On November 10, 2021, the Company signed a Letter of Intent with NutraEdge Bioscience Corp. to join with biotech company GenBio, Inc., and bioscience company Nutrific of Aliso Viejo, California, to create a new business venture in the Life Extension and Longevity sector. The new entity, which will operate under the NutraEdge Biosciences Corp. brand, contemplates utilizing product development, research, and existing human resources of GenBio, Inc., and Nutrific in its pursuit of therapeutics for various medical ailments and age-related health issues. Under the terms, JZZ Technologies, Inc. will acquire 100% ownership of NutraEdge Biosciences Corp., 5% of GenBio Inc. and 25% of Nutrific.

On November 30, 2021, the company signed a Letter of Intent to acquire 100% of Life Factor Research, inc. of Medford, Oregon (“LFR”). Under the terms of the Letter of Intent, JZZ Technologies, Inc. will acquire 100% ownership of LFR which owns its formulations, research, products, and manufacturing operations. The non-binding LOI provides that JZZ Technologies shall use its best efforts to: retain LFR’s staff and employees and raise up to a maximum \$350,000 in a private placement, committing to apply 80% of the funds raised to support LFR’s operations. Subject to satisfactory due diligence, the definitive acquisition agreement shall provide that JZZ shall issue 65,000,000 shares to the LFR shareholders in exchange for their outstanding LFR shares via a stock exchange, resulting in LFR becoming a wholly owned subsidiary of

JZZ. Following the closing of the definitive agreement, the LFR shareholders shall be entitled to up to 3,000,000 additional JZZ shares if certain milestone revenue benchmarks are met.

## 6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

**The issuer does not currently own or lease any properties or facilities.**

## 7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% or more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.

## **JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES**

### **Notes to Unaudited Consolidated Financial Statements December 31, 2021 and March 31, 2021**

#### **NOTE 1- Summary of History and Significant Accounting Policies**

##### **Nature of Operations**

JZZ Technologies, Inc., (“the Company”) a Nevada corporation was incorporated in the State of Nevada on October 5, 2004. The Issuer, is an internet website media and marketing company, focusing on the senior market. The business of the Company, through its on-line magazine, is to publish articles and other content directed to the senior market, as well as to provide a medium for specifically focused advertising within the senior market. The Company will also promote products and services through its on-line magazine directed to the senior market.

On August 25, 2016, the current officer and director of the Company entered into a Share Exchange Agreement with the Company and the shareholders of Axihub, Inc.. The current officer and director of the Company acquired controlling interest in the Company’s common stock. The Share Exchange was treated as a recapitalization. The financial statements as of December 31, 2021 and March 31, 2021 are presented under successor entity reporting and included the balance sheet of the Company from the acquisition date of August 25, 2016.

Axihub, Inc. has been a relatively dormant wholly owned subsidiary for the last two years. Axihub is acting as the managing Company for the operations and activities of the Company. It will negotiate all contracts for the operations and will oversee the various websites and marketing operations of the Company.

Senior Lifestyle Media LLC was acquired on April 1, 2020 as described below. The Company acquired 100% of its Member Interests. Senior Lifestyle Media LLC has been inactive during 2019 and through the date of acquisition.

Joshua Tree CBD Inc., currently inactive, was acquired on April 1, 2020 as described below. The Company acquired 100% of its common stock. Joshua Tree was incorporated on February 27, 2020 and was acquired to take advantage of the principal’s expertise in the industry and the relationships and contacts he has in the industry.

##### **Basis of presentation**

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the periods presented have been reflected herein.

The Company consolidates its subsidiaries (Senior Lifestyle Media LLC, a New York Limited Liability Corporation , and Joshua Tree CBD Inc., a New York corporation) in accordance with ASC 810, and specifically ASC 810-10-15-8 which states, “[t]he usual condition for a controlling financial interest is ownership of a majority voting interest, and, therefore, as a general rule ownership by one reporting entity, directly or indirectly, or over 50% of the outstanding voting shares of another entity is a condition pointing toward consolidation.” All inter-company transactions have been eliminated during consolidation.

## **JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES**

### **Notes to Consolidated Unaudited Financial Statements December 31, 2021 and March 31, 2021**

#### **Concentration of Risk**

The Company places its cash and temporary cash investments with established financial institutions. At times, such cash and investments may be in excess of the FDIC insurance limit.

#### **Principles of Consolidation**

The consolidated financial statements include the accounts of JZZ Technologies, Inc., and its three subsidiaries Axihub, Inc., Senior Lifestyle Media LLC and Joshua Tree CBD Inc.. All intercompany transactions are eliminated in consolidation.

#### **Cash and Cash Equivalents**

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

#### **Trade Accounts Receivable**

Trade accounts receivable is recorded net of an allowance for expected losses. The allowance is estimated from historical performance and projections of trends. The reserve account at December 31, 2021 and March 31, 2021 was \$0.

#### **Inventory**

The Company's inventory is valued at the lower of cost (first in, first out) or market using the retail method.

#### **Stock-based Compensation**

The Company records stock-based compensation in accordance with ASC 718, *Compensation - Stock Based Compensation* and ASC 505, *Equity Based Payments to Non-Employees*, which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options.

ASC 718 requires companies to estimate the fair value of share-based awards on the date of grant using an option-pricing model. The Company uses the Black-Scholes option-pricing model as its method of determining fair value. This model is affected by the Company's stock price as well as assumptions regarding a number of subjective variables. These subjective variables include, but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors. The value of the portion of the award that is ultimately expected to vest is recognized as an expense in the statement of operations over the requisite service period.

All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

## **JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES**

### **Notes to Unaudited Consolidated Financial Statements December 31, 2021 and March 31, 2021**

#### **Intangibles with Finite Lives**

The Company applies the provisions of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 360-10, *Property, Plant and Equipment*, where applicable to all long lived assets. FASB ASC 360-10 addresses accounting and reporting for impairment and disposal of long-lived assets. The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with FASB ASC 360-10. FASB ASC 360-10 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

The Company does not amortize any intangible assets with finite lives.

Goodwill and intangible assets are reviewed for potential impairment whenever events or circumstances indicate that their carrying amounts may not be recoverable.

#### **Revenue Recognition**

The Company applies ASC 606 — Revenue from Contracts with Customers. Under ASC 606, the Company recognizes revenue from the commercial sales of products, licensing agreements and contracts to perform pilot studies by applying the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to each performance obligation in the contract; and (5) recognize revenue when each performance obligation is satisfied.

#### **Advertising**

Advertising costs are expensed as incurred. Advertising expenses for the nine months ended December 31, 2021 and 2020 were \$0.

#### **Research and Development Expenditure**

Research expenditure is recognized as an expense when it is incurred. Development expenditure is recognized as an expense except that expenditure incurred on development projects are capitalized as long-term assets to the extent that such expenditure is expected to generate future economic benefits. Development expenditure is capitalized if, and only if an entity can demonstrate all of the following:

1. its ability to measure reliably the expenditure attributable to the asset under development;
2. the product or process is technically and commercially feasible;
3. its future economic benefits are probable;
4. its ability to use or sell the developed asset;
5. the availability of adequate technical, financial and other resources to complete the asset under development;  
and
6. its intention to complete the intangible asset and use or sell.

## **JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES**

### **Notes to Unaudited Consolidated Financial Statements December 31, 2021 and March 31, 2021**

Capitalized development expenditure is measured at cost less accumulated amortization and impairment losses, if any. Development expenditure initially recognized as an expense is not recognized as assets in the subsequent period. The development expenditure is amortized on a straight-line method over a period of not exceeding 15 years when the products are ready for sale or use. In the event that the expected future economic benefits are no longer probable of being recovered, the development expenditure is written down to its recoverable amount.

Research and development costs represent the costs of developing and perfecting JZZ's products as well as marketing and planning for those products. These costs are charged to expense as incurred.

The Company estimated these costs to be \$0 in its operations for the the nine months ended December 31, 2021 and 2020.

#### **Fair Value of Financial Instruments**

The Company adopted FASB ASC 820, Fair Value Measurements and Disclosures, which provides a framework for measuring fair value under GAAP. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard also expands disclosures about instruments measured at fair value and establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 — Quoted prices for identical assets and liabilities in active markets;

Level 2 — Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 — Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made; however actual results could differ materially from those estimates.

#### **Emerging Growth Company Critical Accounting Policy Disclosure**

The Company qualifies as an "emerging growth company" under the 2012 JOBS Act. Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. As an emerging grown company, the Company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The Company may elect to take advantage of the benefits of this extended transition period in the future.

## **JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES**

### **Notes to Unaudited Consolidated Financial Statements December 31, 2021 and March 31, 2021**

#### **Income Taxes**

The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification (“Section 740-10-25”). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of Section 740-10-25.

#### **Loss Per Share**

Net loss per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period, unless their effect is anti-dilutive due to continuing losses. There were no potentially dilutive shares outstanding as of December 31, 2021 and 2020.

#### **NOTE 2 – Financial Condition and Going Concern**

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has sustained operating losses in the current year and may not achieve the level of profitable operations to sustain its activities. These factors raise substantial doubt as to its ability to obtain debt and/or equity financing and achieve profitable operations.

Management intends to raise additional operating funds through equity and/or debt offerings. However, there can be no assurance management will be successful in its endeavors. Ultimately, the Company will need to achieve profitable operations in order to continue as a going concern.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings and/or bank financing necessary to support its working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to the Company. If adequate working capital is not available to the Company it may be required to curtail its operations.

#### **NOTE 3 – Acquisitions**

##### **Senior Lifestyle Media LLC**

Effective April 1, 2020, JZZ Technologies, Inc. acquired all membership interests in Senior Lifestyle Media LLC ("SLM").

The purchase price for the acquisition of SLM was 2,250,000 shares of the Company's common stock valued at \$112,500. SLM didn't have any assets or liabilities and the Company recorded the acquisition as goodwill.

**NOTE 7 – Income Taxes**

The Company adopted the provisions of ASC 740-10. ASC 740-10 clarifies the accounting for uncertainty in income taxes recognized in a company’s financial statements. ASC 740-10 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements. The application of income tax law is inherently complex. Laws and regulation in this area are voluminous and are often ambiguous. As such, we are required to make many subjective assumptions and judgments regarding the income tax exposures. Interpretations and guidance surrounding income tax laws and regulations change over time. As such, changes in the subjective assumptions and judgments can materially affect amounts recognized in the balance sheets and statements of income.

The Company has no unrecognized tax benefit, which would affect the effective tax rate if recognized. There has been no significant change in the unrecognized tax benefit during the nine months ended December 31, 2021.

We classify interest and penalties arising from the underpayment of income taxes in the statement of income under general and administrative expenses. As of December 31, 2021, we had no accrued interest or penalties related to uncertain tax positions.

### Notes to Unaudited Consolidated Financial Statements December 31, 2021 and March 31, 2021

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The components of deferred income tax assets (liabilities) at December 31, 2021 and March 31, 2021, were as follows:

As of December 31, 2021:

	Balance	Rate	Tax
Federal loss carryforward	\$19,720,325	21%	\$ 4,141,268
Valuation allowance			(4,141,268)
Deferred tax asset			<u>\$ -</u>

As of March 31, 2021:

	Balance	Rate	Tax
Federal loss carryforward	\$4,478,770	21%	\$ 940,542
Valuation allowance			(940,542)
Deferred tax asset			<u>\$ -</u>

Due to the passage of the “Tax Cuts and Jobs Act” on December 20, 2017 the rate of the U.S. Federal Income Tax dropped from 34% to 21%, which is a flat percentage tax rate used for the calculation of the deferred income tax assets.

The new law also changes the rules on NOL carry forward. The 20-year limitation was eliminated, giving the taxpayer the ability to carry forward losses indefinitely. However, utilization of NOL carry forwards arising after January 1, 2018, will now be limited to 80 percent of taxable income

#### NOTE 8 – Derivative Liability

The Company has convertible notes payable outstanding at December 31, 2021 that are convertible into Company’s common stock to be issued upon conversion of notes payable based the current conversion formula into 999,616,667 shares of common stock. The Company currently does not have enough authorized shares to fully allow the conversion of all the notes payable and the related accrued interest.

Due to there being no explicit limit to the number of shares to be delivered upon settlement of the above conversion option embedded in the NP, the conversion feature is classified as derivative liabilities and recorded at fair value.

## JZZ TECHNOLOGIES, INC. AND SUBSIDIARIES

### Notes to Consolidated Financial Statements December 31, 2021 and March 31, 2021

Dividends, an expected term of one year and a risk-free interest rate of 15%. As of December 31, 2021, the number of common shares that could be potentially issued to settle the conversion of the notes is 999,616,667 common shares.

The Company currently does not have enough authorized shares to fully allow the conversion of all the notes payable and the related accrued interest.

The liability has been increased for the conversion rate into common stock for the period ending December 31, 2021 and prior years and adjustments for the change in the derivative value based on the increase in the conversion to common shares. The amount of the increase for the nine months ended December 31, 2021 was \$9,232,280 and for the nine months ended December 31, 2020 it was decreased by \$159,425.

Pursuant to ASC 815, "Derivatives and Hedging," the Company initially did not recognize the fair value of the embedded conversion feature of the NP on date of issuance due to limitations on the conversion feature of the security that have now expired and only the fair value of the securities were charged to operations. During the period of August 25, 2016 to December 31, 2021, the Company recorded a mark-to-market adjustment based on the fair value of the derivative liability on that date which has resulted in a charge of \$9,827,250 to operations during this period of time. The fair value of the derivative liability was determined using the Black Scholes option pricing model with a quoted market price of \$0.01, a conversion price of fifty percent of the closing bid price, high expected volatility, no expected

The following table sets forth by level with the fair value hierarchy the Company's financial assets and liabilities measured at fair value on December 31, 2021.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Assets</b>				
None	\$ -	\$ -	\$ -	\$ -
<b>Liabilities</b>
