ITEM 4. ISSUER'S BUSINESS, PRODUCTS AND SERVICES.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Herborium Group, Inc. is a developer, licensor and marketer of herbal ingredient-based medicines and wellness products poised to take advantage of the sustained shift in the healthcare industry. The Company's business model s designed to capitalize on a global \$500 Billion natural medicines and wellness market opportunities spearheaded by regulatory, market, and technological trends. A unique blend of management expertise, a proprietary portfolio of Botanical Therapeutics®, and proven market development strategies, position Herborium ideally to take advantage of this rapidly growing market sector located between high-cost, high-risk, ethical pharmaceuticals and commoditized classic nutraceuticals. This exponentially growing global market is supported by recent changes in FDA's regulatory approach (FDA 2004 and 2016 Guidance For Industry Botanic Drugs Products), and driven by the erosion of consumer trust related to safety problems associated with ethical pharmaceuticals such as Fosamax, Avandia, Vioxx, HRT and Fen-Fen and non-standardized and often poorly tested classic supplements. Growing healthcare and wellness economic challenges serve as an additional driver for this new rising market sector as botanical therapeutics and botanical drugs and wellness products can be developed faster and less expensively than traditional pharmaceuticals, yet still provide proven efficacy and safety often lacking by non-regulated supplements. This market is expected to grow 35-140% till 2025.

Over the past 3 years Herborium has been fine-tuning its business model based on the development and strengthening of the following core competencies:

- a. Development of a strong pipeline based upon identifying botanical-based treatment and wellness candidates, validated by standard Western medical efficacy and safety data and supported unsatisfied market needs.
- b. Navigation and exploitation of the changing worldwide regulatory environment.
- c. Implementation of world-class and innovative marketing programs including brand building efforts with initial revenues generated with minimal resources.

These core competencies represent the source of the Company's sustainable competitive advantage. They are underpinned by access to a team of Western-trained clinical researchers with a proven track record of medicinal and wellness products development and testing, more than 30 years of experience in qualifying regulatory expertise in the USA and Europe, experts in strategic marketing and global business development i and solid strategy to access the top, novel botanical formulations and R&D know-how.

Unlike other high risk healthcare and wellness start-ups based on new technology or product concepts, Herborium brings the advantage of a new approach to risk mitigation based on prescreening and qualification of product candidates, providing initial clinical validation with an active marketing strategy that has been optimized through years of development

B. Please list any subsidiaries, parents, or affiliated companies.

Subsidiaries:

NONE

C. Describe the issuers' principal products or services.

Herborium's flagship product, AcnEase® is an herbal, oral treatment clinically proven to achieve 85-95%efficacy in patients with acne or rosacea. The company currently serves clients worldwide. With a proper support potential sales are estimated to reach an excess of \$18 million per annum and grow exponentially. Preparing for the further exponential growth of the AcnEase® market Herborium has invested prudently in building its brand, and development of manufacturing and sale capabilities to support further expansion.

Herborium is presently developing a series of the AI based content products related to dermatological and beauty space to transition from commerce to a content and commerce company in this growing space.

In addition to AcnEase®, Herborium has secured a pipeline of product candidates with combined sales potential of over \$53 Million within next 24 months. The products include protein skin bar and adjunct cutting age skincare products based on stem cell technology.

Herborium is also ready for commercialization of new products line of natural sexual health and performance enhancing products for men and women. This sector represents over \$1.5 billion market potential as estimated by USA Today, Sexual Health Issue: "Healthy Relationships". Natural sexual enhancement market has grown to over \$3 billion by 2020 as consumers opt for healthy life style improvement options.

Herborium owns all formulations for its proprietary products. Products formulas are protected by IP with USTrademark and Patent Office and trade secret strategies.

ITEM 5. ISSUER'S FACILITIES

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Issuer is currently located at 14090 Southwest Freeway, Suite 300, Sugar Land, TX 77478. Herborium uses a contract manufacturing in Arizona, Florida and in Canada to manufacture its products. All the contract manufacturers comply with FDA requirements and cGMP standards; all Herborium's formulations are protected by IP and trade secrets. For research and product development, in addition to using internal expertise, Herborium collaborates with UK research labs associated with Oxford University.

Herborium's IP ownership is quite extensive and includes 100% owned 45 registered trademarks, tradenames, URLs as well as number of excusive publishing rights and two provisional patents.

ITEM 6. OFFICERS, DIRECTORS AND CONTROL PERSONS

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% of more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.

Name of All Officer, Director or Control Person	Affiliation with Company (e.g. Officer Title /Director/Owner of more than 5%)	Residential Address (City / State Only)	Number of shares owned	Share type/class	Ownership Percentage of Class Outstanding	Names of control person(s) if a Corporation entitiy
Agnes P. Olszewski	CEO, Director	Houston, TX	1,570,295	Common	0.015%

James P. Gilligan	<u>Advisor</u>	Melville, NJ	1,600,000	Preferred A	<u>40%</u>	

ITEM 7. LEGAL/DISCIPLINARY HISTORY

- A. Please identify whether any of the persons or entities listed above have, in the past 10 years, been the subject of:
 - 1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

None

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

None

3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding, or judgment has not been reversed, suspended, or vacated; or

None

4. The entry of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

None

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

None

ITEM 8. THIRD PARTY SERVICE PROVIDERS

NOTE 1- NATURE OF OPERATIONS

Herborium, Inc., (the "Company") provides unique, natural and complementary healthcare related products to consumers and healthcare professionals seeking alternative answers to the management of healthcare issues not currently met by standard Western medicine. Its products are botanical supplements comprised of unique herbal formulations, referred to as botanical therapeutics, that have a record of clinical efficacy and safety established in China; however, these products have not been evaluated according to standards of clinical efficacy and safety applicable to pharmaceutical products sold in the United States and other countries, and because these products are herbal-based, they are not recognized as pharmaceuticals by the Food and Drug Administration (the "FDA"). The Company's business model is based on (i) owning and/or marketing unique products with established clinical history in their country of origin, and (ii) a proactive approach to meeting the regulatory changes and challenges of the new healthcare marketplace. Historically, substantially all of the Company's revenue has been derived from the sale of AcnEase through its corporate website.

Herborium, Inc., was incorporated in the State of Delaware on June 4, 2002, and was the surviving entity following a merger of G.O. International, Inc., a New Jersey corporation, with and into the Company effective June 6, 2002. On September 18, 2006, the Company was acquired by Pacific Magtron International Corporation, Inc. ("PMIC"), a publicly traded Nevada Corporation, pursuant to a Merger Agreement and PMIC's plan of reorganization in bankruptcy. The transaction was accomplished by the merger of a PMIC subsidiary into the Company, with the Company as the surviving corporation (the "Merger"). Under the provisions of the Merger Agreement and the plan of reorganization, the stockholders of the Company exchanged 100% of their common stock of the Company for 85% of the post-Merger PMIC common stock.

The Company's merger with PMIC was treated as a recapitalization with no purchase price allocation. In connection with the merger, PMIC changed its name to Herborium Group, Inc. and adopted the fiscal year of Herborium Group, Inc., which is November 30.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GOING CONCERN

For the periods ended August 31, 2023, and 2022, the Company had net income of \$6,903 and \$23,000 and cash flows from operating activities of \$268,550 and \$205,700, respectively. As of August 31, 2023, the Company had a working capital deficit of \$3,696,993. The Company has generated \$839,900 and \$835,000 in revenues for the periods ended August 31, 2023, and 2022, respectively.

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenue sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan to obtain such resources for the Company includes obtaining capital from management and significant stockholders sufficient to meet its minimal operating expenses. However, management cannot provide any assurance that the Company will be successful in accomplishing any of its plans.

There is no assurance that the Company will be able to obtain sufficient additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to the Company. In addition, profitability will ultimately depend upon the level of revenues received from business operations. However, there is no assurance that the Company will attain profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

BASIS OF PRESENTATION AND USE OF ESTIMATES

The Company prepares its financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATION OF PRIOR PERIOD PRESENTATION

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

FISCAL YEAR END

The Company elected November 30, as its fiscal year ending date.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of Nine months or less at the date of acquisition to be cash equivalents. Cash and cash equivalents at August 31, 2023 and November 30, 2022 were \$11,050 and \$13,500, respectively.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible. The Company believes that all accounts receivable are collectable as of August 31, 2023.

CASH FLOWS REPORTING

The Company follows ASC 230, Statement of Cash Flows, for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230, Statement of Cash Flows, to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period.

RELATED PARTIES

The Company follows ASC 850, *Related Party Disclosures*, for the identification of related parties and disclosure of related party transactions. Related party transactions for the periods ended August 31, 2023, and November 30, 2022 totaled \$25,000 and \$10,000, respectively, and consisted of cash advanced for operations.

REVENUE RECOGNITION

Effective January 1, 2018, the Company adopted Accounting Standards Codification ("ASC") 606, Revenue From Contracts With Customers, which is effective for public business entities with annual reporting periods beginning after December 15, 2017. This new revenue recognition standard (new guidance) has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied. The Company's initial application of ASC 606 did not have a material impact on its financial statements and disclosures and there was no cumulative effect of the adoption of ASC 606.

Revenue is recognized when all of the following criteria are met:

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

• *Identification of the contract, or contracts, with a customer*

A contract with a customer exists when (i) we enter into an enforceable contract with a customer that defines each party's rights regarding the goods or services to be transferred and identifies the payment terms related to these goods or services, (ii) the contract has commercial substance and the parties are committed to perform, and (iii) we determine that collection of substantially all consideration to which it will be entitled in exchange for goods or services that will be transferred is probable based on the customer's intent and ability to pay the promised consideration.

• *Identification of the performance obligations in the contract*

Performance obligations promised in a contract are identified based on the goods or services that will be transferred to the customer that are both capable of being distinct, whereby the customer can benefit from the goods or service either on its own or together with other resources that are readily available from third parties or from us, and are distinct in the context of the contract, whereby the transfer of the goods or services is separately identifiable from other promises in the contract. To the extent a contract includes multiple promised goods or services, we apply judgment to determine whether promised goods or services are capable of being distinct and distinct in the context of the contract. If these criteria are not met the promised goods or services are accounted for as a combined performance obligation.

• Determination of the transaction price

The transaction price is determined based on the consideration to which we will be entitled in exchange for transferring goods or services to the customer. Constraints are applied when estimating variable considerations based on historical experience where applicable.

- Allocation of the transaction price to the performance obligations in the contract

 All current contracts are of a single performance obligation thus the entire transaction price is allocated to the single performance obligation. We determine standalone selling price taking into account available information such as historical selling prices of the performance obligation, geographic location, overall strategic objective, market conditions and internally approved pricing guidelines related to the performance
- Recognition of revenue when, or as, we satisfy performance obligation

 We satisfy performance obligations either over time or at a point in time as discussed in further detail below. Revenue is recognized at or over the time the related performance obligation is satisfied by transferring a promised good or service to a customer.

Revenue for the nine months ended August 31, 2023, and 2022 were \$839,900 and \$835,000 respectively. The performance obligation has been met as per ASC 606.

FINANCIAL INSTRUMENTS

obligation.

The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, Fair Value Measurements and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of August 31, 2023. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

DERIVATIVE LIABILITIES

Derivative liabilities include the fair value of instruments such as common stock warrants, preferred stock warrants and convertible features of notes, that are initially recorded at fair value and are required to be re-measured to fair value at each reporting period under provisions of ASC 480, *Distinguishing Liabilities from Equity*, or ASC 815, *Derivatives and Hedging*. The change in fair value of the instruments is recognized as a component of other income (expense) in the Company's statements of operations until the instruments settle, expire or are no longer classified as derivative liabilities. The Company estimates the fair value of these instruments using the Black-Scholes pricing model. The significant assumptions used in estimating the fair value include the exercise price, volatility of the stock underlying the instrument, risk-free interest rate, estimated fair value of the stock underlying the instrument and the estimated life of the instrument. At August 31, 2023 and November 30, 2022, the Company had \$0 and \$0 derivative liability, respectively.

CONCENTRATIONS OF CREDIT RISK AND SIGNIFICANT CUSTOMERS

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company limits its exposure to credit loss by placing its cash and cash equivalents with high credit-quality financial institutions in bank deposits, money market funds, U.S. government securities and other investment grade debt securities that have strong credit ratings. The Company has established guidelines relative to diversification of its cash and marketable securities and their maturities that are intended to secure safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates and changes in the Company's operations and financial position. Although the Company may deposit its cash and cash equivalents with multiple financial institutions, its deposits, at times, may exceed federally insured limits.

INTANGIBLE ASSETS

The Company has applied the provisions of ASC topic 350 – Intangible – goodwill and other, in accounting for its intangible assets. Intangible assets are being amortized on a straight-line method on the basis of a useful life of 5 to 17 years. The balance at August 31, 2023 and November 30, 2022 was \$128,450 and \$126,600, respectively.

		August 31, 2023		November 30, 2022
Intellectual property	\$	248,000	\$	248,000

Total	_	327,450	'-	325,600
Less: Accumulated amortization and impairment	_	199,000	-	199,000
Total Intangible Property	\$	128,450	\$	126,600

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews and evaluates long-lived assets for impairment when events or changes in circumstances indicate that the related carrying amounts may not be recoverable. The assets are subject to impairment consideration under FASB ASC 360-10-35-17 if events or circumstances indicate that their carrying amount might not be recoverable. When the Company determines that an impairment analysis should be done, the analysis will be performed using the rules of FASB ASC 930-360-35, Asset Impairment, and 360-0 through 15-5, Impairment or Disposal of Long- Lived Assets.

INCOME TAXES

The Company accounts for income taxes in accordance with ASC 740, Accounting for Income Taxes, as clarified by ASC 740-10, Accounting for Uncertainty in Income Taxes. Under this method, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities and net operating loss and tax credit carryforwards given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, the Company considers tax regulations of the jurisdictions in which the Company operates, estimates of future taxable income, and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies vary, adjustments to the carrying value of deferred tax assets and liabilities may be required. Valuation allowances are recorded related to deferred tax assets based on the "more likely than not" criteria of ASC 740.

ASC 740-10 requires that the Company recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the "more-likely-than-not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

The Company recognizes expenses for tax penalties and interest assessed by the Internal Revenue Service and other taxing authorities upon receiving valid notice of assessments. The Company has received no such notices as of August 31, 2023.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences will become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. The Company has recorded a full valuation allowance against its net deferred tax assets because it is not currently able to conclude that it is more likely than not that these assets will be realized. The amount of deferred tax assets considered to be realizable could be increased in the near term if estimates of future taxable income during the carryforward period are increased.

As of August 31, 2023, the Company had unused net operating loss carry forwards of \$244,000 available to reduce federal taxable income. The Company's ability to offset future taxable income, if any, with tax net operating loss carryforwards may be limited due to the non-filing of tax returns. Under the CARES act, net operating losses arising after 2017 are able to be carried forward indefinitely. Furthermore, changes in ownership may result in limitations under Internal Revenue Code Section 382.

NET INCOME (LOSS) PER COMMON SHARE

Net income (loss) per share is calculated in accordance with FASB ASC 260, "Earnings Per Share." The weighted-average number of common shares outstanding during each year is used to compute basic earning or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at August 31, 2023 and at November 30, 2022. At August 31, 2023 and November 30, 2022, the Company had no dilutive potential common shares.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

SHARE-BASED EXPENSE

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the consolidated financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

Share-based expense was \$0 for the period ending August 31, 2023, and \$45,000 for the period ending August 31, 2022.

COMMITMENTS AND CONTINGENCIES

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated. There were no known commitments or contingencies as of August 31, 2023 and November 30, 2022.

RECENT ACCOUNTING PRONOUNCEMENTS

The Company has reviewed the FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

In May 2021, the FASB issued ASU 2021-04, Earnings Per Share (Topic 260), Debt-Modifications and Extinguishments (Subtopic 470-50), Compensation-Stock Compensation (Topic 718), and Derivatives and Hedging-Contracts in Entity's Own Equity (Subtopic 815-40). The new ASU addresses issuer's accounting for certain modifications or exchanges of freestanding equity-classified written call options. This amendment is effective for all entities, for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact this new guidance will have on its financial statements.

NOTE 3: INVENTORIES

All inventories are stated at the lower of cost or net realizable value. Cost of our inventories is determined by costing methods that approximate a first-in, first-out ("FIFO") basis. Inventories are as follows:

	 August 31, 2023	N	November 30, 2022		
Finished products	\$ 16,200	\$	22,000		
Total inventories	\$ 16,200	\$	22,000		

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDING AUGUST 31, 2023 (Unaudited)

NOTE 4 – INTANGIBLE PROPERTY

		August 31, 2023	November 30, 2022
Intellectual property	\$	248,000	\$ 248,000
Deferred consulting fees		20,000	20,000
Trademarks		56,450	54,600
Other		3,000	3,000
Total	_	327,450	325,600
Less: Accumulated amortization and impairment		199,000	199,000
Total Intangible Property	\$	128,450	\$ 126,600

The Company recorded the property and intangibles as an intangible asset. The valuation of the properties was booked at Fair Market Value.

NOTE 5 – CONVERTIBLE NOTES PAYABLE

The following table represents the convertible notes payable at August 31, 2023 and November 30, 2022:

Amount 21	Marramhan
