5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company specializes in residential and commercial real estate investment and development. Our Company's success has worked to form lasting, concrete relationships with top equity suppliers, such as individual, commercial and institutional sources. These relationships enable Immediate Properties to provide beyond typical market approaches to finding and acquiring income-producing projects. The company specializes in value-add investment and development in "A" locations in urban infill areas. It has expertise in multifamily, retail, office, mixed-use, adaptive re-use of industrial buildings and historic renovations. Immediate's current investment portfolio includes properties across Northern and Southern California, Atlanta, and Nevada. The Company is actively investing in California and other select metro areas where we believe relatively high cap rates are not justified due to strong fundamentals.

B. Please list any subsidiaries, parents, or affiliated companies.

The Company owns Immediate Properties LLC

Pursuant to a Purchase and Sale dated March 18, 2021, the Company acquired 49% of the membership interest in R & B Property Development LLC, a California real estate company in exchange for a convertible note of \$50,000.

Pursuant to a Purchase and Sale dated March 18, 2021, the Company acquired 49% of the membership interest in RM Developments, LLC, a California real estate company in exchange for a convertible note of \$50,000.

C. Describe the issuers' principal products or services.

Immediate's investment strategy is to acquire infill properties in "A" locations within markets that are core, core adjacent or gentrifying to core. Immediate implements value-accretive improvements to achieve above-market returns.

Immediate currently is focused on multifamily, retail, mixed-use and urban housing investments. We believe these product types will deliver above-market returns.

Immediate investment strategies are tailored to the individual property and specific location. We are currently growing our investor base through prudent, low risk acquisitions as we seek to grow our portfolio with our investor partners.

If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The Company specializes in residential and commercial real estate investment and development. Our Company's success has worked to form lasting, concrete relationships with top equity suppliers, such as individual, commercial, and institutional sources. These relationships enable Immediate Properties to provide beyond typical market approaches to finding and acquiring income-producing projects.

The company specializes in value-add investment and development in "A" locations in urban infill areas. It has expertise in multifamily, retail, office, mixed-use, adaptive re-use of industrial buildings and historic renovations. Immediate's current investment portfolio includes properties across Northern and Southern California, Atlanta, and Nevada. The Company is actively investing in California and other select metro areas where we believe relatively high cap rates are not justified due to strong fundamentals.
