HAI JIA INTERNATIONAL LIMITED COMPANY
NOTES TO FINANCIAL STATEMENTS
AS OF SEPTEMBER 30, 2021 AND MARCH 31, 2021
(Unaudited)

Note 1 – Organization and basis of accounting

Basis of Presentation and Organization

Hai Jia International Limited Company (the “Company”) is a development stage enterprise that was originally incorporated, on December 12, 2000, under the laws of the State of Nevada as Karrison Compagnie, Inc. The Company initially planned to acquire antiques, collectibles, and home and office furnishings for resale through periodic local showroom sales and web site sales; however, the Company was unable to emerge from the development stage using its original business plan and decided to abandon that plan to pursue a merger with an operating business. Accordingly, effective April 1, 2004, the Company signed a merger agreement with American Fidelity, Inc., an independent residential mortgage lender headquartered in Baton Rouge, Louisiana. Concurrent with the merger agreement, the Company changed its name from Karrison Compagnie, Inc. to American Fidelity Financial Services, Inc.

On October 16, 2006, the Company changed its name from American Fidelity Financial Services, Inc. to Trinity Capital Partners, Inc. and raised its authorized shares from 20,000,000 to 250,000,000.

On February 21, 2019, the eight judicial District Court of Nevada appointed Custodian Ventures, LLC as custodian for Trinity Capital Partners, Inc., proper notice having been given to the officers and directors of Trinity Capital Partners, Inc. There was no opposition.

On March 04, 2019, the Company filed a certificate of revival with the state of Nevada, appointing David Lazar as, President, Secretary, Treasurer and Director.

On January 29, 2021, the Company changed its name from Trinity Capital Partners, Inc. to Hai Jia International Limited Company.

A change of control of the Company was completed on December 28, 2020, control was obtained by the sale of 1,168,547,500 common shares from Custodian Ventures, LLC to three individuals. After December 28, 2020, the Company’s operations are determined and structured by the new major shareholders.

The accompanying financial statements are prepared on the basis of accounting principles generally accepted in the United States of America (“GAAP”). The Company is a development stage enterprise devoting substantial efforts to establishing a new business, financial planning, raising capital, and research into products which may become part of the Company’s product portfolio. The Company has not realized significant sales through since inception. A development stage company is defined as one in which all efforts are devoted substantially to establishing a new business and, even if planned principal operations have commenced, revenues are insignificant.

The accompanying financial statements have been prepared assuming the continuation of the Company as a going concern. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and is dependent on debt and equity financing to fund its operations. Management of the Company is making efforts to raise additional funding until a registration statement relating to an equity funding facility is in effect. While management of the Company believes that it will be successful in its capital formation and planned operating activities, there can be no assurance that the Company will be able to raise additional equity capital, or be successful in the development and commercialization of the products it develops or initiates collaboration agreements thereon. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Note 2 – Summary of significant accounting policies

Cash and Cash Equivalents

For purposes of reporting within the statements of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Employee Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718 Compensation - Stock Compensation (“ASC 718”). ASC 718 addresses all forms of share-based payment (“SBP”) awards including shares issued under employee stock purchase plans and stock incentive shares. Under ASC 718 awards result in a cost that is measured at fair value on the awards’ grant date, based on the estimated number of awards that are expected to vest and will recognize as compensation expense over the requisite service period.

Baic and Diluted Earnings (Loss) per Share

The Company presents net income (loss) per share (“EPS”) in accordance with FASB ASC Topic 260, “*Earning Per Share*.” Accordingly, basic income (loss) per share is computed by dividing income (loss) available to common stockholders by the weighted average number of shares outstanding, without consideration for common stock equivalents. Diluted EPS is computed by dividing the net income by the weighted-average number of common shares outstanding as well as common share equivalents outstanding for the period determined using the treasury-stock method for stock options and warrants and the if-converted method for convertible notes. The Company made an accounting policy election to use the if-converted method for convertible securities that are eligible to receive common stock dividends, if declared. Diluted EPS reflect the potential dilution that could occur based on the exercise of stock options or warrants or conversion of convertible securities using the if-converted method.

Income Taxes

Income tax expense is based on pretax financial accounting income. Deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts. Valuation allowances are recorded to reduce deferred tax assets to the amount that will more likely than not be realized. The Company recorded a valuation allowance against its deferred tax assets as of September 30, 2021 and March 31, 2021.

The Company accounts for uncertainty in income taxes using a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon settlement. The Company classifies the liability for unrecognized tax benefits as current to the extent that the Company anticipates payment (or receipt) of cash within one year. Interest and penalties related to uncertain tax positions are recognized in the provision for income taxes.

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments-Credit Losses (Topic 326), which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022. Early application will be permitted for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company is currently evaluating the impact that the standard will have on its financial statements.

In December 2019, the FASB issued ASU 2019-12, Simplifying the Accounting for Income Taxes, which simplifies the accounting for income taxes, eliminates certain exceptions within ASC 740, Income Taxes, and clarifies certain aspects of the current guidance to promote consistent application among reporting entities. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within those fiscal years, with early adoption permitted. Upon adoption, the Company must apply certain aspects of this standard retrospectively for all periods presented while other aspects are applied on a modified retrospective basis through a cumulative-effect adjustment to retained earnings as of the beginning of the fiscal year of adoption. The adoption of ASU 2019-12 will not have a significant impact on the Company’s financial statements as the Company does not have inter period tax allocation, deferred taxes for outside basis differences, tax benefit for interim losses amongst other things.

The Company’s management does not believe that any other recently issued, but not yet effective, authoritative guidance, if currently adopted, would have a material impact on the Company’s financial statement presentation or disclosures.

Note 3- Going Concern

The accompanying financial statements have been prepared assuming the continuation of the Company as a going concern. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and is dependent on debt and equity financing to fund its operations. Management of the Company is making efforts to raise additional funding until a registration statement relating to an equity funding facility is in effect. While management of the Company believes that it will be successful in its capital formation and planned operating activities, there can be no assurance that the Company will be able to raise additional equity capital or be successful in the development and commercialization of the products it develops or initiates collaboration agreements thereon. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Note 4 – Related party transactions

On February 21, 2019, the eight judicial District Court of Nevada appointed Custodian Ventures, LLC as custodian for Trinity Capital Partners, Inc., proper notice having been given to the officers and directors of Trinity Capital Partners, Inc. There was no opposition. On March 04, 2019, the Company filed a certificate of revival with the state of Nevada, appointing David Lazar as, President, Secretary, Treasurer and Director.

On March 28, 2019, the Company issued 179,880,000 shares of common stock to Custodian Ventures, LLC at par for shares valued at \$179,880 in exchange for settlement of a portion of a related party loan for amounts advanced to the Company in the amount of \$22,350, and a promissory note due to the Company in the amount \$157,530. The note bears an interest of 3% and matures in 180 days following written demand by the holder. On

November 18, 2019, the Company has determined that it is the best interest to redeem the 179,880,000 common shares from Custodian Ventures, LLC.

Also on November 18, 2019, the Company issued 10,000,000 shares of Series A Preferred Stock, par value \$0.00001, to Custodian Ventures, LLC in exchange for a promissory note of \$19,391 due to the Company. The note bears an interest of 3% and matures in 180 days following written demand by the holder. At December 31, 2020, the note receivable with a balance of \$21,396, which consists of principle of \$19,391 and accrued interest of \$2,005, was written off because the collectability of the note is unlikely after the change of control on December 28, 2020.

During the nine months ended September 30, 2020, Custodian Ventures, LLC advanced a total of \$12,764 to the Company for payment of OTC market registration fees, filing fees and legal fees. At December 31, 2020, the remaining loan balance of \$20,099 to Custodian Ventures, LLC was waived upon the change of control on December 28, 2020 per the stock purchase agreement.

As of September 30, 2021 and March 31, 2021, total due to related party was \$13,900 and \$0; which was from one of the Company's director and mainly for funding of the Company's working capital needs.

Note 5- Accounts payable
