None

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; or

None

4. The entry of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

None

- B.** Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

On May 12, 2021, board members and officers, William Michael Reynolds, James Emil Sciarretta and Steven R Reiley were informed by Jerry Morrell, (CEO, VP and Director) that he had signed and recorded a deed/warranty document number 3970681 – Yellowstone, County, Montana, that effectively transferred the ownership of the Bar 11 Subdivision to the minority LLC member, KML, Inc. This transfer effectively removed Diamond Lake Minerals, Inc.'s interest in the subdivision real estate. This transfer occurred on May 3, 2021.

Upon learning of the transfer, James Emil Sciarretta and Steven R Reiley immediately resigned as officers and directors of Diamond Lake Minerals, Inc. William Michael Reynolds had resigned as an officer and Board Chairman on April 26, 2021 for personal reasons. The only remaining officer after May 12, 2021 of Diamond Lake Minerals, Inc. was Jerry Morrell.

Once the transfer of the Bar 11 Subdivision was discovered on May 12<sup>th</sup>, 2021, the officers and directors that had resigned did research by examining the recorded documents at the Yellowstone County, Montana Clerk and Recorder Office. We obtained copies of the Warranty Deed. In this process of reviewing the parcels of real estate transferred, we noticed that two properties were missing in the legal description of the May 5, 2021 recording.

Upon further research, we discovered that Jerry Morrell signed on behalf of Production Consulting LLC and KML, Inc. deed/warranty dated 12-11-2020, document number 3951666 and document number 3951667, which transferred a large lot within the subdivision and also a separate 10 acre parcel with a house and buildings at the front of the subdivision to Jerry Morrell and Dominique Morrell as individuals. The listing on the deed/warranty is Grantors: Production Consulting LLC. Grantees: Morrell, Jerry and Morrell, Dominique. Jerry Morrell signed the deed/warranty in the capacity as an officer of Production Consulting, LLC and also signed for KML, Inc. under a power of attorney agreement recorded on July 23, 2019.

The 12-31-2020 Financial Statement for Diamond Lake Minerals, Inc. erroneously included the two parcels of real estate that had been transferred on December 11, 2020 by Jerry Morrell acting under his capacity as an officer of Diamond Lake Minerals, Inc. to himself and his spouse personally.

The financial information for Production Consulting, LLC is provided by the Billings, MT office of the Bar 11 Subdivision. Jerry Morrell employed his sister and a local bookkeeper to maintain the books and to publish the financial statement of Production Consulting, LLC – the previous owner of Bar 11 Subdivision real estate. This information is provided to Diamond Lake Minerals, Inc and the information is incorporated into the Consolidated Financial Statement.

Jerry Morrell provided this information and left the two transferred parcels of real estate as assets on the statement. Jerry Morrell also signed the disclosure statement regarding the accuracy of the information, even though he had previously transferred the real estate to himself personally.

All of the real estate transactions are public record.

**Diamond Lake Minerals, Inc.**  
Notes to the Financial Statements  
September 30, 2022 and 2021

**NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS**

Diamond Lake Minerals, Inc. was originally incorporated under the laws of the state of Utah on January 5, 1954, under the name G & L Equipment, Co. It later changed its name to G & L Energy, Inc. on August 10, 1982. The Company operated as a Yamaha motorcycle dealership and ceased doing business in 1983. All assets and liabilities were liquidated by 1985 and the Company became inactive.

On November 30, 1993, the Company acquired all of the issued and outstanding stock of Graphite Mountain, Inc. (an Ontario, Canada corporation) ("Graphite") in exchange for 16,812,000 of the Company's common stock. Graphite was formed on November 1, 1990, and changed its name to Diamond Lake Minerals, Inc. The acquisition of Graphite Mountain, Inc. was recorded as a recapitalization of Graphite Mountain, Inc. whereby the acquired company is treated as the surviving entity for accounting purposes.

In and around 2000, the Company ceased operations and began seeking out merger candidates. On May 2, 2013, Crystal Creek Capital, LLC ("Crystal") instituted legal proceedings, resulting in a change of control, after which time the Company began looking for a new business purpose or opportunity.

On July 1, 2016, the Company affected a change of control and new officers and directors were appointed on August 16, 2016. In November 2016, the Company acquired 100% of the membership interests in Tioga Industries, LLC, a Washington State entity whose business operations consist of contract sales of aggregates and scoria, and custom crushing of the same for the oil and gas industry and general construction projects, primarily in the states of North Dakota, Montana, and Washington.

Tioga Industries, LLC ceased operations in 2018. In February 2020 Tioga was officially transferred to Emil Sciarretta.

In December 2017, DLMI acquired a 50.1% controlling interest in Production Consulting, LLC. Production Consulting LLC is a land development business.

The shares of the Company trade on the Over-the-Counter Bulletin Board under the symbol, "DLMI."

Diamond Lake Minerals, Inc. and its subsidiary are collectively referred to herein as "the Company."

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

This summary of significant accounting policies of the Company is presented to assist in understanding the Company's financial statements which conform to U.S. generally accepted accounting principles. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements. The following policies are considered to be significant:

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and include the accounts of Diamond Lake Minerals, Inc., and its subsidiary, Productions Consulting, LLC. All significant intercompany transactions and balances have been eliminated.

Basis of Accounting

The financial statements of the Company are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. The Company has elected a calendar year-end.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, unless held for reinvestment as part of the investment portfolio, pledged to secure loan agreements or otherwise encumbered. The carrying amount approximates the fair value because of the short maturities of those instruments.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Minor repairs and maintenance are expensed as incurred, whereas major improvements are capitalized. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The Company uses other depreciation methods (generally accelerated) for tax purposes where appropriate.

Impairment of Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. The Organization evaluates the recoverability of long-lived assets by measuring the carrying amounts of the assets against the estimated undiscounted cash flows associated with these assets. At the time such evaluation indicates that the future undiscounted cash flows of certain long-lived assets are not sufficient to recover the assets' carrying value, the assets are adjusted to their fair value (based upon discounted cash flows). No impairment losses were recognized for the nine months ended September 30, 2022 and 2021, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses, including functional allocations during the reporting period. Actual results could differ from those estimates. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances in making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. While actual results could differ from those estimates, management believes that the estimates are reasonable.

Key estimates made in the accompanying financial statements include, among others, the economic useful lives and recovery of long-lived assets and contingencies.

Concentrations of Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. The Company has not experienced any losses in such accounts or lack of access to its cash and believes it is not exposed to a significant risk of loss with respect to cash. However, no assurance can be provided that access to the Company's cash will not be impacted by adverse economic conditions in the financial markets.

On September 30, 2022 and 2021, the Company had in its bank accounts no funds in excess of the \$250,000 per depository institution that is federally insured.

Contingencies

Certain conditions may exist as of the date that these financial statements are issued which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company's management and its legal counsel assess such contingent liabilities and such assessments inherently involves exercise of judgement. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Contingencies (Continued)

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability is accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, is disclosed. Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee is disclosed.

As of September 30, 2022, there was a pending lawsuit. A note was signed between an individual and a former owner individually with Production Consulting, LLC and Diamond Lake Minerals, Inc. being secondarily liable. The individual is suing the former owner individually. He intends to name Production Consulting, LLC, but not Diamond Lake Minerals, Inc. Management and legal counsel feel that the Company the funds for this will come either from the former owner or KML, Inc. the minority owner of Production Consulting LLC and that the probability that Diamond Lake Minerals, Inc. will be liable to repay the loan is remote therefore a liability has not been accrued for legal expenses on the financial statements.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts payable and accrued expenses, and shareholder loans. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Financial assets and liabilities recorded at fair value on the balance sheets are categorized based upon a fair value hierarchy established by GAAP, which prioritizes the inputs used to measure fair value into the following levels:

Level 1— Quoted market prices in active markets for identical assets or liabilities at the measurement date.

Level 2— Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable and can be corroborated by observable market data.

Level 3— Inputs reflecting management's best estimates and assumptions of what market participants would use in pricing assets or liabilities at the measurement date. The inputs are unobservable in the market and significant to the valuation of the instruments.

Financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Revenue Recognition

The Company recognizes revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned by evaluating our revenue contracts with customers based on the five-step model under ASC 606:

1. Identify the contract with the customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;
4. Allocate the transaction price to separate performance obligations; and
5. Recognize revenue when (or as) each performance obligation is satisfied.

Recent Accounting Pronouncements

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force) did not or are not believed to have a material impact on the Company's present or future financial statements.

**NOTE 3 - RELATED PARTY TRANSACTIONS**

The related-party payables are made up of three individual payables and advances from a shareholder.

The first is a note payable due to a related party for \$30,000. The note has matured and is non-interest bearing, therefore it is considered due on demand.

The second is a note payable due to a related party for \$140,000. This note is described in Note 2 Contingencies. There is pending litigation about this and since the funds were used for subdivision expenses and the subdivision portion of the Company was distributed out to KML, Inc. the Company feels that the expense will be paid by the former president or KML, Inc.

The third is \$5,500 of funds that were advanced by a shareholder to cover year-end expenses. The advance is non-interest bearing and considered due on demand.

During the year ended December 31, 2022, \$32,195 of expenses were paid by a shareholder on behalf of the Company.

During the three months ending March 31, 2022, \$8,911 of expenses were paid by a shareholder on behalf of the Company.

During the three months ending June 30, 2022, \$9,672 of expenses were paid by a shareholder on behalf of the Company.

During the three months ending September 30, 2022, \$7,906 of expenses were paid by a shareholder on behalf of the Company.

**NOTE 3 - RELATED PARTY TRANSACTIONS (Continued)**

Prior advances from a shareholder totaling \$49,773 that were expenses paid on behalf of the Company, were refinanced into a note payable—related party. The note was issued bearing 8% interest for the entire amount of the expenses paid. Accrued interest as of September 30, 2022, was \$2,477.

**NOTE 4 - DISTRIBUTION**

On May 5, 2021, Production Consulting transferred all of its assets as well as activity from April 1, 2021, to May 5, 2021, to a minority owner, KML, Inc. Due to the irregular nature of this distribution management of the Company is considering a forensic audit.

**NOTE 5 - LIQUIDITY AND GOING CONCERN**

The Company has incurred losses since its inception and has not yet received any revenues from sales of products or services. These factors create substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

The ability of the Company to continue as a going concern is dependent on the Company generating cash from the sale of its common stock and/or obtaining debt financing and attaining future profitable operations. Management's plans include selling its equity securities and obtaining debt financing to fund its capital requirement and ongoing operations; however, there can be no assurance the Company will be successful in these efforts.

**NOTE 6 - CHANGE OF OWNERSHIP**

On May 12, 2021, board members and officers, William Michael Reynolds, James Emil Sciarretta and Steven R Reiley were informed by Jerry Morrell, (CEO, VP, and Director) that he had signed and recorded a deed/warranty document number 3970681 - Yellowstone, County, Montana, that effectively transferred the ownership of the Bar 11 Subdivision to the minority LLC member, KML, Inc. This transfer effectively removed Diamond Lake Minerals, Inc.'s interest in the subdivision real estate. This transfer occurred on May 3, 2021.

Upon learning of the transfer, James Emil Sciarretta and Steven R Reiley immediately resigned as officers and directors of Diamond Lake Minerals, Inc. William Michael Reynolds had resigned as an officer and Board Chairman on April 26, 2021, for personal reasons.

The only remaining officer after May 12, 2021, of Diamond Lake Minerals, Inc. is Jerry Morrell. On June 30, 2021, Jerry Morrell resigned as CEO, VP, and Director. His final act in office was to appoint William Michael Reynolds as sole Director and President of Diamond Lake Minerals, Inc.

**NOTE 6 - CHANGE OF OWNERSHIP (Continued)**

Once the transfer of the Bar 11 Subdivision was discovered on May 12th, 2021, the officers and directors that had resigned did research by examining the recorded documents at the Yellowstone County, Montana Clerk and Recorder Office. In this process of reviewing the parcels of real estate transferred, we noticed that two properties were missing in the legal description of the May 5, 2021, recording.

Upon further research, we discovered that Jerry Morrell signed on behalf of Production Consulting LLC and KML, Inc. deed/warranty dated 12-11-2020, document number 3951666 and document number 3951667, which transferred a large lot within the subdivision and also a separate 10-acre parcel with a house and buildings at the front of the subdivision to Jerry Morrell and Dominique Morrell as individuals. The listing on the deed/warranty is Grantors: Production Consulting LLC.

Grantees: Morrell, Jerry, and Morrell, Dominique. Jerry Morrell signed the deed/warranty in the capacity as an officer of Production Consulting, LLC, and also signed for KML, Inc. under a power of attorney agreement recorded on July 23, 2019.

All real estate transactions are public records.

The financial information for Production Consulting, LLC is provided by the Billings, MT office of the Bar 11 Subdivision. Jerry Morrell employed his sister and a local bookkeeper to maintain the books and to publish the financial statement of Production Consulting, LLC. This information is provided to Diamond Lake Minerals, Inc and the information is compiled into the Financial Statement format.

Stock Ownership Change:

On June 30, 2021, Jerry Morrell sold his 3,180,000 shares of stock to JP Michael LLC. As of the date of this report, JP Michael LLC owns 46% of the common stock. JP Michael LLC is located in Phoenix, Arizona, and is controlled by William Michael Reynolds.

On August 4, 2021, a change of control was filed with OTC Markets Group.

**NOTE 7 - SUBSEQUENT EVENTS**

The Company has evaluated subsequent events through November 15, 2022, the date on which the financial statements were available to be issued, and noted no material subsequent events that would require adjustment in or disclosure to these financial statements as of September 30, 2022.
