NOTE 1- Description of Business and Basis of Presentation

Organization and Description of Business

ViaDerma, Inc. ("VDRM" or the "Company") was incorporated under the laws of the State of Florida on January 11, 2007 as Murals by Maurice, Inc. On July 1, 2009, the Company changed its name to Décor Products International, Inc. and re-domiciled to the State of Nevada on April 6, 2010. The Company again changed its name to ViaDerma, Inc. on May 6, 2014 to reflect the Plan of Exchange disclosed below. The Company's common shares are quoted on the "Pink Sheets - Other" quotation market under the symbol "VDRM".

On March 21, 2014, a Plan of Exchange (the "Exchange") was executed between and among the Company, ViaDerma II Inc., a Nevada corporation, the majority stockholder of the Company and the majority stockholder of ViaDerma, II Inc. ("ViaDerma Stockholders"), pursuant to which the Company acquired 100% of the Capital Shares of ViaDerma in exchange for an issuance by the Company of 44,000,000 shares of Common Stock to ViaDerma Stockholders, and/or their assigns. The above issuance gave ViaDerma Stockholders and/or their assigns a 'controlling interest' in the Company representing approximately 98.52% of the then issued and outstanding shares of the Company's Common Stock. The transaction resulted in a change in control of the Company. The Company and ViaDerma were hereby reorganized, such that the Company acquired 100% of the Capital Shares of ViaDerma, and ViaDerma, II Inc. became a wholly-owned subsidiary of the Company.

The reorganization between the Company and ViaDerma has been accounted for as a reverse acquisition and recapitalization of the Company whereby ViaDerma, II Inc. is deemed to be the accounting acquirer (legal acquiree) and the Company to be the accounting acquiree (legal acquirer). The accompanying consolidated financial statements are in substance those of ViaDerma, II Inc., with the assets, liabilities, revenues and expenses, of the Company being included effective from the date of stock exchange transaction. The Company is deemed to be a continuation of the business of ViaDerma. Accordingly, the accompanying consolidated financial statements include the following:

(1) The balance sheet consists of the net assets of the accounting acquirer at historical cost and the net assets of the accounting acquiree at historical cost;

(2) The financial position, results of operations, and cash flows of the accounting acquirer for all periods presented as if the recapitalization had occurred at the beginning of the earliest period presented and the operations of the accounting acquiree from the date of stock exchange transaction.

The Company and its subsidiary, ViaDerma, II Inc., are hereinafter referred to as (the "Company").

The Company, through its subsidiary, is mainly engaged in the manufacture and sales of pharmaceutical related products in the United States of America.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States ("GAAP"). The condensed consolidated financial statements include the accounts of VDRM and its subsidiary. All significant inter-company balances and transactions within the Company have been eliminated upon consolidation.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned or controlled operating subsidiary. All significant intercompany balances and transactions have been eliminated upon consolidation.

NOTE 2- Summary of Significant Accounting Policies

Use of Estimates

The preparation of the condensed consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and costs and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

In December 2019, a novel strain of coronavirus ("COVID-19") was reported in Wuhan, China. The COVID-19 outbreak in the United States has caused business disruption due to mandated and voluntary closings and restrictions on movement and activities of many businesses. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the Company expects this matter to adversely impact its operating results, and the Company's ability to collect accounts receivables as the customers face higher liquidity and solvency risk. However, the related financial impact and the magnitude and overall effectiveness of this pandemic duration cannot be reasonably estimated at this time.

Cash and Cash Equivalents

Cash and cash equivalents are carried at cost and represent cash on hand, demand deposits placed with banks or other financial institutions, and all highly liquid investments with an original maturity of three months or less of the purchase date of such investments.

Accounts Receivable and Allowance for Doubtful Account

Accounts receivables are recorded at the invoiced amount and do not bear interest. The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and determined based on managements' assessment of known requirements, aging of receivables, payment history, the customer's current credit worthiness and the economic environment.

Inventories

Inventories are stated at the lower of cost or net realized value, cost being determined using the first-in first-out ("FIFO") method. The Company periodically reviews historical sales activities and product expiration dates to determine potentially obsolete items and evaluates the impact of any anticipated changes in future demand.

Intangible Assets, Net

The Company developed several patents for its products. Costs incurred for submitting the applications to the United States Patent and Trademark Office for these patents have been capitalized. Patent costs are being amortized using the straight-line method over the related 15 year lives. The Company begins amortizing patent costs once a filing receipt is received stating the patent serial number and filing date from the Patent Office. The Company also evaluate the impairment of its intangible assets periodically and there were no impairment indications during the nine months ended September 30, 2022.

Leases

The Company adopted ASU No. 2016-02, "*Leases* (Topic 842)," which, for operating leases, requires a lessee to recognize an operating lease right-of-use asset and an operating lease lability, initially measured at the present value of the lease payments, in its balance sheet with terms of more than 12 months. The Company has no lease obligation as of September 30, 2022.

Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Balances from borrowings are subsequently measured at amortized cost using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the date of the balance sheet. All interest-related charges are included within other expense sections on the Statements of Operations.

Convertible Notes Payable

The Company accounts for convertible notes payable in accordance with the FASB Accounting Standards Codification No. 815, *"Derivatives and Hedging"*, since the conversion feature is not indexed to the Company's stock and can't be classified in equity. The Company allocates the proceeds received from convertible notes payable between the liability component and conversion feature component. The conversion feature that is considered embedded derivative liabilities has been recorded at their fair value as its fair value can be separated from the convertible notes and its conversion is independent of the underlying note value. The Company has also recorded the resulting discount on debt related to the conversion feature and is amortizing the discount using the effective interest rate method over the life of the debt instruments.

All interest-related charges are included within other (expense) sections on the Condensed Consolidated Statements of Operations.

Derivative Liabilities

The Company accounts for derivative liabilities in accordance with the FASB Accounting Standards Codification No. 815, *"Derivatives and Hedging"*. ASC 815 requires companies to recognize all derivative liabilities in the balance sheet at fair value, and marks it to market at each reporting date with the resulting gains or losses shown in the Statements of Operations.

Beneficial Conversion Feature

For conventional convertible debt where the rate of conversion is below market value, the Company recorded a debt discount against the face amount of the respective debt instrument and offset to Additional Paid in Capital. The discount is amortized over the life of the debt. If a conversion of the underlying debt occurs, a proportionate share of the unamortized amounts is immediately expensed.

Fair Value Measurements of Assets and Liabilities

The Company measures its financial and non-financial assets and liabilities, as well as makes related disclosures, in accordance with FASB ASC No. 820, Fair Value Measurements, which provides guidance with respect to valuation techniques to be utilized in the determination of fair value of assets and liabilities.

The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three-tier hierarchy of inputs is summarized in the three broad levels below:

- Level 1 – inputs are unadjusted quoted market prices in active independent markets for identical assets and liabilities
- Level 2 – inputs are directly or indirectly observable estimates from quotes for similar but not identical assets and liabilities, market trades for identical assets not actively traded, or other external independent means
- Level 3 – inputs are unobservable and reflect assumptions on the part of the reporting entity

Our financial instruments include cash, accounts receivable, inventories, accounts payable, accrued liabilities, convertible notes payable, and derivative liabilities.

The carrying values of the Company's cash, accounts receivable, inventories, accounts payable and accrued liabilities approximate their fair value due to their short-term nature.

The Company's convertible notes payable are measured at amortized cost.

Fair value measurements at September 30, 2022 are as follows:

	Level 1	Level 2	Level 3	Total
Fair Value of Derivative Liabilities	-	-	$ 1,013,074	$ 1,013,074
Fair Value Total	-	-	$ 1,013,074	$ 1,013,074

The Company used the Lattice Bi-nominal Option Pricing Model to determine the fair values of these derivative liabilities. See Note 5 for the Company's assumptions used in determining the fair value of these financial instruments.

Revenue Recognition

The Company recognizes revenue under FASB Accounting Standards Codification Topic 606 *"Revenue from Contracts with Customers"*

The Company generates its royalty revenue from the licensing agreements. The Company accounts for a contract when both parties have approved the contract and are committed to perform their obligations, the rights of the parties and payment terms are identified, the contract is in commercial substance and collectability of consideration is probable.

The Company recognizes royalty revenues from the sale of the FDA registered topical antibiotic products after both, 1) control of the product has been transferred to the customer and 2) the underlying performance obligations have been satisfied. Licensees have the exclusive distribution rights of the Company's products and pay royalties based on their sales of the Company's products.

The Company also generates royalty revenue from licenses granted to customers to create their own private label utilizing the Company's products and technologies. The Company recognize the royalty revenue monthly but over the license term using an appropriate measure of progress.

Stock Based Compensation

The Company recognizes compensation costs to employees under FASB Accounting Standards Codification 718 *"Compensation - Stock Compensation* (ASC 718)". Under ASC 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options and warrants. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

On January 1, 2019, the Company adopted ASU No. 2018-07 *"Compensation - Stock Compensation (Topic 718)*: *Improvements to Nonemployee Share-Based Payment Accounting.*" These amendments expand the scope of Topic 718, Compensation - Stock Compensation (which currently only includes share-based payments to employees) to include share-based payments issued to nonemployees for goods or services. Consequently, the accounting for share-based payments to nonemployees and employees will be substantially aligned.

Net Loss Per Share

The Company calculates net loss per share in accordance with ASC Topic 260, "*Earnings per Share*". Basic income per share is computed by dividing the net income by the weighted-average number of common shares outstanding during the year. Diluted income per share is determined using the weighted-average number of common shares outstanding during the year, adjusted for the dilutive effect of common stock equivalents, consisting of shares that might be issued upon exercise of common stock options and conversion of convertible notes. In periods where losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents, because their inclusion will be anti-dilutive.

Income Taxes

Income taxes are determined in accordance with ASC Topic 740, "*Income Taxes*" ("ASC 740"). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be applied to taxable income in the years in which those temporary differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Operations in the period that includes the enactment date.

A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

For the nine months ended September 30, 2022, the Company did not have any interest and penalties associated with tax positions. As of September 30, 2022, the Company did not have any significant unrecognized uncertain tax positions.

Related Party Transactions

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Pursuant to Section 850-10-20 the related parties include a. affiliates of the Company; b. entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825–10–15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The consolidated financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Recent Accounting Standards

New accounting pronouncements are issued by the Financial Accounting Standard Board (“FASB”) or other standard setting bodies that are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the effect of recently issued standards that are not yet effective will not have a material effect on its consolidated financial position or results of operations upon adoption.

Recently Issued Accounting Pronouncements Not Yet Adopted

In August 2020, the FASB issued ASU 2020-06, *"Debt – Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's Own Equity (Subtopic 815 – 40)"* ("ASU 2020-06"). ASU 2020-06 simplifies the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. The ASU is part of the FASB's simplification initiative, which aims to reduce unnecessary complexity in U.S. GAAP. The ASU's amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. The Company is currently evaluating the impact of ASU 2020-06 on its financial statements.

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or are not expected to be significant to the Company and its Subsidiary' consolidated financial statements.

NOTE 3- Intangible Asset, Net

Intangible assets consisted of the following:

		September 30, 2022
Patents	$	2,950
(Less): Accumulated amortization		(738)
Total intangible asset, net	$	2,212

During the nine months ended September 30, 2022 and 2021, the Company had amortization expense related to intangible asset of $148 and $148 respectively.

NOTE 4- Convertible Notes Payable

(A) Convertible Notes Payable - $180,000

At September 30, 2022, the carrying value of the convertible notes payable was $98,796 and the debt discount was fully amortized. No collateral exists on any of the note instruments. All of the note instruments were originally dated December 4, 2009 and carried stated interest rates of 8%. However, see below for discussion of these notes being past due and the revised interest rates thereto.

In accordance with the terms and conditions in Promissory Notes, if the Company defaults in the payment of principal or interest due on the Promissory Notes, the holders of Promissory Notes (the "Holders") shall be entitled to receive and the Company agreed to pay all reasonable costs of collection incurred by Holders, including, without limitation, reasonable attorney's fees for consultation and suit. If any payment due is not made and remains unpaid for ten (10) days, it is in default hereof. Any such payment in default shall bear interest at 18% per annum. Should any payment not be made when due, there shall also be a late charge equal to 5% of the amount of the installment of principal or interest which is paid after the due date. In the event of default hereunder, the entire unpaid balance hereof shall, at the option of the Holders, become due and payable upon demand. All costs and fees (including reasonable fees and disbursements of legal counsel) incurred by the Holders as the result of any default by anyone liable hereunder or as the result of any collection effort by the Holders shall also be due and owing to the Holders.

Failure to exercise any right shall not be deemed a waiver of the right to exercise the same at any subsequent date, or event.

On November 15, 2017, the Company and the Note Holder of principal $140,000 ("PMI Note") entered into an addendum to change the conversion price to $0.005 per share or 50% of the lowest trading price for the last 20 trading days immediately prior to but not including the Conversion Date, whichever is lower; and the Note Holder should be reimbursed for the conversion cost by adding $1,500 to the Principal for each note conversion effected by Note Holder. The Addendum has been evaluated with respect to the terms and conditions of the conversion features contained in the Addendum to determine whether they represent embedded or freestanding derivative instruments under the provisions of ASC 815. The Company determined that the conversion features contained in PMI Note carrying value represents a freestanding derivative instrument that meets the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instrument in PMI Note is reflected in the Company's balance sheet as a liability.

On March 2, 2021, a portion of principal and accrued interest in PMI Note in amount of $81,204 and $238,796, respectively were converted into 40,000,000 shares of common stock of the Company at the conversion price of $0.008 per share.

At September 30, 2022, the carrying value of PMI Note was $58,796. The Company recorded interest expense of $10,441 related to PMI Note during the nine months ended September 30, 2022. PMI Note is currently in default and the accrued interest payable related to PMI Note was $21,430 as of September 30, 2022.

The conversion terms of the remaining principal $40,000 were unchanged. The Company recorded the default interest of the note in amount of $6,107 during for the nine months ended September 30, 2022, and the accrued interest payable of $101,929 as of September 30, 2022.

(B) Convertible Notes Payable - $33,500

As of September 30, 2022, the principal balance in the 10% convertible promissory note entered into on March 21, 2014 was $33,500 and the Note is currently in default.

This Note is convertible at the Note Holder's option into the shares of the common stock of the Company at a conversion price of lessor of $0.10 per share or 50% of the market on the Conversion Date.

The Company determined that the conversion features contained in this Note carrying value represents a freestanding derivative instrument that meets the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instrument in this Note is reflected in the Company's balance sheet as a liability.

The Company recorded interest expense of $5,209 related to this Note during for the nine months ended September 30, 2022, and the accrued interest payable of $57,685 as of September 30, 2022.

(C) Convertible Notes Payable – Line of Credit

On July 12, 2016, the Company issued an unrelated third party (the "Note Holder") a 15% promissory note (the "LOC") with a 20% prepayment penalty and a 20% default charge, pursuant to which the Note Holder agreed to invest a total amount up to $200,000 into the Company for working capital. On June 27, 2019, the Company entered into the addendum to increase additional $50,000 to this LOC. The LOC is convertible at the Note Holder's option

into the shares of the common stock of the Company at a conversion price of the lesser of $0.0005 per share or 50% discount to market, and the Note Holder should be reimbursed for the conversion cost by adding $1,000 to the Principal of LOC for each note conversion effected by Note Holder. Since the Company's stock price has not been lower than $0.001 for the past three years, the Company determined that the conversion features contained in the LOC should carry beneficial conversion feature instead of derivative liabilities.

On March 1, 2021, a portion of principal and accrued interest in this Line of Credit in amount of $180,364 and $44,636, respectively, were converted into 30,000,000 shares of common stock of the Company at the conversion price of $0.0008 per share.

As of September 30, 2022, the outstanding balance of the LOC was $19,000, net of debt discount of $0, and $19,000 was past due. The Company recorded interest expense of $2,842 related to the LOC during for the nine months ended September 30, 2022, and the accrued interest payable was $80,613 As of September 30, 2022.

(D) Convertible Notes Payable – 2017 Services

On April 20, 2017, the Company issued an unrelated third party (the "Note Holder") a 12% promissory note in principal amount of $60,000 with 20% prepayment penalty and 20% default charge (the "2017 Services Note") for financial services rendered in 2017. The 2017 Services Note is convertible at the Note Holder's option into the shares of the common stock of the Company at a conversion price of the lesser of $0.005 per share or 50% of the market, and the Note Holder should be reimbursed for the conversion cost by adding $1,500 to the Principal of the 2017 Services Note for each note conversion effected by Note Holder.

The Company determined that the conversion features contained in 2017 Services Note carrying value represents a freestanding derivative instrument that meets the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instrument in 2017 Services Note is reflected in the Company's balance sheet as a liability.

On February 5, 2021, a portion of principal and accrued interest in 2017 Service Note in amount of $11,758 and $512, respectively, plus $1,500 conversion cost reimbursement were converted into 17,212,500 shares of common stock of the Company at the conversion price of $0.0008 per share.

As of September 30, 2022, the outstanding balance of 2017 Services Note was $13,242, and the debt discount was amortized in full. The 2017 Services Note is currently in default due to non-payment when semi-annual interest was due. The Company recorded default interest expense of $4,806 related to the 2017 Services Note during for the nine months ended September 30, 2022, and the accrued interest payable was $21,119 as of September 30, 2022.

(E) Convertible Notes Payable – 2018 Services

On March 7, 2018, the Company issued an unrelated third party (the "Note Holder") a 12% promissory note in principal amount of $60,000 with 20% prepayment penalty and 20% default charge (the "2018 Services Note") for financial services rendered. The 2018 Services Note is convertible at the Note Holder's option into the shares of the common stock of the Company at a conversion price of $0.005 per share, and the Note Holder should be reimbursed for the conversion cost by adding $1,500 to the principal of the 2018 Services Note for each note conversion effected by Note Holder. Since the conversion price is lower than Company's stock price, the Company determined that the conversion features contained in the 2018 Services Note should carry beneficial conversion feature instead of derivative liabilities.

As of September 30, 2022, the outstanding balance of 2018 Services Note was $60,000, and the debt discount was amortized in full. The 2018 Services Note is currently in default due to non-payment when semi-annual interest was due. During for the nine months ended September 30, 2022, the Company recorded default interest expense of $12,230 and the accrued interest payable was $79,014 as of September 30, 2022.

(F) Convertible Notes Payable – L&H (Note I)

On August 16, 2017, the Company issued L&H Inc., an unrelated third party (the "Note Holder") a 12% promissory note in principal amount of $28,000 with Original Issuance Discount of $3,000, 20% prepayment penalty and 20% default charge ("L&H Note I") for working capital. L&H Note I is convertible at the Note Holder's option into the shares of the common stock of the Company at a conversion price of the lesser of $0.001 per share or 50% discount to market, and the Note Holder should be reimbursed for the conversion cost by adding $1,500 to the Principal of L&H Note I for each note conversion effected by Note Holder.

The Company determined that the conversion features contained in L&H Note carrying value represents a freestanding derivative instrument that meets the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instrument in L&H Note is reflected in the Company's balance sheet as a liability.

On January 29, 2021, the remaining portion of principal and accrued interest in L&H Note I in amount of $16,000 and $5,982, respectively, plus $1,500 conversion cost reimbursement were converted into 29,352,500 shares of common stock of the Company at the conversion price of $0.0008 per share.

As of September 30, 2022 and December 31, 2021, the outstanding balance of L&H Note I and accrued interest were both $0.

(G) Convertible Notes Payable – L&H (Note II)

On December 21, 2017, the Company issued L&H Inc., an unrelated third party (the "Note Holder") a 15% promissory note in principal amount of $28,000 with Original Issuance Discount of $3,000, 20% prepayment penalty and 20% default charge ("L&H Note II") for working capital. NOTE 5- Fair Value Measurement _ Derivative Liabilities

Notes that are convertible at a discount to market are considered embedded derivatives.

The Company's convertible note has been evaluated with respect to the terms and conditions of the conversion features contained in the note to determine whether they represent embedded or freestanding derivative instruments under the provisions of ASC 815. The Company determined that the conversion features contained in the convertible note carrying value represent a freestanding derivative instrument that meets the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instrument in the note is reflected in the Company's balance sheet as a liability. The fair value of the derivative financial instrument of the convertible note was measured using the Lattice Bi-nominal Option Model at the inception date of the note and will do so again on each subsequent balance sheet date. Any changes in the fair value of the derivative financial instruments are recorded as non-operating, non-cash income or expense at each balance sheet date. The derivative liabilities will be reclassified into additional paid in capital upon conversion.

As of September 30, 2022, the Company's derivative liabilities are embedded derivatives associated with the Company's convertible notes payable in Note 4. The Company measured the fair value of the derivative liabilities as $1,013,074 on September 30, 2022 and recorded changes in derivative liabilities in the amount of $428,527 during the nine months ended September 30, 2022.

The valuation of the derivative liabilities to the convertible debt was arrived at through the use of the Lattice Bi-nominal Option Model using the following assumptions:

	September 30, 2022
Volatility	150.45 %
Risk-free interest rate	4.05 %
Expected term (year)	1

The following table provides a summary of changes in fair value of our Level 3 financial liabilities for the nine months ended September 30, 2022.

Balance as of December 31, 2021	$	1,441,601
Market to market adjustment		(428,527)
Balance as of September 30, 2022	$	1,013,074

NOTE 6- Shareholders' Equity

As of September 30, 2022, the Company had 1,000,000,000 shares of common stock authorized, $0.0001 par value, of which 983,556,451 shares issued and outstanding, and had 50,000,000 shares of preferred stock authorized, $0.001 par value, of which 31,000,000 shares issued and outstanding. Each share of preferred stock has conversion ratio and voting right of 10:1.

NOTE 7- Commitment and Contingencies

On January 3, 2018, the Company entered into a services agreement with a consultant for business development and marketing services, pursuant to which the Company agreed to issue the consultant a total of 20,000,000 shares of common stock of the Company. As of September 30, 2022, the Company recorded $135,000 as accrued expenses.

On March 8, 2019, the Company entered into a twelve-month service agreement with a consultant for management consulting services, pursuant to which the Company agreed to issue the consultant a total of 1,000,000 shares of common stock of the Company. On March 8, 2020, the Company entered into another twelve-month service agreement with a consultant for management consulting services, pursuant to which the Company agreed to issue the consultant a total of 1,000,000 shares of common stock of the Company. On March 29, 2021, 2,000,000 shares of common stock of the Company were issued at the conversion price of $0.001 and decreased $5,100 of accrued expenses.

On March 8, 2021 and March 8, 2022, the Company renewed a twelve-month service agreement with a consultant for management consulting services, pursuant to which the Company agreed to issue the consultant a total of 2,000,000 shares of common stock of the Company per annum. As of September 30, 2022, the Company recorded $33,350 as accrued expenses for the consulting services.

NOTE 8- Related Party Transactions

The Company follows FASB ASC NO. 850-10 for the identification of related parties and disclosure of related party transactions.

As of September 30, 2022, the Company had due to related party in amount of $71,137, which was borrowed from Dr. Chris Otiko for daily operating expenses. The borrowing was not evidenced by promissory note, but rather was oral agreement between Dr. Chris Otiko and the Company, and due on demand.

There was no officer compensation for the nine months ended September 30, 2022.

NOTE 9- Going Concern

The accompanying condensed consolidated financial statements have been prepared using the going concern basis of accounting, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

As of September 30, 2022, the Company was in default on the repayment of certain convertible notes and promissory notes with an aggregate principal amount of $415,181, which are immediately due and payable. The continuation of the Company as a going concern through September 30, 2022 is dependent upon the continuing financial support from its stockholders or negotiation of repayment term. Management believes the existing shareholders will provide the additional cash to meet the Company's obligations as they become due.

These factors raise substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets and liabilities that may result in the Company not being able to continue as a going concern.

NOTE 10- Subsequent Events

In accordance with ASC Topic 855-10 "Subsequent Events", the Company has evaluated its operations subsequent to September 30, 2022 to the date these consolidated financial statements were issued and determined there was no subsequent events or transactions the required recognition or disclosure in these consolidated financial statements.

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

ViaDerma, Inc.'s lead product is an FDA registered topical antibiotic called that will be sold under the brand name Vitastem™. The Company also has products in development in the following fields; anti-aging skin care, pain management, hair-loss, and toenail fungus. The products are based on a patent pending delivery system technology that allows for rapid mass transfer of the pharmaceutical active ingredient across the skin and into the body to provide immediate localized therapy. Detailed product information is available online by accessing the Government website, DailyMed.

The Company utilizes a specific Trade Secret Formulation System in the manufacture of all the products.

On January 31, 2014, the Company purchased an exclusive license (the "License") on the patent pending technology from Dr. Howard Phillips represented by US Patent application #20130190274. The Company amended the License on January 20, 2017 such that it is now a non-exclusive distribution and licensing agreement.

Apart from the technology licensed from Dr. Howard Phillips, the Company is currently using a second-generation transdermal technology to manufacture and develop its products. This technology was exclusively licensed from a related party. During 2016, provisional patents were filed on this technology. The Company received provisional patent #62757891 'ENHANCED ANTIBIOTIC AND DRUG DELIVERY FOR AQUEOUS TOPICAL APPLICATIONS FOR HUMAN AND VETERINARY USES'for this technology. The Company believes the newer technology has additional benefits and plans to incorporate this topical delivery system into most, if not all, of its future products.

In June 2017, the Company received notification that its newer product Prolayed (15ml), was also registered with the FDA.

In addition, the Company is in the early development stage of a medical cannabis product containing cannabidiol ("CBD") that can be absorbed through the skin with our proprietary transdermal delivery system. A provisional patent application using the combination of CBD and THC with the delivery system was filed in 2017 (Provisional Patent # 62466209). The use of CBD is aimed at the reduction of inflammation and for the treatment of several diseases, such as, nicotine addiction, fibromyalgia, Cohn's disease, schizophrenia, migraine headaches, pain management for cancer and Multiple Sclerosis.

The Company has filed with the Food and Drug Administration (FDA) for a new over the counter or OTC version of a "Premature Ejaculation Drug". The new "OTC Drug" received FDA registration during the second quarter of 2017 (NDC:69006-010-00) and the Company's name of the new drug will portray prolonged endurance. The Company's recent testing of the drug has shown to be successful in retarding the onset of ejaculation during sexual intercourse.

The Company's products are sold to local medical practitioners, and patients in clinics primarily in the Los Angeles, California area; however, the Company is moving towards a wholesale distributor model and launch the online sales at amazon.com in the second quarter of 2018. The Company's primary goal during 2018 has been to commercially manufacture the product on a larger scale and seek wholesale distribution partners that will carry and sell the product. The Company is presently using a manufacturing partner on the East Coast of the United States. During November 2017, the Company received its first finished order of Vitastem (bottle sizes range from 5ml to 15ml). The Company, along with its wholesale partners, will attempt to sell and distribute the product in several key areas.

In addition to the primary plan of developing and selling new products to the market, the Company is exploring the possibility of licensing the technology to other pharmaceutical companies. As of the date of this filing, the Company has entered into two licensing and distribution agreements as follows:

On January 1, 2017, the Company entered into a licensing and distribution agreement with Biogenx, Inc. for the purpose of commercializing and distributing a topical antibiotic product to be branded VitaStem. On August 1, 2018, Biogenx, Inc. changed its legal entity name as Viaderma Distribution, Inc. The product will carry the Company's tetracycline-based technology. This product will be separately registered with the FDA. Pursuant to the agreement, the Company will receive 50% of gross profit from sales of Vitastem. For purposes of the agreement, gross profit is defined as total revenues less cost of production, distribution and marketing. In addition ViaDerma will receive an additional 5% of gross sales as a licensing fee. The agreement will terminate on December 31, 2022 unless

extended by both parties. Viaderma Distribution, Inc. (Formerly Biogenx, Inc.) has the right to terminate the agreement early with two month notice if it deems the arrangement to not be financially viable.

On January 1, 2017, the Company entered into a licensing and distribution agreement with Vage Nigeria, Ltd. for the purpose of commercializing and distributing a topical antibiotic product to be branded Dermafix. The product will carry the Company's tetracycline-based technology. This product will be separately registered with the FDA. Pursuant to the agreement, the Company will receive 50% of the net sales from Dermafix. For purposes of the agreement, net sales is defined as total revenues less cost of production, distribution and marketing (which includes taxes, discounts, allowances, credits for returns, rebates, import duties and other governmental charges, freight and transportation). The agreement will terminate on December 31, 2022 unless extended by both parties. Vage Nigeria, Ltd. has the right to terminate the agreement early with two month notice if it deems the arrangement to not be financially viable.

On January 1, 2018, the Company entered into a licensing agreement with SSP Asset Management Corp., an organization incorporated under the laws of Alberta, Canada ("SSP"). The license granted SSP the right to use the Company's transdermal technology for use within certain products. The Company will receive Fifty Percent (50%) of the net profits of any products sold by SSP. The term of the license is 25 years and is exclusive for a minimum of two years on any new products developed by SSP. The Company also issued 20 million restricted common shares to the shareholders of SSP to assist in the development of the new products.

We announced on February 7, 2018 that the complaint filed by Steven J. Keough in a South Dakota Federal Court, has been dismissed without prejudice. The complaint alleged certain technical issues dating back to 2011. We have filed provisional patents on several products, and their pending status has already gone through a screening process by the USPTO. Our legal counsel vigorously defended this civil legal action to protect our shareholders and our patent pending product line. We continue to aggressively defend any legal action that will affect our progress.

In August 2020, the Company increased Vitastem inventories and distributed some of inventories complimentary to the medical facilities and hospital trauma centers for testing purposes. The test results have been reported as excellent among the patients treated with Vitastem, and the Company has actively discussed with the hospitals and healthcare providers utilizing the Vitastem product in their patient care.

On October 1, 2020, Liberdol Topical Analgesic, a new relief pain product was officially launched. (NDC: 71262-004-18)

On January 4, 2021, the Company entered into a three-year exclusive distributor and licensing agreement with an affiliate of the Company. The Company provides the FDA registered medication, Tetracyte, to the affiliate's medical practices in six States. The affiliates created their own private label for the wound care utilizing the Company's technology.

Currently, the products are sold to local medical practitioners, and patients in clinics primarily in the Los Angeles, California area and launch online sales at amazon.com in the second quarter of 2018. The Company's primary goal during 2018 has been to commercially manufacture the product on a larger scale and seek wholesale distribution partners that will carry and sell the product. The Company is presently using a manufacturing partner on the East Coast of the United States. During November 2017, the Company received its first finished order of Vitastem (bottle sizes range from 5ml to 15ml). On November 2019, the Company discarded the remaining inventories which were expired and received its second finished goods of Vitastem with increased bottle sizes of 15ml and 55ml. The Company, along with its wholesale partners, will attempt to sell and distribute the product in several Middle Eastern countries.

The company is in the early development stage of a medical cannabis product (CBD) that can be absorbed through the skin with our proprietary transdermal delivery system. A provisional patent application using the combination of CBD and THC with the delivery system was filed in 2017. The use of CBD is aimed at the reduction of inflammation and for the treatment of several diseases,
