Notes to the Financial Statements
July 31, 2021
(Unaudited)

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

BioCube, Inc. (the "Company") is a Delaware registered company. The Company was incorporated in July 2007.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk

Financial instruments which potentially subject the Company to concentration of credit risk consist of cash deposits and customer receivables. The Company maintains cash with various major financial institutions. The Company performs periodic evaluations of the relative credit standing of these institutions. To reduce risk, the Company performs credit evaluations of its customers and maintains reserves when necessary for potential credit losses.

Cash and cash equivalents

We consider all highly liquid securities with original maturities of three months or less when acquired to be cash equivalents. There were no cash equivalents as of July 31, 2021 and January 31, 2021.

Income Taxes

We follow ASC 740-10-30, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income in the period that includes the enactment date.

We adopted ASC 740-10-25 ("ASC 740-10-25") with regard to uncertainty income taxes. ASC 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC 740-10-25, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. ASC 740-10-25 also provides guidance on derecognition, classification, interest and penalties on income taxes, and accounting in interim periods and requires increased disclosures. We had no material adjustments to our liabilities for unrecognized income tax benefits according to the provisions of ASC 740-10-25.

Recent Accounting Pronouncements

The Company has implemented all applicable accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has no revenue and has an accumulated deficit as of July 31, 2021, 2021. The Company requires capital for its contemplated operational and marketing activities. The Company's ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the Company's contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. These conditions and the ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements of the Company do not include any adjustments that may result from the outcome of these uncertainties.

NOTE 4- SUBSEQUENT EVENTS

In accordance with SFAS 165 (ASC 855-10) management has performed an evaluation of subsequent events through the date that the financial statements were issued and has determined that it does not have any material subsequent events to disclose in these unaudited financial statements.
