Describe any trading suspension orders issued by the SEC concerning the issuer or its predecessors since inception:

On January 20, 2009, the BC Securities Commission of Canada ordered that all trading in the securities of the issuer's predecessor cease in British Columbia until the company filed all required records, financial statements, and related disclosure and the BC Securities Commission Executive Director makes an order revoking the cease trade order.

List any stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization either currently anticipated or that occurred within the past 12 months:

NDT Pharmaceuticals, Inc. (the "Company") was incorporated on May 13, 2005, under the laws of the State of Nevada as "Mistral Ventures, Inc." and changed its name on January 24, 2020, to "NDT Pharmaceuticals, Inc." Prior company mineral operations were abandoned in 2008, the Company was revived with the State of Nevada in September of 2019, and in July of 2020 (with an effective date of January 1, 2020), the Company acquired all rights under a Sponsored Research Agreement with the University of Pennsylvania, including rights to use the University's NPC technology described below from Compelling Competitive Advantage, LLC ("CCA"), a Delaware limited liability company. CCA assigned all its rights, title and interests in CCA's Sponsored Research Agreement with the Trustees of the University of Pennsylvania, and any related trade secrets, technology, know-how, formulations, procedures and/or methodologies (the "Intellectual Property") to the Company.

The Intellectual Property includes a versatile and widely applicable biotechnology asset base, including the Nanoscale Particle Complex ("NPC") technology, which represents the leading edge of phospholipid-based nano-encapsulation delivery systems (less than 100 nanometers in diameter; mean diameter of 40 nanometers in current liquid product samples with the capability to engineer significantly smaller nanocarrier particles) that create instant delivery of payloads into the bloodstream, beginning through the membranes of the mouth. Encapsulated actives are protected from destruction in the highly acidic environment of the stomach until they reach the small intestine, providing for much greater absorption of payloads. The instant delivery aspect (an Oral IV) is designed to provide the consumer with rapid effect upon consumption of the product containing the NPC technology. The NPC technology also incorporates a potent active ingredient that stimulates repair of damaged cell tissue branded by the Company as "Cell Armor."

The Company is now focused on developing products utilizing the Intellectual Property

- B. List any subsidiaries, parent company, or affiliated companies.

NONE

- C. Describe the issuers’ principal products or services.

The Company is focused on developing nutraceutical and pharmaceutical products utilizing the Intellectual Property as described above.

5) Issuer’s Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company has acquired contract and intellectual property rights under a Sponsored Research Agreement with the University of Pennsylvania as described above.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

NDT PHARMACEUTICALS, INC.
Notes To The Unaudited Financial Statements
For The Quarter Ended June 30, 2023

NOTE 1 – ORGANIZATION AND BUSINESS

The Company was incorporated on May 13, 2005, under the laws of the State of Nevada as “Mistral Ventures, Inc.” and changed its name on January 24, 2020, to “NDT Pharmaceuticals, Inc.” Prior company mineral operations were abandoned in 2008, the Company was revived with the State of Nevada in September of 2019, and in July of 2020 (with an effective date of January 1, 2020), the Company acquired all rights under a Sponsored Research Agreement with the University of Pennsylvania, including rights to use the University’s NPC technology described below from Compelling Competitive Advantage, LLC (“CCA”), a Delaware limited liability company. CCA assigned all its rights, title and interests in CCA’s Sponsored Research Agreement with the Trustees of the University of Pennsylvania, and any related trade secrets, technology, know-how, formulations, procedures and/or methodologies (the “Intellectual Property”) to the Company.

The Company has decided to completely focus on developing products utilizing this Intellectual Property.

NOTE 2 – GOING CONCERN

The Company’s financial statements as of June 30, 2023, have been prepared using generally accepted accounting principles in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company have accumulated loss of \$102,014 as of June 30, 2023, and generates income on monthly basis which is sufficient to cover company current limited operations and therefore indicate no such factor that may raise doubt about company ‘ability to continue as a going concern in near future.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and are expressed in US dollars. The Company’s fiscal year-end is December 31.

New Accounting Pronouncements

There were various accounting standards and interpretations issued recently, none of which are expected to have a material impact on our financial position, operations or cash flows.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Due to the limited level of operations, the Company has not had to make material assumptions or estimates other than the assumption that the Company is a going concern.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

ASC 820, “*Fair Value Measurements*”, requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. It establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument’s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. It prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company’s financial instruments consist principally of cash, accounts receivable, accrued and accounts payable. The respective carrying values of these financial instruments approximate their fair values. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of June 30, 2023. Fair values were assumed to approximate carrying values for these financial instruments as either they do not have any active market or are short term in nature and therefore their carrying amounts approximate fair value.

The Company’s Intangible Assets are the Intellectual Property acquired from CCA in 2019. The Intellectual Property includes a versatile and widely applicable biotechnology asset base, including the Nanoscale Particle Complex (“NPC”) technology, which represents the leading edge of phospholipid-based nano-encapsulation delivery systems (less than 100 nanometers in diameter; mean diameter of 40 nanometers in current liquid product samples with the capability to engineer significantly smaller nanocarrier particles) that create instant delivery of payloads into the bloodstream, beginning through the membranes of the mouth.

Encapsulated actives are protected from destruction in the highly acidic environment of the stomach until they reach the small intestine, providing for much greater absorption of payloads. The instant delivery aspect (an Oral IV) is designed to provide the consumer with rapid effect upon consumption of the product containing the NPC technology. The NPC technology also incorporates a potent active ingredient that stimulates repair of damaged cell tissue branded by the Company as “Cell Armor.”

The intellectual property assets had not been placed into service and, therefore, a value could not be determined as of June 30, 2023.

Income Taxes

Income taxes are determined in accordance with the provisions of ASC 740, “Income Taxes” (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater

than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

For the quarter ended June 30, 2023, the Company did not have any interest and penalties associated with tax positions. As of June 30, 2023, the Company did not have any significant unrecognized uncertain tax positions.

Commitments and Contingencies

The Company follows ASC 440 & ASC 450, subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies and commitments respectively. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time, that these matters will have a material adverse effect on the Company's financial position, results of operations or cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

Stock Based Compensation

For purposes of determining the variables used in the calculation of stock compensation expense under the provisions of FASB ASC Topic 505, "Equity" and FASB ASC Topic 718, "Compensation — Stock Compensation," we perform an analysis of current market data and historical company data to calculate an estimate of implied volatility, the expected term of the option and the expected forfeiture rate. With the exception of the expected forfeiture rate, which is not an input, we use these estimates as variables in the Black-Scholes option pricing model. Depending upon the number of stock options granted, any fluctuations in these calculations could have a material effect on the results presented in our statement of operations and other comprehensive income. In addition, any differences between estimated forfeitures and actual forfeitures could also have a material impact on our financial statements. The Company has not issued stock options since its inception.

NOTE 4 – ACCOUNTS RECEIVABLE

From time to time, the Company has paid expenses on the behalf of James Hovis till 2021. The receivable is non-interest bearing, unsecured, and due upon demand. As of June 30, 2023 & December 31, 2022, amount receivable was \$142,325 respectively.

NOTE 6 – COMMON STOCK

The Company had common stock of 117,876,899 shares outstanding as of December 31, 2022 and 2021.

During the quarter ended March 31, 2023, 42,127,450 shares in common stock were issued in exchange of related party debt of \$5,182.

As of June 30, 2023 & December 31, 2022, common stock outstanding was 160,004,349 and 117,876,899 shares respectively.

NOTE 7 – RELATED PARTY TRANSACTIONS

Related party payables are accumulated operating expenses paid by shareholders on behalf of the company. Balances outstanding as of June 30, 2023 & December 31, 2022 were \$26,826 and \$14,907 respectively.

During the quarter ended March 31, 2023, 42,127,450 common stock was issued in exchange of debt to related party of \$5,182.

NOTE 8 - SUBSEQUENT EVENTS

The Company has evaluated other subsequent events till the date these financial statements were issued and has determined that there are no items to disclose.
