Opinion on the Financial Statements

We have audited the accompanying balance sheet of Protosource Corporation (the 'Company') as of December 31, 2021 and the related statements of income, stockholders' equity, and cash flows for the year ended December 31, 2021, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021, and the results of its operations and its cash flows for the year ended December 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the financial statements, for the year ended December 31, 2021 the Company has not established any source of revenue to cover its operating costs. This condition raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The financial statements for Protosource Corporation for the year ended December 31, 2021 are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") The Company has adopted December 31 as its fiscal year end.

The accompanying financial statements include the accounts of the Company and its wholly-owned subsidiary. Intercompany transactions and balances were eliminated in consolidation.

Use of estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with US GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities in the balance sheets, and the reported revenue and expenses during the periods reported. Actual results may differ from these estimates.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

Income taxes

Income taxes are determined in accordance with the provisions of ASC Topic 740, "Income Taxes" ("ASC 740"). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the periods in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

Net income/ (loss) per share

The Company calculates net income/ (loss) per share in accordance with ASC Topic 260 "Earnings per share". Basic income/ (loss) per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted loss per share is computed similar to basic income/ (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common stock equivalents had been issued and if the additional common shares were dilutive.

Foreign currencies translation

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transaction. Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency using the applicable exchange rates at the balance sheet dates. The resulting exchange differences are recorded in the statement of operations and comprehensive income (loss).

The functional currency of the Company is the United States Dollars ("US\$") and the accompanying financial statements have been expressed in US\$. In addition, the Company's subsidiary maintains its books and record in Singapore Dollar ("SGD") and United States Dollars ("US\$"), which is the respective functional currency as being the primary currency of the economic environment in which the entity operates.

In general, for consolidation purposes, assets and liabilities of its subsidiary whose functional currency is not US\$ are translated into US\$, in accordance with ASC Topic 830-30, "Translation of Financial Statement", using the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates prevailing during the period. The gains and losses resulting from translation of financial statements of foreign subsidiary are recorded as a separate component of accumulated other comprehensive income.

Translation of amounts from the local currency of the Company into US\$1 has been made at the following exchange rates for the respective years:

	For the year ended December 31, 2021
Period-end SGD : US\$1 exchange rate	1.35
Period-average SGD : US\$1 exchange rate	1.35

Related parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

Fair value of financial instruments:

The carrying value of the Company's financial instruments: cash and cash equivalents, receivables, accounts payable and amount due to a director approximate at their fair values because of the short-term nature of these financial instruments.

The Company also follows the guidance of the ASC Topic 820-10, "Fair Value Measurements and Disclosures" ("ASC 820-10"), with respect to financial assets and liabilities that are measured at fair value. ASC 820-10 establishes a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

3. GOING CONCERN UNCERTAINTIES

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. For the year ended December 31, 2021, the Company did not generate any revenue nor income.

The Company's cash position is insufficient to support the Company's daily operations. While the Company believes in the viability of its strategy and in its ability to raise additional funds may provide sufficient funding for operations, there can be no assurances to that effect. The Company's ability to continue as a going concern is dependent upon its ability to improve profitability and the ability to acquire financial support from its shareholder.

These and other factors raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that financial statements are issued. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result in the Company not being able to continue as a going concern.
