On January 20, 2009, the BC Securities Commission of Canada ordered that all trading in the securities of the issuer's predecessor cease in British Columbia until the company filed all required records, financial statements, and related disclosure and the BC Securities Commission Executive Director makes an order revoking the cease trade order.

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

NDT Pharmaceuticals, Inc. (the "Company") was incorporated on May 13, 2005, under the laws of the State of Nevada as "Mistral Ventures, Inc." and changed its name on January 24, 2020, to "NDT Pharmaceuticals, Inc." Prior company mineral operations were abandoned in 2008, the Company was revived with the State of Nevada in September of 2019, and in July of 2020 (with an effective date of January 1, 2020), the Company acquired all rights under a Sponsored Research Agreement with the University of Pennsylvania, including rights to use the University's NPC technology described below from Compelling Competitive Advantage, LLC ("CCA"), a Delaware limited liability company. CCA assigned all its rights, title and interests in CCA's Sponsored Research Agreement with the Trustees of the University of Pennsylvania, and any related trade secrets, technology, know-how, formulations, procedures and/or methodologies (the "Intellectual Property") to the Company.

The Intellectual Property includes a versatile and widely applicable biotechnology asset base, including the Nanoscale Particle Complex ("NPC") technology, which represents the leading edge of phospholipid-based nano-encapsulation delivery systems (less than 100 nanometers in diameter; mean diameter of 40 nanometers in current liquid product samples with the capability to engineer significantly smaller nanocarrier particles) that create instant delivery of payloads into the bloodstream, beginning through the membranes of the mouth. Encapsulated actives are protected from destruction in the highly acidic environment of the stomach until they reach the small intestine, providing for much greater absorption of payloads. The instant delivery aspect (an Oral IV) is designed to provide the consumer with rapid effect upon consumption of the product containing the NPC technology. The NPC technology also incorporates a potent active ingredient that stimulates repair of damaged cell tissue branded by the Company as "Cell Armor."

4) Financial Statements

A. The following financial statements were prepared in accordance with:

- ☒ U.S. GAAP
☐ IFRS

B. The financial statements for this reporting period were prepared by (name of individual)⁴:

Name: **Joseph C. Passalacqua**
Title: **Treasurer (Principal Financial Officer)**
Relationship to Issuer: **Treasurer (Principal Financial Officer)**

Provide the financial statements described below for the most recent fiscal year or quarter. For the initial disclosure statement (qualifying for Pink Current Information for the first time) please provide reports for the two previous fiscal years and any subsequent interim periods.

- C. Balance Sheet;
- D. Statement of Income;
- E. Statement of Cash Flows;
- F. Statement of Retained Earnings (Statement of Changes in Stockholders' Equity)
- G. Financial notes; and
- H. Audit letter, if audited

You may either (i) attach/append the financial statements to this disclosure statement or (ii) file the financial statements through OTCIQ as a separate report using the appropriate report name for the applicable period end. ("Annual Report," "Quarterly Report" or "Interim Report").

If you choose to publish the financial statements in a separate report as described above, you must state in the accompanying disclosure statement that such financial statements are incorporated by reference. You may reference the document(s) containing the required financial statements by indicating the document name, period end date, and the date that it was posted to OTCIQ in the field below. Financial Statements must be compiled in one document.

Financial statement information is considered current until the due date for the subsequent report (as set forth in the qualifications section above). To remain qualified for Current Information, a company must post its Annual Report within 90 days from its fiscal year-end date and Quarterly Reports within 45 days of each fiscal quarter-end date.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

⁴ The financial statements requested pursuant to this item must be prepared in accordance with US GAAP or IFRS by persons with sufficient financial skills.

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company was incorporated on May 13, 2005, under the laws of the State of Nevada as "Mistral Ventures, Inc." and changed its name on January 24, 2020, to "NDT Pharmaceuticals, Inc." Prior company mineral operations were abandoned in 2008, the Company was revived with the State of Nevada in September of 2019, and in July of 2020 (with an effective date of January 1, 2020), the Company acquired all rights under a Sponsored Research Agreement with the University of Pennsylvania, including rights to use the University's NPC technology described below from Compelling Competitive Advantage, LLC ("CCA"), a Delaware limited liability company. CCA assigned all its rights, title and interests in CCA's Sponsored Research Agreement with the Trustees of the University of Pennsylvania, and any related trade secrets, technology, know-how, formulations, procedures and/or methodologies (the "Intellectual Property") to the Company.

The Intellectual Property includes a versatile and widely applicable biotechnology asset base, including the Nanoscale Particle Complex ("NPC") technology, which represents the leading edge of phospholipid-based nano-encapsulation delivery systems (less than 100 nanometers in diameter; mean diameter of 40 nanometers in current liquid product samples with the capability to engineer significantly smaller nanocarrier particles) that create instant delivery of payloads into the bloodstream, beginning through the membranes of the mouth. Encapsulated actives are protected from destruction in the highly acidic environment of the stomach until they reach the small intestine, providing for much greater absorption of payloads. The instant delivery aspect (an Oral IV) is designed to provide the consumer with rapid effect upon consumption of the product containing the NPC technology. The NPC technology also incorporates a potent active ingredient that stimulates repair of damaged cell tissue branded by the Company as "Cell Armor."

The Company is now focused on developing products utilizing the Intellectual Property.

- B. Please list any subsidiaries, parents, or affiliated companies.

Not applicable.

- C. Describe the issuers' principal products or services.

The Company is focused on developing nutraceutical and pharmaceutical products utilizing the Intellectual Property as described above.

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company has acquired contract and intellectual property rights under a Sponsored Research Agreement with the University of Pennsylvania as described above.

7) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% or more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.

NOTES TO FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION AND BUSINESS BACKGROUND

The Company was incorporated on May 13, 2005, under the laws of the State of Nevada as “Mistral Ventures, Inc.” and changed its name on January 24, 2020, to “NDT Pharmaceuticals, Inc.”

Prior company mineral operations were abandoned in 2008, the Company was revived with the State of Nevada in September of 2019, and in July of 2020 (with an effective date of January 1, 2020), the Company acquired all rights under a Sponsored Research Agreement with the University of Pennsylvania, including rights to use the University’s NPC technology from Compelling Competitive Advantage, LLC (“CCA”), a Delaware limited liability company which is controlled by the Company’s CEO and Director, James Hovis, in consideration of the Company’s issuance of 28,000 shares of Series B Preferred Stock of the Company to CCA.

CCA assigned all its rights, title and interests in CCA’s Sponsored Research Agreement with the Trustees of the University of Pennsylvania, and any related trade secrets, technology, know-how, formulations, procedures and/or methodologies (the “Intellectual Property”) to the Company, see Note 5 – Intangible Assets.

Going Concern

These unaudited consolidated financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company has generated no revenues to date and has never paid any dividends and is unlikely to pay dividends or generate significant earnings in the immediate or foreseeable future. As of December 31, 2021, the Company had no revenues and an accumulated deficit of \$224,598. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability to raise equity or debt financing, and the attainment of profitable operations from the Company's future business. These factors raise substantial doubt regarding the Company's ability to continue as a going concern for a period of one year from the issuance of these consolidated financial statements. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation

The unaudited consolidated financial statements include the financial statements of NDT Pharmaceuticals, Inc.

Use of estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates. These estimates and assumptions include valuing equity securities issued in share-based payment arrangements, determining the fair value of our common stock, the collectability of accounts receivable and deferred taxes and related valuation allowances. Certain of our estimates, including evaluating the collectability of accounts receivable, could be affected by external conditions, including those unique to our industry, and general economic conditions. It is possible that these external factors could have an effect on our estimates that could cause actual results to differ from our estimates. We re-evaluate all of our accounting estimates at least quarterly based on these conditions and record adjustments when necessary.

Accounts receivable and allowance for doubtful accounts

Accounts receivable consists of amounts due from customers. The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and determined based on management's assessment of known requirements, aging of receivables, payment history, the customer's current credit worthiness and the economic environment.

Inventories

Inventories include direct materials, labor and factory overhead and are stated at lower of cost or market value, cost being determined on a first-in, first-out basis. The Company periodically reviews historical sales activity to determine excess, slow moving items and potentially obsolete items and also evaluates the impact of any anticipated changes in future demand. The Company provides inventory allowances based on excess and obsolete inventories.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values. Property, plant and equipment are depreciated over their estimated useful lives as follows:

Depreciable life

Buildings	6-50
years Plant and machinery	10 years
Office equipment	7 years
Motor vehicles	7 years
Computer equipment	3 years

Goodwill and intangible assets

We account for business combinations in accordance with current authoritative guidance, which requires that the acquisition method of accounting be used for all business combinations. It requires intangible assets acquired in a business combination to be recognized and reported separately from goodwill.

Furthermore, it requires purchased intangible assets other than goodwill to be amortized over their useful lives unless these lives are determined to be indefinite. No impairment of intangibles has been identified since the date of acquisition.

Goodwill represents the cost of the acquired businesses in excess of the fair value of identifiable tangible and intangible net assets purchased. The company generally seeks the assistance of independent valuation experts in determining the fair value of the identifiable tangible and intangible net assets of the acquired business.

We test goodwill for impairment on an annual basis. In this process, we rely on a number of factors including operating results, business plans and future cash flows. Recoverability of goodwill is evaluated using a two-step process. The first step involves a comparison of the fair value of a reporting unit with its carrying value. If the carrying amount of the reporting unit exceeds its fair value, the second step of the process involves a comparison of the fair value and carrying value of the goodwill of that reporting unit. If the carrying value of the goodwill of a reporting unit exceeds the fair value of that goodwill, an impairment loss is recognized in an amount equal to the excess. Goodwill of a reporting unit will be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

We evaluate intangible assets for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted net cash flows expected to be generated by the asset. If these assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying value of the assets exceeds the fair value of the assets. In the opinion of management, there was no impairment for the year ended December 31, 2021.

Impairment of long-lived assets

Long-lived assets and certain identifiable intangible assets held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is evaluated by a comparison of the carrying amount of assets to estimated undiscounted net cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amounts of the assets exceed the fair value of the assets. In the opinion of management, there has been no impairment for the year ended December 31, 2021.

Investments

The Company accounts for non-marketable investments using the equity method of accounting if the investment gives us the ability to exercise significant influence over, but not control of, an investee. Significant influence generally exists if the Company has an ownership interest representing between 20% and 50% of the voting stock of the investee. Under the equity method of accounting, investments are stated at initial cost and are adjusted for subsequent additional investments and our proportionate share of earnings or losses and distributions. The Company records its share of the investee's earnings or losses in earnings (losses) from unconsolidated entities, net of income taxes in the accompanying consolidated statements of operations. The Company evaluates its equity method investment for impairment when events or changes in circumstances indicate, in management's judgment, that the carrying value of such investment may have experienced other than temporary decline in value. When evidence of loss in value has occurred, management compares the estimated fair value of the investment to the carrying value of the investment to determine whether an impairment has occurred. If the estimated fair value is less than the carrying value and management considers the decline in value to be other than temporary value, the excess of the carrying value over the estimated fair value is recognized in the financial statements as an impairment. In the opinion of management, there was no impairment for the year ended December 31, 2021.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred income taxes

We use the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, "Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740.10.30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740.10.40 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We have no material uncertain tax positions for any of the reporting periods presented.

Net income per share

Basic net income per share is computed by dividing the net income by the weighted-average number of common shares outstanding during the period. Diluted income per share is computed similar to basic income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common stock equivalents had been issued and if the additional common shares were dilutive.

Stock-Based Compensation

We recognize compensation expense for stock-based compensation in accordance with ASC Topic 718. For employee stock-based awards, we calculate the fair value of the award on the date of grant using the Black-Scholes method for stock options and the quoted price of our common stock for unrestricted shares; the expense is recognized over the service period for awards expected to vest. For non-employee stock-based awards, we calculate the fair value of the award on the date of grant in the same manner as employee awards, however, the awards are revalued at the end of each reporting period and the pro rata compensation expense is adjusted accordingly until such time the nonemployee award is fully vested, at which time the total compensation recognized to date

equals the fair value of the stock-based award as calculated on the measurement date, which is the date at which the award recipient's performance is complete. The estimation of stock-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from original estimates, such amounts are recorded as a cumulative adjustment in the period estimates are revised. We consider many factors when estimating expected forfeitures, including types of awards, employee class, and historical experience.

Fair value of financial instruments

We have adopted the provisions of ASC Topic 820, "Fair Value Measurements and Disclosures", which defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value and expands disclosure of fair value measurements.

The estimated fair value of certain financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses are carried at historical cost basis, which approximates fair values because of the short-term maturing of these instruments. The carrying amounts of our short- and long-term credit obligations approximate fair value because the effective yields on these obligations, which include contractual interest rates which are comparable to rates of returns for instruments of similar credit risk and because of the short-term maturity of these instruments.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 – quoted prices in active markets for identical assets or liabilities.

Level 2 – quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 – inputs that are unobservable (for example cash flow modeling inputs based on assumptions)
