Coastal Capital Acquisition Corporation

Notes to the Financial Statements

April 03, 2022

Note 1- Description of Business

Coastal Capital Acquisition Corp. ("Coastal Capital" or "the Company") was originally incorporated in Nevada on May 28, 1999 as Edgar Filings.net, Inc. In November 2004 it changed its name to EZ2 Companies, Inc. and on January 16, 2008 it changed to its current name, as well as, changing its corporate domicile to the State of Georgia. On August 10, 2010 the Company changed its Domicile to the State of Florida.

Coastal Capital has no operations since December 2012.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

These unaudited financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America as issued by the Financial Accounting Standards Board ("FASB").

The preparation of financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying Notes to financial statements. Actual results could differ from those estimates.

Stock-Based Compensation

The calculation of share-based employee compensation expense involves estimates that require management's judgment. These estimates include the fair value of each of the stock option awards granted, which is estimated on the date of grant using a Black-Scholes option pricing model. There are two significant inputs into the Black-Scholes option pricing model: expected volatility and expected term. The assumptions used in calculating the fair value of share-based payment awards represent management's best estimates, but these estimates involve inherent uncertainties and the application of management's judgment. In addition, the Company is required to estimate the expected forfeiture rate, and only recognize expense for those shares expected to vest. As a result, if factors change and the Company uses different assumptions, stock-based compensation expense could be different from what the Company has recorded in the current period.

Basic and Diluted Loss per Common Share

Basic loss per share is computed by dividing net loss by the weighted-average number of common shares actually outstanding for the period. Diluted loss per share reflects the potential dilution that could occur upon the conversion or exercise of securities, options, or other such items to common shares, using the treasury stock method based upon the weighted average fair value of the Company's common shares during the period.

Note 3 - Going Concern

Coastal Capital is a development stage enterprise. The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

Note 4- Convertible Note

On January 2, 2013, the Company's directors, two of which are officers of Earth Surfaces of America, approved the issuance of a convertible note in the amount of \$75,000 to reimburse Earth Surfaces for expenditures paid on behalf of the Company. Interest on the note is 4.5% per year and the note's outstanding principal and interest is convertible at any time without approval of the Company's board of directors, into the Company's common stock at a conversion price of \$ 0.001 per share. At the time of acquisition by ERAA, the debt/ note was then transferred to European Chamber of Commerce for Services rendered.

Note 7 - Cautionary Note Regarding Forward-Looking Statements

This Annual Report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "should," "could," "would," "expect," "plan," "anticipate," "believe," "estimate," "continue," or the negative of such terms or other similar expressions. Such statements include, but are not limited to, possible business combinations and the financing thereof, and related matters, as well as all other statements other than statements of historical fact included in this report. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other OTCIQ filings. Except as expressly required by applicable securities law, we disclaim any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a Office of Holdings or owning of equities or securities of other companies other than banks for the sole purpose of exercising some degree of control over the activities of the companies whose equities or securities we hold of one or more businesses. We intend to effectuate our Initial Business Combination using cash from potential future private placements of equity or debt offerings, shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

The issuance of additional shares in connection with any future business combination to the owners of the target or other investors:

- may significantly dilute the equity interest of our existing investors,

- may subordinate the rights of holders of common shares if preference shares are issued with rights senior to those afforded our common shares;
- could cause a change in control if a substantial number of our common shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our common shares.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after a business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to raise capital or borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We expect to continue to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from inception through March 31, 2022 were organizational activities. We do not expect to generate any operating revenues until after the completion of our initial business combination. We are incurring expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with completing an initial business combination.

As of March 31, 2022, we had cash of \$372,566 held in our business account. We intend to use the funds held in this account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination. At March 31, 2022, we had working capital of \$2,810,559.

In order to fund working capital deficiencies or finance transaction costs in connection with an initial business combination, our parent company, certain of our officers or directors may, but are not obligated to, loan us funds as may be required (“Working Capital Loans”). If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital to repay such loaned amounts. As of March 31, 2022, there were no amounts outstanding under the Working Capital Loans.

If our estimate of the costs of undertaking in-depth due diligence and negotiating an initial business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we may seek such additional capital through loans or additional investments from members of our management team or any of their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

Off-Balance Sheet Financing Arrangements

We had no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of March 31, 2022. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.
