# Jetblack Corp.

## Notes to Financial Statements for the period ending March 31, 2022

*The Financial Statements have been prepared by, and attested to by, in the Management Certification pertaining to the 2022 Quarterly Report.*

### **Note 1            Organization, History and Business**

The name of the issuer is Jetblack Corp. We were incorporated as Tortuga Mexican Imports Inc. on April 17, 2002 in the State of Nevada for the purpose of selling consumer products. Effective March 15, 2010, we changed our name to Jetblack Corp., by way of a merger with our wholly owned subsidiary, Jetblack Corp., which was formed solely for the purpose of effectuating the corporate reorganization and pursuing new business in subsequent years.

On February 26, 2016 Barton Hollow, LLC, a stockholder of the Issuer, filed an Application for Appointment of Custodian pursuant to Section 78.347 of the Act in the District Court for Clark County, Nevada. Barton Hollow was subsequently appointed custodian of the Issuer by Order of the Court on April 5, 2016 (the "Order"). In accordance with the provisions of the Order, Barton Hollow thereafter moved to: (a) reinstate the Issuer with the State of Nevada; (b) provide for the election of interim officers and directors; and (c) call and hold a stockholder meeting.

Daniel A. Goldin was appointed CEO and Director on June 20, 2016. The former Custodian has since been discharged by the Nevada courts and full authority has been returned to the Board of Directors of Jetblack Corp. Mr. Goldin purchased the convertible note held by former custodian, making Mr. Goldin the holder of the only convertible note on the books of Jetblack Corp at the time. Under the leadership of Mr. Goldin, Jetblack initiated the entry into various emerging markets.

### **Note 2            Summary of Significant Accounting Policies Revenue Recognition**

Revenue is anticipated to arise from a merger or acquisition of a non-speculative company.

Revenue is recognized in accordance with ASC 605. As such, the Company identifies performance obligations and recognizes revenue over the period through which the Company satisfies these obligations. Any contracts that by nature cannot be broken down by specific performance criteria will recognize revenue on a straight line basis over the contractual term of the period of the contract.

#### **Income Taxes**

The company has a net loss for the period ending March 31, 2022 of (118,345) and retained deficit of (\$2,273,909). This loss has a 20 year carryover period. The company continually evaluates its tax positions, changes in tax laws, and new authoritative rulings for potential implications to its tax status.

## Stock Based Compensation

Currently, the company does not have the ability to offer stock compensation. In the future, the Company will account for the stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The company accounts for stock-based payments to non-employees in accordance with ASC 505-50, "Equity-Based Payments to Non-Employees." Stock-based payments to non-employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date.

The Company calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered stock option or warrant. The Company estimates forfeiture rates for all unvested awards when calculating the expense for the period. In estimating the forfeiture rate, the Company monitors both stock option and warrant exercises as well as employee termination patterns.

The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.

## Loss per Share

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented as there are no dilutive securities.

## Cash and Cash Equivalents

For purpose of the statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

## Concentration of Credit Risk

The Company primarily transacts its business with one financial institution. The amount on deposit in that one institution varies but does not exceed the federally-insured limit \$250,000 at this time. The Company anticipates to open an account with another institution that accepts digital assets.

## Depreciation

### a) Furniture, Equipment and Other Assets:

The Organization has a policy of capitalizing fixed assets in excess of \$500. Depreciation of the fixed assets as reported has been computed by the declining balance method, following GAAP provisions, over the estimated useful lives. The company is calculating depreciation on a 6 month basis.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Note 3                      Related Party Transactions**

None

#### **Note 4                      Stockholders' Equity**

Common Stock

The holders of the Company's common stock are entitled to one vote per share of common stock held. As of March 31, 2022 the Company has 615,422,000 shares issued and outstanding. No changes have occurred in the first quarter of 2022.

**Please see Exhibit F of Financial Statements for Statement of Changes in Stockholders Equity**

#### **Note 5                      Office Lease**

The Company has office space at 304 S. Jones Blvd Number 5058, Las Vegas, NV 89107 in a shared-use executive support arrangement at normal commercial rates.

The Company leases storage space in Lincolnshire, IL for genetics received from various gene banks and over 15,000 functional glass products.

#### **Note 6                      Net Income (Loss) Per Share**

The table below sets forth the information used to compute basic and diluted net income per share attributable to Jetblack Corp. for the period ending March 31, 2022.

Jetblack Corp. period ending March 31, 2022

Net Income	(118,345)
Weighted Average Common Stock Basic	615,422,000
Equivalents	
Stock Options	
Warrants	
Convertible Notes	\$1,261,000
Notes	
Weight Average Common Shares Outstanding	615,422,000
Diluted Loss	(0.00019)

**Note 7 Business Segments**

ASC 280, "Segment Reporting" requires use of the "management approach" model for segment reporting. The management approach model is based on the way a company's management organizes segments within the company for making operating decisions and assessing performance. The Company determined it has one operating segment as of March 31, 2022.

**Note 8 Recent Accounting Pronouncements**

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company evaluates the situation to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change.

**Note 9 Capitalization**

The company continues negotiations to raise capital required, so far have not been successful. Either as debt or equity to help meet operating needs. We cannot guarantee the company will be successful at raising funds, notwithstanding the best efforts of management. The company is not well capitalized. The company has serious concerns that it will not be able to continue if funding is not reached in the future. This could lead to an investor to losing part or all their investment due to company failure.

**Note 10 Subsequent Events**

The Board has given approval for the Company to begin investing in digital tokens and assets, in the second quarter of 2022.

**Supplemental information for investors:**

Factors, risks and uncertainties including market and regulatory risks associated with our business, the inability to raise enough capital to complete our business, economic conditions, unforeseen events such as but not limited to communicable diseases, and increasing competition. Investors should not place any undue reliance on forward-looking statements by management since they involve known and unknown uncertainties and other factors which are, in some cases beyond the company and management's control which could, and likely will, materially affect actual results, levels of activity, performance or achievements. Investors should be cautioned that nine out of ten small business and speculative businesses fail. If the company cannot achieve financing, then it may not be able to follow through with its business plan. This may lead to an investor losing part or their entire investment. Investors may have trouble locating a broker-dealer to trade their stock. Any statements reflects the company's current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to operations, results of operations, growth strategy, liquidity, and stock deposits. The company assumes no obligation to publicly update or revise any statements for any reason, or to update the reasons actual results could differ materially from those anticipated in management's statements, even if new information becomes available in the future. The loss of key employees would be detrimental to the company success and may cause failure. Currently the company is considered a penny stock, the spreads can be very far apart, sometimes illiquid, and investors may not be able to sell when they want or for the price they paid. Due to the company being a small public company, at times the stock maybe illiquid, massive fluctuations can occur almost immediately based on open market buys or sales or for various other reasons. Social media has added to the massive fluctuations in stock price. In some circumstances the investor may lose their entire investment. Broker-dealers from time to time may not accept shareholders stock which greatly reduces the chance of finding and retaining of key employees, and ability to fund its operations, which can result in company failure and a total loss for investors. In addition, unforeseen events such as but not limited to Covid-19 or other communicable disease may have a detrimental effect on the company and its abilities to operate. The company's future is highly speculative and the company cautions investors based on these concerns.
