4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
(Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

On April 8, 2022, Mr. Young Ju Kim, the owner of DNAGO.AI purchased the control block of OCLG, buying from Community Economic Development Capital LLC, the Fifty (50) shares of the Company's Series A Preferred Stock, which represents 100% of the issued and outstanding shares. The Fifty (50) shares of Series A Preferred Stock collectively have super voting rights and each share can be converted into 10,000,000,000 shares of common stock. DNAGO.AI was subsequently merged into OCLG to transform the business of the company and launch the new OCLGtech.com, with focus on "finding new ways to treat and prevent diseases." Since April 8, 2022, the Company has been engaging manufacturers and stakeholders in the industry both in the United States and South Korea to execute agreements with partners, customers, vendors, and manufacturers, reviewing licenses and sublicense agreements with potential licensors, interviewing and hiring employees, and conducting research and due diligence

on potential partners, Joint-ventures, and acquisitions in the biotech industry. Notwithstanding the promises we obtained from our partners as mentioned above, and the potentially promising picture of OCLG going forward, there are no guarantees and the Company is providing NO assurance that it could be successful in executing its business plan building and monetizing the above mentioned relationships. Even if the Company is successful in monetizing the above mentioned relationships, the Company provides NO assurance that it could raise sufficient capital to finance the the monetization of these relationships. Our business is not currently profitable and it might never become profitable in the future. Our cash and liquid capital are dwindling steadily and we would need to issue stock and dilute current shareholders to be able to finance our ongoing operating expenses.

- B. List any subsidiaries, parent company, or affiliated companies.

DNAGO.Ai

- C. Describe the issuers' principal products or services.

DNAGO.Ai was subsequently merged into OCLG to transform the business of the company and launch the new OCLGTech.com, with focus on "finding new ways to treat and prevent diseases." Since April 8, 2022, the Company has been engaging manufacturers and stakeholders in the industry both in the United States and South Korea to execute agreements with partners, customers, vendors, and manufacturers, reviewing licenses and sublicense agreements with potential licensors, interviewing and hiring employees, and conducting research and due diligence on potential partners, Joint-ventures, and acquisitions in the biotech industry.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company operates out of its administrative facility located at 3580 Wilshire Blvd., Suite 100
Los Angeles, CA 90010

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

November 30, 2022

NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

Oncologix Tech, Inc. (the “Company”, “we”, “us” or “our”), a Nevada corporation, has a fiscal year end of November 30, and is listed on the OTC Pink Markets under the trading symbol OCLG. The Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual franchise tax from 2017 to 2021 which resulted in its Nevada charter being revoked. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated under the Securities Act of 1933, and was thus subject to revocation by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act. On May 26, 2021, a shareholder filed a petition for custodianship, with the District Court, Clark County, Nevada and was appointed as the custodian of the Company on June 24, 2021. The Company’s Nevada charter was reinstated on June 25, 2021, and all required reports were filed with the State of Nevada soon after. The Company remains active as of the date of this report and is currently taking steps to provide adequate current public information to meet the requirements under the Securities Act of 1933. The custodian was not able to recover most of the Company’s accounting records from previous management but was able to get a balance sheet, debt schedules, and the shareholder information hence the Company’s outstanding common shares were reflected in the equity section of the accompanying unaudited financial statements for fiscal Period Ended 2021, 2020 and 2019, and for the quarters ending November 30, 2022 and 2021.

Oncologix Tech, Inc. was originally formed in 1995 as “Wavetech, Inc.” a New Jersey corporation and changed its corporate domicile to Nevada in December 1997, by merging into a Nevada corporation named, “Interpretel International, Inc.” The Company subsequently changed its name, first to “Wavetech International, Inc.” and then, in 2000, to “BestNet Communications Corp.” In July 2006, it changed its business model to medical device products. In July 2006, it acquired JDA Medical Technologies, Inc. (“JDA”) and merged the business into Oncologix Corporation, a wholly owned subsidiary. On January 22, 2007, the Company changed its name to Oncologix Tech, Inc., to reflect its new business model.

The company incurred operating losses in 2017 and other previous years resulting in accumulated deficit of \$55,143,398 as at November 30, 2017. By August 23, 2017, the Company filed Form 15-12G with the SEC to terminate its reporting obligations under the 1934 Act. After their quarterly reports of November 30, 2017, the Company stopped all forms of making public report of its operation and financial results.

On April 23, 2021, Alpharidge Capital, LLC, a shareholder of the Company, served a demand to the Company, at last address of record, to comply with the Nevada Secretary of State statutes N.R.S. 78.710 and N.R.S. 78.150. On May 25, 2021, a petition was filed against the Company in the District Court of Clark County, Nevada, entitled “In the Matter of Oncologix Tech, Inc., a Nevada corporation” under case number A-21-835276-C by Alpharidge Capital, LLC, along with an Application for Appointment of Custodian, after several attempts to have prior management and reinstate the Company’s Nevada charter, which had been revoked.

On June 24, 2021, pursuant to a stipulation agreed upon by Alpharidge and the prior management, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of Alpharidge Capital, LLC (the “Order”), as Custodian of the Company. Pursuant to the Order, the Alpharidge Capital, LLC (the “Custodian”) has the authority to take any actions on behalf of the Company, that are reasonable, prudent or for the benefit of pursuant to, including, but

not limited to, issuing shares of stock and issuing new classes of stock, as well as entering in contracts on behalf of the Company. In addition, the Custodian, pursuant to the Order, is required to meet the requirements under the Nevada charter.

On June 25, 2021, pursuant to a Securities Purchase Agreement (SPA) the Custodian granted to Community Economic Development Capital, LLC. (CED Capital), 50 Series A preferred shares (convertible at 1 into 200,000,000 common shares, and voting rights of 60% of all votes) in exchange for \$35,000 which the Company used to fund the reinstatement of the Company with the State of Nevada, settlement of the Stock Transfer Agent's balance. CED Capital also undertook to make all reasonable efforts to provide adequate current public information to meet the requirements under the Securities Act of 1933.

On June 25, 2021, the Custodian appointed Mr. Frank I Igwealor, who is the managing member of Alpharidge Capital, LLC., as the Company's sole officer, secretary, treasurer and director.

The purchaser of the 50 Series A preferred shares has control of the Company through 60% voting rights over all classes of stock and the 50 Series A preferred shares are convertible into 10,000,000,000 (50 Series A preferred shares multiplied by 200,000,000) shares of the Company's common stock. However, the court appointed control still remains with the Custodian until the Custodian files a petition with the District Court of Clark County, Nevada to relinquish custodianship and control of the Company.

Similarly, on June 25, 2021, the Company sold 150 million shares of Common Stock to Mr. Igwealor for \$20,000 that the company used to partly pay for OTCIQ access fees, NV charter reinstatement, and payoff balances owned to the Company's Transfer Agent.

On June 25, 2021, the Company filed a Certificate of Reinstatement with the Secretary State of the State of Nevada, which reinstated the Company's charter and appointed a new Resident Agent in Nevada.

On November 22, 2021, the Custodian pursuant to the requirement of a court order, published an order requiring creditor to show proof of claim. Any creditor that failed to show proof of claim during the stipulated window had forfeited the claims. During the stipulation wind, three creditors, including two previous officers of the company submitted claims. The Company has agreed with the officers to settle their claims by issuing to them an agreed upon number of shares in exchange for their claims. Having resolved the three claims submitted, the company wrote off all previous debt that failed to show proof during the court-ordered window.

On April 8, 2022, Mr. Young Ju Kim, the owner of DNAGO.AI purchased the control block of OCLG, buying from Community Economic Development Capital LLC, the Fifty (50) shares of the Company's Series A Preferred Stock, which represents 100% of the issued and outstanding shares. The Fifty (50) shares of Series A Preferred Stock collectively have super voting rights and each share can be converted into 10,000,000,000 shares of common stock. DNAGO.AI was subsequently merged into OCLG to transform the business of the company and launch the new OCLGTech.com, with focus on "finding new ways to treat and prevent diseases." Since April 8, 2022, the Company has been engaging manufacturers and stakeholders in the industry both in the United States and South Korea to execute agreements with partners, customers, vendors, and manufacturers, reviewing licenses and sublicense agreements with potential licensors, interviewing and hiring employees, and conducting research and due diligence on potential partners, Joint-ventures, and acquisitions in the biotech industry.

Notwithstanding the promises we obtained from our partners as mentioned above, and the potentially promising picture of OCLG going forward, there are no guarantees and the Company is providing NO assurance that it could be successful in executing its business plan building and monetizing the above

mentioned relationships. Even if the Company is successful in monetizing the above mentioned relationships, the Company provides NO assurance that it could raise sufficient capital to finance the the monetization of these relationships. Our business is not currently profitable and it might never become profitable in the future. Our cash and liquid capital are dwindling steadily and we would need to issue stock and dilute current shareholders to be able to finance our ongoing operating expenses.

NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The Company has earned insignificant revenues from limited principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. All intercompany transactions have been eliminated.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has no operations with an accumulated deficit of \$49,395,841 as of November 30, 2022. The Company intends to commence operations as set out below and raise the necessary funds to carry out the aforementioned strategies. The Company cannot be certain that it will be successful in these strategies even with the required funding.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

Financial Instruments

The FASB issued ASC 820-10, Fair Value Measurements and Disclosures, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Concentrations and Credit Risks

The Company's financial instruments that are exposed to concentrations and credit risk primarily consist of its cash, sales and accounts receivable. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Foreign Currency Translation

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Standards No. 52 ("SFAS 52"), "Foreign Currency Translation". The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders' equity at historical exchange rate.

Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are re-measured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue, expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

Share-Based Compensation

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized in the period of grant.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment

transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

As of November 30, 2022 and 2021, respectively, there was \$0.00 of unrecognized expense related to non-vested stock-based compensation arrangements granted. There have been no options granted during the three months ended November 30, 2022 and 2021, respectively.

Income Taxes

The Company accounts for income taxes under ASC 740, Income Taxes. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were offset by a 100% valuation allowance, therefore there has been no recognized benefit As of November 30, 2022 and 2021, respectively. Further it is unlikely with the change of control that the Company will have the ability to realize any future tax benefits that may exist.

Commitments and Contingencies

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Earnings Per Share

Net income (loss) per share is calculated in accordance with ASC 260, Earnings Per Share. The weighted-average number of common shares outstanding during each period is used to compute basic earnings or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at November 30, 2022 and 2021. Due to net operating loss, there is no presentation of dilutive earnings per share, as it would be anti-dilutive.

Forgiveness of Indebtedness

The Company follows the guidance of AS 470.10 related to debt forgiveness and extinguishment. Debts of the Company are considered extinguished when the statute of limitations in the applicable jurisdiction expires or when terminated by judicial authority such as the granting of a declaratory judgment. Debts to related parties or shareholders are treated as capital transactions when forgiven or extinguished and credited to additional paid in capital. Debts to non-related parties are treated as other income when forgiven or extinguished.

Recent Accounting Pronouncements

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. We are still evaluating the impact that this guidance will have on our financial position or results of operations, and we have not yet determined whether we will early adopt FASB ASU No. 2017-12.

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This guidance changes how companies account for certain aspects of share-based payments to employees. Among other things, under the new guidance, companies will no longer record excess tax benefits and certain tax deficiencies in additional paid-in-capital ("APIC"), but will instead record such items as income tax expense or benefit in the income statement, and APIC pools will be eliminated. Companies will apply this guidance prospectively. Another component of the new guidance allows companies to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards, whereby forfeitures can be estimated, as required today, or recognized when they occur. If elected, the change to recognize forfeitures when they occur needs to be adopted using a modified retrospective approach. All of the guidance will be effective for the Company in the fiscal year beginning January 1, 2018. Early adoption is permitted. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of 12 months or less) using a method similar to the current operating lease model. The statements of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. While we are in the early stages of our implementation process for FASB ASU No. 2016-02, and have not yet determined its impact on our financial position or results of operations, these leases would potentially be required to be presented on the balance sheet in accordance with the requirements of FASB ASU No. 2016-02. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. FASB ASU No. 2016-02 must be applied using a modified retrospective approach, which requires recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The guidance requires an entity to measure inventory at the lower of cost or net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation, rather than the lower of cost or market in the previous guidance. This amendment applies to inventory that is measured using first-in, first-out (FIFO). This amendment is effective for public entities for fiscal years beginning after December 15, 2016, including interim periods within those years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In June 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles when it becomes effective. In July 2015, the FASB deferred the effective date of the standard by an additional year; however, it provided companies the option to adopt one year earlier, commensurate with the original effective date. Accordingly, the standard will be effective for the Company in the fiscal year beginning January 1, 2018, with an option to adopt the standard for the fiscal year beginning January 1, 2017. The Company is currently evaluating this standard and has not yet selected a transition method or the effective date on which it plans to adopt the standard, nor has it determined the effect of the standard on its financial statements and related disclosures.

NOTE 4 - INCOME TAXES

Income taxes are provided based upon the liability method. Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the "more likely than not" standard imposed by accounting standards to allow recognition of such an asset.

Deferred tax assets/liabilities were as follows As of November 30, 2022 and 2021:

<u>Description</u>	<u>31- Aug -22</u>	<u>31- Aug -21</u>
Net operating loss carry forward	49,395,841	49,545,841
Valuation allowance	(49,395,841)	(49,545,841)
Total	\$ -	\$ -

As of November 30, 2022, the Company expected no net deferred tax assets to be recognized, resulting from net operating loss carry forwards. Deferred tax assets were offset by a corresponding allowance of 100%.

The Company experienced a change in control during the year, and therefore no more than an insignificant portion of this net operating allowance will ever be used against future taxable income.

As at November 30, 2022, the Company has \$23,624 balance of notes and convertible notes and accrued interests related to the notes. This note was new and obtained from the former custodian of the company.

On November 22, 2021, the Custodian pursuant to the requirement of a court order, published an order requiring creditor to show proof of claim. Any creditor that failed to show proof of claim during the stipulated window had forfeited the claims. During the stipulation wind, three creditors, including two previous officers of the company submitted claims. The Company has agreed with the officers to settle their claims by issuing to them an agreed upon number of shares in exchange for their claims. Having resolved the three claims submitted, the company wrote off all previous debt that failed to show proof during the court-ordered window.

NOTE 7 - COMMITMENTS AND CONTINGENCIES

Risks and Uncertainties

The Company's operations are subject to significant risks and uncertainties including financial, operational and regulatory risks, including the potential risk of business failure.

The Company has entered into no contracts during the year as follows:

Legal and other matters

In the normal course of business, the Company may become a party to litigation matters involving claims against the Company. The Company's management is aware of a garnishment order that was previously served to the Company's Stock Transfer Agents. The Company's attorneys are reviewing the garnishment order to ascertain its implication to the company's financial statements. Aside from the court order discussed above, The Company's management is unaware of any pending or threatened assertions and there are no current matters that would have a material effect on the Company's financial position or results of operations.

NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of filing the consolidated financial statements with OTC Markets, the date the consolidated financial statements were available to be issued. Management is not aware of any significant events that occurred subsequent to the balance sheet date that would have a material effect on the consolidated financial statements thereby requiring adjustment or disclosure, other than those noted below:

None.
