Item 4. Issuer's Business, Products and Services

A. Summarize the issuer's business operations

Xalles is a Fintech holding company, that is acquiring and developing businesses in the areas of financial services technology ("Fintech"), supporting such areas as payments, financial compliance, foreign currency and cryptocurrency, and other solutions that help to optimize Fintech related processes.

The vision is to provide solutions and services to support government, business and consumer customers globally through the Xalles subsidiaries.

Xalles has created a financial, technological and resource backbone to support the subsidiary operating companies and external client projects. This backbone consists of a management team with Fintech experience and a proprietary system ("X2X") for financial reconciliation and auditing of business and government payment transactions. Xalles also has a license to a patented payment card security solution.

Xalles will continue to seek acquisitions within Fintech. Specific areas of interest are consumer, government and business solutions, including Blockchain-based financial reconciliation solutions and services. We will continue to look for transactions that will add value and create synergy with our existing service offerings. We will continue fundraising efforts in 2023 and develop target projects that will attract a larger number of investors. Xalles also plans to expand our strategic partnerships beyond our existing business development relationships.

The following summarizes the plans in 2023 for the 3 Xalles direct wholly owned subsidiaries under Xalles Holdings Inc., which also own all other business units and operating entities.

Xalles Capital

- Secure partners and third parties to invest in Gateway Innovations' Ghana Cyber City project
- Grow the Xalles Studio through new participants
- Develop a portfolio management approach to acquisitions and spinoffs

Xalles Financial Services

- Launch the updated Global Savings Network offering to local retailers and non-profit fundraisers using the new payment platform
- Roll the Co-Owners rewards model and IP into the Global Savings Network
- Search for additional technologies and system platforms to license and companies to acquire and rollup

Xalles Technology

- Launch integrated Intel365 service on new technology platform
- Grow VGR Technology Partners revenue and profit through new clients
- Complete announced acquisitions and seek additional acquisition candidates

C. Describe the issuers' principal products or services.

Xalles offers a variety of technology-based services to the financial services market. Xalles is developing solutions to be applied to complex business and government financial transactions and payments. Our goal is to look for opportunities to optimize and improve the fintech ecosystem. These opportunities are in the domain of payment solutions, cryptocurrency trading strategies, financial transaction reconciliation, IT staffing, financial and data compliance solutions, corporate intelligence services, a technology accelerator program, commerce solutions, reward systems, and merchant discount programs.

The Global Fintech Market was valued at USD \$2,767 billion in 2016, \$7,302 billion in 2020 and is projected to grow at a CAGR of 26.87% to \$31,504 billion in 2026*.

Rising popularity for digital payments, increased investments in technology-based solutions, supportive government regulations, and increased adoption of IOT devices are expected to positively influence the Global Fintech Market in the coming years.

Rising innovations like mobile wallets, digitized money, paperless lending, etc., and adoption of e-commerce platforms across the economies, coupled with rising smartphone penetration have paved the way for increasing Fintech transactions.

APPENDIX E: NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2022
(Expressed in US dollars)

NOTE 1 – GENERAL ORGANIZATION AND BUSINESS AND GOING CONCERN

Xalles Holdings Inc. ("the Company") was incorporated in the State of Nevada on December 14, 2009 under the name Stella Blu, Inc. On August 24, 2015, the Company changed its name to Xalles Holdings Inc.

On July 14, 2015, the Company entered into a Share Exchange Agreement (the "Agreement") with Xalles Limited ("Xalles"), a Delaware corporation (incorporated in October 2014), ArrowVista Corporation ("ArrowVista"), a Delaware corporation, Xalles Singapore Pte. Ltd. ("Xalles Singapore"), a Singapore corporation, and the shareholders of Xalles, ArrowVista, and Xalles Singapore. Pursuant to the Agreement, Xalles, ArrowVista, and Xalles Singapore will become wholly-owned subsidiaries of the Company in exchange for the issuance of certain shares. Xalles became a wholly-owned subsidiary by the issuance of 19,500,000 shares of common stock on July 16, 2015 (the "First Tranche"). Also, refer to Note 3. ArrowVista will become a wholly-owned subsidiary by the issuance of 4,500,000 shares of common stock on or before June 30, 2016. Xalles Singapore will become a wholly-owned subsidiary by the issuance of 2,250,000 shares of common stock on or before June 30, 2016. The consummation of the transactions set forth in the Agreement are subject to certain conditions, which have not yet been finalized under that agreement.

On July 1, 2015, prior to the closing of the First Tranche of the Agreement, ArrowVista transferred a note receivable and a license to Xalles in consideration of a note payable in the amount of \$97,211. The amount owed is unsecured, non-interest bearing, and due on demand.

On August 19, 2015, the Company effected a 3-for-1 forward stock split of its common stock. All common share and per common share amounts in these consolidated financial statements have been retroactively restated to reflect the stock split.

As of December 31, 2022, the Company had the following wholly owned active subsidiaries, namely, Xalles Capital Inc., Vigor Crypto Holdings, LLC, Gateway Innovations Limited, Xalles Financial Services Inc., Co-Owners Rewards Inc., Global Savings Network Inc., Xalles Technology Inc., Intel365, Inc., VGR Technology Partners Inc., AIGrowthHub Inc., Private Loyalty Club Inc. and a 50% stake in GioBot Inc.

The Company is engaged business development of payment and related financial services companies. The Company's principal operations include the acquisition of companies with unique technologies and services within the financial services technology industry ("Fintech"). The Company expects to generate revenues and related cash flows from the sale of products and services from its operating entities. The goal is to sell or spin out some of the operating companies when they are deemed ready.

These consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary debt or equity financing to continue operations, and the attainment of profitable operations. There is no guarantee that the Company will be successful in these efforts. As of December 31, 2022, the Company has a working capital deficit of \$220,283, and has accumulated losses of \$451,366 since inception. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

These consolidated financial statements present the balance sheets, statements of operations, stockholders' deficit and cash flows of the Company. These financial statements are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States. The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31 fiscal year end.

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Xalles Limited. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates and Assumptions

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The results of operations and cash flows for the periods shown are not necessarily indicative of the results to be expected for the full year. The Company regularly evaluates estimates and assumptions related to valuation of license, stock-based compensation, and deferred income tax asset valuation allowances.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

License

The Company acquired a license from a company controlled by our CEO on July 1, 2015 amounting to \$1,000. License has been capitalized in accordance with ASC 350-30 "Intangibles – Goodwill and Other – General Intangibles Other Than Goodwill." Amortization commenced on July 1, 2015 when the license was acquired and became ready for its intended use. Amortization is calculated on a straight-line basis over its estimated useful life of 15 years.

If the total of the expected undiscounted future cash flows is less than the carrying amount of the asset, a loss is recognized for the excess of the carrying value over the fair value of the asset.

Financial Instruments and Fair Value Measures

ASC 820, "*Fair Value Measurements and Disclosures*" requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are

observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist principally of cash, accounts payable and accrued liabilities, convertible debenture, stock-settled debt obligation, and amounts due to related parties. Pursuant to ASC 820, the fair value of cash is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. The recorded values of all other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial statements.

Stock-based Compensation

The Company records stock-based compensation in accordance with ASC 718 "Compensation – Stock Compensation" and ASC 505, "Equity Based Payments to Non-Employees", using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

Earnings/Loss per Share

The Company computes net loss per share in accordance with ASC 260, "Earnings per Share", which requires presentation of both basic and diluted earnings per share ("EPS") on the face of the statements of operations. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

Comprehensive Loss

ASC 220, "Comprehensive Income", establishes standards for the reporting and display of comprehensive loss and its components in the consolidated financial statements. As at December 31, 2022 and December 31, 2021, the Company had no items representing comprehensive income or loss.

Income Taxes

A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

When required, the Company records a liability for unrecognized tax positions, defined as the aggregate tax effect of differences between positions taken on tax returns and the benefits recognized in the financial statements. Tax positions are measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. No tax benefits are recognized for positions that do not meet this threshold. The Company has no uncertain tax positions that require the Company to record a

liability. The Company's tax years ended December 31, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021 and 2022 remain subject to examination by Federal and state jurisdictions.

The Company recognizes penalties and interest associated with tax matters as part of the income tax provision and includes accrued interest and penalties with the related tax liability in the balance sheet. The Company had no accrued penalties and interest as of December 31, 2022 and as of December 31, 2021.

Recently Issued Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 – ACQUISITIONS

On July 14, 2015, the Company entered into an Agreement with Xalles Limited ("Xalles"), a Delaware corporation, ArrowVista Corporation ("ArrowVista"), a Delaware corporation, Xalles Singapore Pte. Ltd. ("Xalles Singapore"), a Singapore corporation, and the shareholders of Xalles, ArrowVista, and Xalles Singapore. Pursuant to the Agreement, Xalles, ArrowVista, and Xalles Singapore will become wholly-owned subsidiaries of the Company in exchange for the issuance of certain shares. Xalles became a wholly-owned subsidiary by the issuance of 19,500,000 shares of common stock on July 16, 2015. ArrowVista will become a wholly-owned subsidiary by the issuance of 4,500,000 shares of common stock on or before June 30, 2016. Xalles Singapore will become a wholly-owned subsidiary by the issuance of 2,250,000 shares of common stock on or before June 30, 2016. The consummation of the transactions set forth in the Agreement are subject to certain conditions, which have not yet been finalized. The original shareholders of the Company agreed to fund \$300,000 to support the current operations and continued development of the business. As of the date of the filing of these consolidated financial statements, only \$33,146 has been received.

The share purchase agreement was a capital transaction in substance and therefore has been accounted for as a reverse capitalization. Under reverse capitalization accounting, Xalles was considered the acquirer for accounting and financial reporting purposes and acquired the assets and assumed the liabilities of the Company. Assets acquired and liabilities assumed are reported at their historical amounts. These consolidated financial statements include the accounts of the Company since the effective date of the recapitalization and the historical accounts of Xalles since inception.

On November 9, 2017, the Company entered into an Agreement with ArrowVista Corporation ("ArrowVista") and the shareholders of ArrowVista. Pursuant to the Agreement, ArrowVista will become a wholly-owned subsidiary of the Company in exchange for the issuance of certain shares and a Note.
