATED PARTY TRANSACTIONS

As of May 1, 2019, Richard Chiang, the Company's officer and director, had loaned the Company \$20,619. The Company used these funds to pay the costs and expenses necessary to revive the Company's business operations. On May 1, 2019, the Company issued 500,000 shares of Series A Preferred Stock to Tech Associates, Inc., for repayment of the related party debt totaling \$20,619 due to Richard Chiang. The control person for Tech Associates, Inc. is Richard Chiang.

During the year ended June 30, 2020, Richard Chiang contributed \$769 in cash to pay for operating expenses. This has been recorded as additional paid-in capital.

During the year ended June 30, 2021, Richard Chiang loaned the Company \$9,240 to fund the Company's operations. This has been recorded as due to related party payable.

NOTE 7– SUBSEQUENT EVENTS

In accordance with SFAS 165 (ASC 855-10) management has performed an evaluation of subsequent events through the date that the financial statements were issued and has determined that it does not have any material subsequent events to disclose in these financial statements.

5) Issuer's Business, Products and Services
