Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. These estimates and judgments are based on historical information, information that is currently available to the Company and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has suffered recurring losses since inception and has no current operations. The Company will continue to require financing from external sources to finance its operating and investing activities until sufficient positive cash flows from operations can be generated. There is no assurance that financing or profitability will be achieved, accordingly, there is substantial doubt about the Company’s ability to continue as a going concern. The financial statements of the Company do not include any adjustments that may result from the outcome of these uncertainties.
