5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Founded in 2005 with Headquarters in Irvine, CA- Location Based Technologies (LBT) Inc. (OTCPink:LBAS) is a leading-edge service provider of Commercial vehicle, asset and personnel tracking devices along with Consumer vehicle, child/elderly and pet tracking solutions. One of our main focuses has been on intellectual property which has resulted in the Company's 28 issued patents. We have partnered with the best-in-class service providers, including AT&T in the United States to provide our network connectivity and messaging services for vehicle trackers and Yepzon Oy, Finland, for our personal tracking devices.

- B. Please list any subsidiaries, parents, or affiliated companies.

Yepzon, Inc, located in Finland, is an affiliated company.

- C. Describe the issuers' principal products or services.

LBT's fleet tracker is a small, affordable, fully sealed vehicle tracking system designed to track and display vehicle location, speed, altitude and direction. Designed to be quickly installed and features easy-to-use User interfaces. Our devices track vehicle location, speed and direction in near real time. This allows businesses to coordinate routing and re-routing of shipments, manage time delays and maximize fuel efficiency quickly and easily for company vehicles and both powered and non-powered trailers. We will soon offer a "teen driver" driver safety solution.

Q1 device sales were sharply lower due to a combination of IC chip and battery shortages resulting in complete depletion of device inventory. Gratefully, we had an alternate supply chain that we quickly shifted to and now have 1,000 in inventory with more devices being shipped in January. A solid inventory prepares us to respond to AT&T's sunset of its 3G Network in late February. We have been selling LTE Cat M1 vehicle trackers since September of 2019 but still have approximately 1,000 tracking devices with 3G radio modules that need to be swapped out. We are currently working with all impacted customers to upgrade their devices but, given current market conditions and economics, we do not know if this network shutdown will result in a moderate loss of existing customers or with an opportunity to add new customers who cannot find devices. Our US based customer agents are reaching out to each impacted customer.

PocketFinder Smart Tracker Wearable 4G LTE Cat M1/A-GPS / Wi-Fi / Cell ID trackers provide an ideal way for families and caregivers to keep track of people they love. Ideal for children heading to or from school, after school activities on their own or via public transportation and seniors who value their

independence, the PocketFinder can help you know where they are and be alerted if they go too far - right from a smart phone, tablet or computer!
