The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The holders of our common stock are entitled to one vote per share on all matters submitted to a vote of the shareholders, including the election of directors. Generally, all matters to be voted on by shareholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by all shares of our common stock that are present in person or represented by proxy. Except as otherwise provided by law, amendments to our Certificate of Incorporation generally must be approved by a majority of the votes entitled to be cast by all outstanding shares of our common stock. Our Certificate of Incorporation does not provide for cumulative voting in the election of directors. Holders of our common stock will be entitled to such cash dividends as may be declared from time to time by the Board from funds available. Holders of our common stock have no preemptive rights to purchase shares of our common stock. The issued and outstanding shares of our common stock are not subject to any redemption provisions and are not convertible into any other shares of our capital stock. Upon our liquidation, dissolution or winding up, the holders of our common stock will be entitled to receive pro rata all assets available for distribution to such holders. We have never declared or paid any cash dividends on our common stock.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or Sinking fund provisions.

Series A Preferred Stock. Series A Preferred Stockholders participate with the common stockholders in dividends as if each share of Series A Preferred Stock was converted into 1 share of common stock prior to the declaration of a dividend. Series A Preferred Stock has a liquidation preference equal to the stated value of the multiplied by the number of Series A Preferred Stock preferred stock owned by the holder. Series A Preferred Stockholders have the same voting rights as common stockholders. Series A Preferred Stockholders will vote as a class whose vote shall be equal to 110% of the total number of shares of common stock then entitled to vote. Series A Preferred Stock has conversion rights to convert into 1 share of common stock, at the holder's option.

Series B Preferred Stock. Series B Preferred Stockholders participate with the common stockholders in dividends as if each share of Series A Preferred Stock was converted into 50,000 shares of common stock prior to the declaration of a dividend. Each share of Series B Preferred Stock is convertible into 50,000 shares of common stock at the option of the holder. Upon liquidation, each Series B Preferred Stockholder is entitled to receive the same amount per share as a holder of the Series A Preferred Stock.

3. Describe any other material rights of common or preferred stockholders.

None.

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

There have been no material modifications to rights of holders of the Company's securities that occurred over the reporting period covered by this report.

Metatron Inc.
Notes to Unaudited Condensed Financial Statements
Three and Nine Months Ended September 30, 2023 and 2022

1. Organization and Basis of Presentation

Organization and Combination

Metatron Inc. ("Metatron" or the "Company") was incorporated in the State of Delaware on November 17, 2000. Metatron maintains its principal executive offices in Dover, Delaware, United States.

Basis of Presentation

The Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") and the rules and regulations of OTC Markets, Inc. ("OTC").

Business Operations

The Company is a development stage company targeting acquisition opportunities with recurring revenue streams to maximize shareholder value.

Going Concern

The Company's financial statements have been presented on the basis that the Company is a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As reflected in the accompanying financial statements, has had limited operating revenues, and has had no operating cash flows. During the nine months ended September 30, 2023, the Company had a net loss of \$141,151 (unaudited) and had an accumulated deficit of \$8,295,447 (unaudited) as of September 30, 2023.

As a result, management has concluded that there is substantial doubt about the Company's ability to continue as a going concern within one year of the date that the accompanying financial statements are issued. The ability of the Company to continue as a going concern is dependent upon the Company's ability to raise additional funds and implement its business plan, and to ultimately achieve sustainable operating revenues and profitability. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

If cash resources are insufficient to satisfy the Company's ongoing cash requirements, the Company would be required to obtain funds, if available, although there can be no certainty, from its shareholders or officers.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates. Significant estimates are expected to include those related to assumptions used in calculating accruals for potential liabilities, valuing equity instruments issued for services, and the realization of deferred tax assets.

Income Taxes

The Company accounts for income taxes under an asset and liability approach for financial accounting and reporting for income taxes. Accordingly, the Company recognizes deferred tax assets and liabilities for the expected impact of differences between the financial statements and the tax basis of assets and liabilities.

The Company records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. In the event the Company was to determine that it would be able to realize its deferred tax assets in the future in excess of its recorded amount, an adjustment to the deferred tax assets would be credited to operations in the period such determination was made. Alternatively, should the Company determine that it would not be able to realize all or part of its deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to operations in the period such determination was made.

The Company is subject to U.S. federal income taxes and franchise taxes of the State of Delaware. The Company's operations during the nine months ended September 30, 2023 and 2022, were nominal.

As the Company's net operating losses in the respective jurisdictions in which it operates have yet to be utilized, all previous tax years remain open to examination by the taxing authorities in which the Company currently operates. The Company had no unrecognized tax benefits as of September 30, 2023, and December 31, 2022 and does not anticipate any material amount of unrecognized tax benefits within the next 3 months.

The Company accounts for uncertainties in income tax law under a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns as prescribed by GAAP. The tax effects of a position are recognized only if it is "more-likely-than-not" to be sustained by the taxing authority as of the reporting date. If the tax position is not considered "more-likely-than-not" to be sustained, then no benefits of the position are recognized. As of September 30, 2023 and 2022, the Company had not recorded any liability for uncertain tax positions. In subsequent periods, any interest and penalties related to uncertain tax positions will be recognized as a component of income tax expense.

Stock-Based Compensation

The Company issues common stock and intends to issue stock options to officers, directors and consultants for services rendered. Options will vest and expire according to terms established at the issuance date of each grant. Stock grants, which are generally time vested, will be measured at the grant date fair value and charged to operations ratably over the vesting period.

The fair value of stock options granted as stock-based compensation will be determined utilizing the Black-Scholes option-pricing model, and can be affected by several variables, the most significant of which are the life of the equity award, the exercise price of the stock option as compared to the fair market value of the common stock on the grant date, and the estimated volatility of the common stock. Estimated volatility will be based on the historical volatility of the Company's common stock over an appropriate calculation period, or, if not available, by reference to the volatility of a representative sample of comparable public companies. The risk-free interest rate will be based on the U.S. Treasury yield curve in effect at the time of grant. The fair market value of the common stock will be determined by reference to the quoted market price of the Company's common stock on the grant date, or, if not available, by reference to an appropriate alternative valuation methodology.

The Company will recognize the fair value of stock-based compensation awards in general and administrative costs or in software development costs, as appropriate, in the Company's consolidated statements of operations. The Company will issue new shares of common stock to satisfy stock option exercises. As of September 30, 2023, the Company did not have any outstanding stock options.

Earnings (Loss) Per Share

The Company's computation of earnings (loss) per share ("EPS") includes basic and diluted EPS. Basic EPS is measured as the income (loss) attributable to common stockholders divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible notes payable, convertible preferred stock, warrants and stock options) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the respective periods. Basic and diluted loss per common share is the same for all periods presented because there is no convertible debt, convertible preferred stock, warrants or stock options outstanding.

Fair Value of Financial Instruments

The authoritative guidance with respect to fair value established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels and requires that assets and liabilities carried at fair value be classified and disclosed in one of three categories, as presented below. Disclosure as to transfers in and out of Levels 1 and 2, and activity in Level 3 fair value measurements, is also required.

Level 1. Observable inputs such as quoted prices in active markets for an identical asset or liability that the Company has the ability to access as of the measurement date. Financial assets and liabilities utilizing Level 1 inputs include active-exchange traded securities and exchange-based derivatives.

Level 2. Inputs, other than quoted prices included within Level 1, which are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, mutual funds, and fair-value hedges.

Level 3. Unobservable inputs in which there is little or no market data for the asset or liability which requires the reporting entity to develop its own assumptions. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds and are measured using present value pricing models.

The Company will determine the level in the fair value hierarchy within which each fair value measurement falls in its entirety, based on the lowest level input that is significant to the fair value measurement in its entirety. In determining the appropriate levels, the Company will perform an analysis of the assets and liabilities at each reporting period end. The carrying value of financial instruments (consisting of cash and accounts payable and accrued expenses) is considered to be representative of their respective fair values due to the short-term nature of those instruments.

Property and Equipment

Property and equipment is recorded at cost. Major improvements are capitalized, while maintenance and repairs that do not improve or extend the useful life of the respective assets are charged to expense as incurred. Gains and losses from disposition of property and equipment are included in income and expense when realized. Depreciation of property and equipment is provided using the straight-line method over an estimated useful life of three years.

The Company recognizes depreciation of property and equipment in general and administrative costs in the Company's consolidated statement of operations.

Leases

Effective January 1, 2019, the Company adopted Accounting Standards Update 2016-02, Leases (Topic 842) ("ASU 2016-02"), which requires a lessee to record a right-of-use asset and a corresponding lease liability at the inception of the lease initially measured at the present value of the lease payments. ASU 2016-02 requires recognition in the statement of operations of a single lease cost that is calculated as a total cost of the lease allocated over the lease term, generally on a straight-line basis. The Company did not have any leases within the scope of ASU 2016-02 at September 30, 2023 and December 31, 2022.

Recent Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ("ASU 2016-13"). ASU 2016-13 significantly changes how entities measure credit losses for most financial assets, including accounts and notes receivables. ASU 2016-13 will replace the current "incurred loss" approach with an "expected loss" model, under which companies will recognize allowances based on expected rather than incurred losses. Entities will apply the provisions of ASU 2016-13 as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which ASU 2016-13 is effective. As a small business filer, ASU 2016-13 will be effective for the Company for interim and Quarterly reporting periods beginning after December 15, 2022. Management is currently in the process of assessing the impact of adopting ASU-2016-13 on the Company's financial statements and related disclosures.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, and the American Institute of Certified Public Accountants, did not or are not believed by management to have a material impact on the Company's present or future financial statements and related disclosures.
