

SPORTS QUEST, INC. (OTC: SPQS) – Change in Corporate Vision Supplemental Filing.

Bottling Equipment Sold Hyper Growth Possibility Identified

WEST PALM BEACH, FLORIDA,– September 21, 2022 (OTC MARKETS) – Sports Quest (OTC Markets: SPQS), a Delaware corporation (the “Company” or “SPQS”), www.sportsquest.com announces a material event the sale of its water bottling equipment, and change of direction for the Company.

Our Company motto is: The company is also engaged in certain product lines; including other "unicorn" types of products and in non-aligned industry spaces encompassing new or emerging technologies with hyper-growth type opportunities. We believe that this is our destiny.

Out with the Old:

This machinery was purchased in an auction house with a retail value close to \$1 million dollars. Due to the ex-management, certain miss allocation of common shares to friends and relatives, and a subsequent lawsuit SPQS launched in a Federal court in NY to recover over 4,5 Billion shares; our priorities and focus changed. While we still own the brand “Clear Voda” we sold our equipment to our co packaging supplier AZ Bottled Water (OTC HIRU) although for common stock we are happy with the outcome. We are in talks with another issuer to purchase our Clear Soda brand name. Ms. Kathryn Gavin will be resigning from her position with Sports Quest as its advisor. Ms. Gavin stated...” It is time for me to focus on HIRU Arizona operations with our recently announced expansion plans. SPQS just lost its interest in the beverage industry as they are in a mindset of a name change and symbol change with a unicorn type business model. We part company on good terms and wish the new management all the best”.

In with the new:

SPQS management is in discussions with Zepter International. <https://www.zepter.com/> for a certain cooperating and marketing agreement. See <https://starlite.racing/> and Zepter devices.

The space can better be described as a Meta

Verse. <https://www.forbes.com/sites/deborahlovich/2022/05/11/what-is-the-metaverse-and-why-should-you-care/?sh=4f443edb2704> Many changes will be available in the public domain on SPQS. We are providing this filing to our followers to thwart any false speculations which may be circulating in the social media platforms. OTC space is a new venture for the Zepter Group and they are proceeding cautiously. We are attempting as a company to be as transparent as we can with all of our investors, followers and incoming potential partners.

We have already announced our intention to do a name change and a symbol change. This is well underway.

With the sale of water equipment and other business ventures we as a company will move forward with the new team in this new direction with the outlook of filing multiple SEC filings and becoming a SEC reporting issuer in 2023

Our new business description will be posted on OTC shortly: <https://www.otcmarkets.com/stock/SPQS/profile>

The company is in the process of a name change and symbol change having just liquidated its beverage operations and equipment. Flush with cash we are looking into several up and coming industry spaces. We are also engaged in R&D and experimental type energy product lines. The company is developing certain "unicorn" types of products and in non-aligned industry spaces encompassing new or emerging technologies with hyper-growth type opportunities.

Bio:

[Sanja Pekovic, PhD, Principal Scientist](#)
[Cellular and Molecular Basis of Neuroinflammation: Potential Targets for Translational Medicine and Therapy, Project leader:](#)

The research focus of this project is to highlight some cellular and molecular mechanisms which underlie neuroinflammation, to identify potential target molecules and signaling pathways. Our aim is to find adequate therapeutic approaches for sanitation of neuroinflammation and promotion of regeneration after the central nervous system (CNS) damage. The efficacy of several therapeutic approaches (purine nucleoside analogues: Ribavirin and Tiazofurin, hyperbaric oxygenation, B vitamins - B1, B2, B3, B6, B12) in suppression of detrimental and enhancement of beneficial inflammatory mechanisms is tested. Considering the pivotal role of extracellular purine nucleotides and nucleosides in the control of neurodegenerative processes and inflammatory responses a particular focus is put on regulation of their metabolism and the role of ectonucleotidases. In different animal models (brain injury, multiple sclerosis: experimental autoimmune encephalomyelitis, ischemia) behavioral, cellular and molecular approaches (enzymatic assays, microdialysis combined with HPLC and bioluminescent detection, RT-PCR, immunoblot and immunohistochemistry, ELISA, confocal microscopy and whole cell patch clamp) are used. Besides in vivo, neuroinflammatory processes are also studied in vitro in primary astrocytic and microglial cell culture, and glial cell lines. The main goal of the project is to identify, characterize and standardize potential early and sensitive biomarkers of neuroinflammation and neurodegeneration that can be used in clinical and laboratory practice for diagnosis and prognosis of patient outcome after damage to the CNS and for assessing the

effectiveness of applied therapies. The project consists of 2 subprojects: 1) The role of purinergic signalling in acute and chronic neuroinflammation. 2) Investigation of potential therapeutic approaches for sanitation of neuroinflammation and promotion of regeneration after damage to the central nervous system (principal investigator, Sanja Pekovic, PhD).

Alex Sentic
Interim Management

Alex Sentic is a businessperson who has been at the head of 9 different public companies. Alex Sentic is versatile in financial services. Using his longtime experience in finance, sales, and his corporate development skills, backed by his large pool of business contacts, it did not take long for him to make a success in multiple corporate transactions, and past endeavors. Mr. Sentic is supported by multiple experienced CPAs that work in both Private and Public sectors. He also sustains multiple ongoing successful relationships with consultants with expertise in Public Companies, Equity Financing and Investment Banking. Mr. Sentic has been a successful entrepreneur since a young age and has held multiple Executive Positions over the years. Mr. Sentic specializes in Interim Management coupled with his expertise of Corporate Development to uniquely assist both Private and Public trading companies.

More details will follow on a timely basis.

Disclaimer Regarding Forward Looking Statements

Certain statements that we make may constitute “forward-looking statements” under the Private Securities Litigation Reform Act of 1995. Forward-looking statements include information concerning future strategic objectives, business prospects, anticipated savings, financial results (including expenses, earnings, liquidity, cash flow and capital expenditures), industry or market conditions, demand for and pricing of our products, acquisitions and divestitures, anticipated results of litigation and regulatory developments or general economic conditions. In addition, words such as “believes,” “expects,” “anticipates,” “intends,” “plans,” “estimates,” “projects,” “forecasts,” and future or conditional verbs such as “will,” “may,” “could,” “should,” and “would,” as well as any other statement that necessarily depends on future events, are intended to identify forward-looking statements. Forward-looking statements are not guarantees, and they involve risks, uncertainties and assumptions. Although we make such statements based on assumptions that we believe to be reasonable, there can be no assurance that actual results will not differ materially from those expressed in the forward-looking statements. We caution investors not to rely unduly on any forward-looking statements.
