### **5) Issuer's Business, Products and Services**

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

**A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")**

Valiant Eagle, Inc. (PSRU:OTC) is a publicly-traded corporation focused on the energizing of entertainment in television, the Internet, and social media. It aims to achieve unparalleled advances in those media through content featuring Music, Sports, Entertainment, and, with respect to the millennial generation, through Technology.

Technology is now an integral part of our lives. With its speed, accuracy, and virtually unlimited quantity of information, the Internet provides us all with many means of communication. However, that is all the Internet guarantees to provide — a means to convey information. Individuals, organizations and governments are freely using this platform, mostly to their own ends.

The Internet does not automatically provide fulfillment, opportunity, or happiness to all who use it, and so, with respect to entertainment program content, a high level of consumer satisfaction has yet to be reached.

Valiant Eagle, Inc. looks to fill this void by feeding high-quality, fulfilling program content to iPhones, Android phones, tablets, computers, and smart TVs.

2015 demarked the transition of the Information Age into the Communication Age. No longer is information, when delivered one-way (e.g. through traditional cinema, television, radio, and print such as newspapers and magazines) considered as valuable as it was.

Knowledge, intellectual or emotional, passed through these same media now includes a means of two-way-communication. Feedback, comments, questions, are now so commonplace that the average western person communicates up to a hundred times more per day than before social media existed. The majority spoke up, and the world changed once more.

It is now no longer necessary to use the traditional media to reach the public at large. Since their traditional role as gatekeepers to Information has disintegrated, the traditional print, TV and cinema media business models will gradually sunset and be at least partially subsumed into those of the Internet.

From statistical evidence, 2017 was the first year that the usage of digital video through smartphones, tablet devices and smart TVs superseded that of traditional TVs connected with network, satellite or cable services.

Specialized video content, whether on demand or by niche subscription, then provided their audiences with a truly discrete and satisfactory experience, tailored to their own individual tastes, by downloading or streaming video, and then allowed for those audiences to speak back to the media, and further tailor their own programming experiences to their wants and needs.

Thus, the need for viewers to consume specialized or niche-oriented online and broadcast content for entertainment and information has exploded, and is still growing exponentially, since each of these newer portable devices can be

considered to be its own highly portable TV set with an audience of one. That individual is ever curious and searching for new, fulfilling content to watch and learn through, or watch and feel through.

With its access to its comprehensive set of programs, channels and stations, leading to the smooth and effortless delivery of both intellectually and emotionally satisfying program content, Valiant Eagle, Inc. allows its viewers to lock in on contemporary topics in Music, Sports, Entertainment and Technology in the most convenient and efficient way ever. It has its eye set in the new Communication Age, and intends to reach and maintain its position at its very apex.
