**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*GOING CONCERN*

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating cost and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan to obtain such resources for the Company include, obtaining capital from management and significant stockholders sufficient to meet its minimal operating expenses. However, management cannot provide any assurance that the Company will be successful in accomplishing any of its plans.

There is no assurance that the Company will be able to obtain sufficient additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to the Company. In addition, profitability will ultimately depend upon the level of revenues received from business operations. However, there is no assurance that the Company will attain profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

*PRINCIPLES OF CONSOLIDATION*

The consolidated financial statements include the accounts of Apple Rush Company, Inc. and its subsidiary. All intercompany accounts and transactions have been eliminated.

*BASIS OF PRESENTATION AND USE OF ESTIMATES*

The Company prepares its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*USE OF ESTIMATES*

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

**Apple Rush Company, Inc.**  
**Notes to Unaudited Consolidated Financial Statements**

**RECLASSIFICATION OF PRIOR YEAR PRESENTATION**

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

**CASH AND CASH EQUIVALENTS**

The Company considers all highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents. Cash and cash equivalents at September 30, 2021 and December 31, 2020 were \$1,672 and \$386, respectively.

**CASH FLOWS REPORTING**

The Company follows ASC 230, Statement of Cash Flows, for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230, Statement of Cash Flows, to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period.

**RELATED PARTIES**

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions.

**FINANCIAL INSTRUMENTS**

The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 30, 2021. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

**Notes to Unaudited Consolidated Financial Statements**

**CONCENTRATIONS OF CREDIT RISK AND SIGNIFICANT CUSTOMERS**

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, marketable securities, accounts receivable and restricted cash. The Company limits its exposure to credit loss by placing its cash and cash equivalents with high credit-quality financial institutions in bank deposits, money market funds, U.S. government securities and other investment grade debt securities that have strong credit ratings. The Company has established guidelines relative to diversification of its cash and marketable securities and their maturities that are intended to secure safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates and changes in the Company's operations and financial position. Although the Company may deposit its cash and cash equivalents with multiple financial institutions, its deposits, at times, may exceed federally insured limits.

**REVENUE RECOGNITION**

The Company recognizes revenue when it is realized or realizable and earned.

The Company considers revenue realized or realizable and earned when all the following criteria are met:

- persuasive evidence of an arrangement exists
- the product has been shipped or the services have been rendered to the customer
- the sales price is fixed or determinable
- collectability is reasonably assured.

**NOTES RECEIVABLE**

The notes receivable represents the balance of a loan to Rowdy Brands and Thanks Again. The balance of notes receivable at September 30, 2021 and December 31, 2020 was \$60,385 and \$60,385, respectively. The Company believes these loans are collectable at September 30, 2021.

Note receivable due from Rowdy Brands.	\$ 60,385	\$ 60,385
Total Notes Receivable	<u>\$ 60,385</u>	<u>\$ 60,385</u>

**PREPAID EXPENSE**

The Company executed an agreement with SRAX, Inc. for internet advertising for a period of one year. The contract begins on May 24, 2021 and runs for twelve consecutive months. The Company has reserved 200,000,000 shares of common stock valued at \$1,500,000 for payment of the advertising agreement. The balance of prepaid expense at September 30, 2021 and December 31, 2020 was \$875,000 and \$0, respectively.

**PROPERTY, PLANT AND EQUIPMENT**

Furniture and equipment are stated at cost. Depreciation is computed by the straight-line method over estimated useful lives. Long-lived assets such as property, equipment and identifiable intangibles are reviewed for impairment at least Quarterly or whenever facts and circumstances indicate that the carrying value may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. The Company recognized impairment losses of \$0 and \$0 for the periods ending September 30, 2021 and December 31, 2020, respectively.

**IMPAIRMENT OF LONG- LIVED ASSETS**

The Company reviews and evaluates long-lived assets for impairment when events or changes in circumstances indicate that the related carrying amounts may not be recoverable. The assets are subject to impairment consideration under FASB ASC 360-10-35-17 if events or circumstances indicate that their carrying amount might not be recoverable. When the Company determines that an impairment analysis should be done, the analysis will be performed using the rules of FASB ASC 930-360-35, Asset Impairment, and 360-0 through 15-5, Impairment or Disposal of Long- Lived Assets.

**Apple Rush Company, Inc.**  
**Notes to Unaudited Consolidated Financial Statements**

**DEFERRED INCOME TAXES AND VALUATION ALLOWANCE**

The Company accounts for income taxes under FASB ASC 740 “Income Taxes.” Under the asset and liability method of FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the year the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

**NET INCOME (LOSS) PER COMMON SHARE**

Net income (loss) per share is calculated in accordance with FASB ASC 260, “Earnings Per Share.” The weighted-average number of common shares outstanding during each year is used to compute basic earning or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at September 30, 2021 and at December 31, 2020. At September 30, 2021 and December 31, 2020, the Company had no dilutive potential common shares.

**SHARE-BASED EXPENSE**

ASC 718, *Compensation – Stock Compensation*, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, *Equity – Based Payments to Non-Employees*. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued.

Share-based expense for the period ended September 30, 2021 and 2020 was \$27,500 and \$0, respectively.

**COMMITMENTS AND CONTINGENCIES**

The Company follows ASC 450-20, *Loss Contingencies*, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated. There were no known commitments or contingencies as of September 30, 2021 and December 31, 2020.

**RECENT ACCOUNTING PRONOUNCEMENTS**

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the *FASB Accounting Standards Codification*™ (“ASC”) is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. Management has reviewed the aforementioned rules and releases and believes any effect will not have a material impact on the Company's present or future financial statements.

We have reviewed the FASB issued Accounting Standards Update (“ASU”) accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new

**NOTE 8. COMMITMENTS AND CONTINGENCIES**

From time to time the Company may be a party to litigation matters involving claims against the Company. Management believes that there are no current matters that would have a material effect on the Company's financial position or results of operations.

**NOTE 9: SUBSEQUENT EVENTS**

On September 7, 2021, the Circuit Court of Lancaster County, Virginia entered a default judgment against APRU, LLC in a case brought by a former vendor for breach of contract. The Company contends that service of process of the summons and complaint in such case was defective and fraudulent because the suit papers were served upon an address where the Company had not maintained any corporate presence for over one year and that this fact was known to the former vendor. Also, the Company contends that the vendor entity is not registered to do business in the Commonwealth of Virginia and thus, lacked standing to maintain any civil action in such jurisdiction. The Company has filed a Motion to Set Aside Default Judgment and for an award of costs that will be heard by the court on November 23, 2021. Due to the defective service of process and lack of standing by the former vendor, the Company believes that the default judgment will be vacated. The Company intends to vigorously defend the allegations of the former vendor and file a counterclaim for fraud and breach of contract due to the defective product provided by the vendor.
