NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

GEMZ Corp. (the “Company”, “we”, “us” or “our”), a Nevada corporation, has a fiscal year end of December 31 and is listed on the OTC Pink Markets under the trading symbol GMZP. The Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual franchise tax from 2008 to 2021 which resulted in its Nevada charter being revoked. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated under the Securities Act of 1933, and was thus subject to revocation by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act. On May 18, 2021, a shareholder filed a petition for custodianship, with the District Court, Clark County, Nevada and was appointed as the custodian of the Company on June 3, 2021. The Company’s Nevada charter was reinstated on June 21, 2021, and all required reports were filed with the State of Nevada soon after. The Company remains inactive as of the date of this report and is currently taking steps to provide adequate current public information to meet the requirements under the Securities Act of 1933. The custodian was not able to recover any of the Company’s accounting records from previous management but was able to get the shareholder information hence the Company’s outstanding common shares were reflected in the equity section of the accompanying unaudited financial statements for three months ended December 31, 2022 and 2021.

The issuer was incorporated in the State of Colorado as Advanced Ceiling Supplies Corp. on August 9, 1995. The issuer completed a reverse merger with United Ventures Group, Inc., a Nevada corporation, on April 7, 2000, and changed its name to United Ventures Group, Inc. United Ventures Group, Inc. was originally incorporated as Travelnet International Corp, in the State of Nevada in May 1996 and changed its name to United Ventures Group, Inc. in October 1998. In October 2000, the issuer amended its Articles of Incorporation to change its name to American Jewelry Corp. In July 2002, the issuer amended its Articles of Incorporation to change its name to MSM Jewelry Corp. In October 2002, the issuer amended its Articles of Incorporation to change its name to GEMZ Corp. in October 2003.

On April 27, 2021, SSM Monopoly Corporation, a shareholder of the Company, served a demand to the Company, at the last address of record, to comply with the Nevada Secretary of State statues N.R.S. 78.710 and N.R.S. 78.150. On May 18, 2021, a petition was filed against the Company in the District Court of Clark County, Nevada, entitled “In the Matter of GEMZ CORP., a Nevada corporation” under case number A-21-834775-C by SSM Monopoly Corporation, along with an Application for Appointment of Custodian, after several attempts to locate prior management and reinstate the Company’s Nevada charter, which had been revoked.

On June 3, 2021, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of SSM Monopoly Corporation LLC (the “Order”), as Custodian of the Company. Pursuant to the Order, the SSM Monopoly Corporation (the “Custodian”) has the authority to take any actions on behalf of the Company, that are reasonable, prudent or for the benefit of pursuant to, including, but not limited to, issuing shares of stock and issuing new classes of stock, as well as entering in contracts on behalf of the Company. In addition, the Custodian, pursuant to the Order, is required to meet the requirements under the Nevada charter.

On June 4, 2021, the Custodian appointed Kareem Mansour as the Company’s sole officer and director.

On June 4, 2021, the court-appointed Custodian issued to itself seven hundred thousand (700,00) shares of Series A Preferred Stock for custodian services. On June 4, 2021, by Unanimous Written Consent of the Board of Directors and a majority vote of the shareholders of the Series A Preferred Stock, the Company authorized a 1 for 2,000,001 reverse stock split of the Company’s Series A Preferred Stock with an effective date of June 4, 2021. No fractional shares were issued, leaving zero (0) shares of Series A Preferred Stock being issued and outstanding.

On June 4, 2021, the Custodian designated one share of preferred stock as Special 2021 Series A Preferred Stock at par value of \$0.001. The Special 2021 Series A Preferred has 60% voting rights over all classes of stock and is convertible into 1,000,000,000 shares of the Company’s common stock.

On June 4, 2021, the Custodian granted to itself, one share of preferred stock, Special 2021 Series A Preferred Stock at par value of \$0.001.

On June 21, 2021, the Company filed a Certificate of Revival with the Secretary State of the State of Nevada, which reinstated the Company's charter under the name Gamma Zed Partners Corp and appointed a new Resident Agent in Nevada. On July 29, 2021, the Company amended its Articles of Incorporation to change its name to Gemz Corp NV. The company is currently a nonoperating holding company.

On May 11, 2022, the custodianship was discharged in Clark County District Court. Upon the discharge, 5,282,630,000 shares were ordered cancelled by the Court Order.

On July 21, 2002, the 5,282,630,000 common shares were cancelled and removed by Pacific Stock Transfer.

NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The Company has not earned any revenues from limited principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. All intercompany transactions have been eliminated.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has no operations with an accumulated deficit of \$72,235,173 as of December 31, 2022. The Company intends to commence operations as set out below and raise the necessary funds to carry out the aforementioned strategies. The Company cannot be certain that it will be successful in these strategies even with the required funding.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

Financial Instruments

The FASB issued ASC 820-10, *Fair Value Measurements and Disclosures*, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Concentrations and Credit Risks

The Company's financial instruments that are exposed to concentrations and credit risk primarily consist of its cash, sales and accounts receivable. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Foreign Currency Translation

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Standards No. 52 ("SFAS 52"), "Foreign Currency Translation". The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders' equity at historical exchange rate.

Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are re-measured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue, expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

Share-Based Compensation

ASC 718, *Compensation – Stock Compensation*, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized in the period of grant.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, *Equity – Based Payments to Non-Employees*. Measurement of share-based payment

(Unaudited)

transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

As of December 31, 2022 and 2021, respectively, there was \$Nil of unrecognized expense related to non-vested stock-based compensation arrangements granted. There have been no options granted during the fiscal years ended December 31, 2022 and 2021, respectively.

Income Taxes

The Company accounts for income taxes under ASC 740, *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were offset by a 100% valuation allowance, therefore there has been no recognized benefit as of December 31, 2022 and 2021, respectively. Further it is unlikely with the change of control that the Company will have the ability to realize any future tax benefits that may exist.

Commitments and Contingencies

The Company follows ASC 450-20, *Loss Contingencies*, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Earnings Per Share

Net income (loss) per share is calculated in accordance with ASC 260, *Earnings Per Share*. The weighted-average number of common shares outstanding during each period is used to compute basic earnings or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding on December 31, 2022 and 2021. Due to net operating loss, there is no presentation of dilutive earnings per share, as it would be anti-dilutive.

Forgiveness of Indebtedness

The Company follows the guidance of AS 470.10 related to debt forgiveness and extinguishment. Debts of the Company are considered extinguished when the statute of limitations in the applicable jurisdiction expires or when terminated by judicial authority such as the granting of a declaratory judgment. Debts to related parties or shareholders are treated as capital transactions when forgiven or extinguished and credited to additional paid in capital. Debts to non-related parties are treated as other income when forgiven or extinguished.

Recent Accounting Pronouncements

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

In August 2017, the FASB issued ASU No. 2017-12, *Derivatives and Hedging (Topic 815)*, which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in

GEMZ CORP.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. We are still evaluating the impact that this guidance will have on our financial position or results of operations, and we have not yet determined whether we will early adopt FASB ASU No. 2017-12.

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This guidance changes how companies account for certain aspects of share-based payments to employees. Among other things, under the new guidance, companies will no longer record excess tax benefits and certain tax deficiencies in additional paid-in-capital ("APIC"), but will instead record such items as income tax expense or benefit in the income statement, and APIC pools will be eliminated. Companies will apply this guidance prospectively. Another component of the new guidance allows companies to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards, whereby forfeitures can be estimated, as required today, or recognized when they occur. If elected, the change to recognize forfeitures when they occur needs to be adopted using a modified retrospective approach. All of the guidance will be effective for the Company in the fiscal year beginning January 1, 2018. Early adoption is permitted. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of 12 months or less) using a method similar to the current operating lease model. The statements of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. While we are in the early stages of our implementation process for FASB ASU No. 2016-02, and have not yet determined its impact on our financial position or results of operations, these leases would potentially be required to be presented on the balance sheet in accordance with the requirements of FASB ASU No. 2016-02. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. FASB ASU No. 2016-02 must be applied using a modified retrospective approach, which requires recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The guidance requires an entity to measure inventory at the lower of cost or net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation, rather than the lower of cost or market in the previous guidance. This amendment applies to inventory that is measured using first-in, first-out (FIFO). This amendment is effective for public entities for fiscal years beginning after December 15, 2016, including interim periods within those years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles when it becomes effective. In July 2015, the FASB deferred the effective date of the standard by an additional year; however, it provided companies the option to adopt one year earlier, commensurate with the original effective date. Accordingly, the standard will be effective for the Company in the

GEMZ CORP.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

fiscal year beginning January 1, 2018, with an option to adopt the standard for the fiscal year beginning January 1, 2017. The Company is currently evaluating this standard and has not yet selected a transition method or the effective date on which it plans to adopt the standard, nor has it determined the effect of the standard on its financial statements and related disclosures.

NOTE 4 - INCOME TAXES

Income taxes are provided based upon the liability method. Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the “more likely than not” standard imposed by accounting standards to allow recognition of such an asset.

Deferred tax assets/liabilities were as follows as of December 30, 2022 and 2021:

<u>Description</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Net operating loss carry forward	\$ (72,235,173)	\$ (72,235,173)
Valuation allowance	<u>(72,235,173)</u>	<u>(72,235,173)</u>
Total	<u>\$ -</u>	<u>\$ -</u>

As of December 31, 2022, the Company expected no net deferred tax assets to be recognized, resulting from net operating loss carry forwards. Deferred tax assets were offset by a corresponding allowance of 100%.

The Company experienced a change in control during the year, and therefore no more than an insignificant portion of this net operating allowance will ever be used against future taxable income.
