GREENE CONCEPTS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
OCTOBER 31, 2023
(UNAUDITED)

NOTE 1 – ORGANIZATION AND OPERATIONS

Greene Concepts, Inc. is headquartered in the City of Fresno, California and has been in service for fifty-eight years. The Company manufactured and distributed a line of 25 high quality consumer focused inkjet kits. The Company has recently divested itself of these operations and have acquired a facility that will be focused on production of a variety of beverage product lines including, but not limited to CBD infused beverages, spring and artesian water, as well as enhanced athletic drinks in addition to other product offerings. The Company has prepared these financial statements on the accrual basis of accounting.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Greene Concepts, Inc. (the Company) is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for the integrity and objectivity of the financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of financial statements.

B. BASIS OF ACCOUNTING

The Company utilizes the accrual method of accounting, whereby revenue is recognized when earned and expenses when incurred. The unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. As such, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and these adjustments are of a normal recurring nature.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

D. CASH AND CASH EQUIVALENTS Cash and cash equivalents include cash on hand; cash in banks and any highly liquid investments with a maturity of three months or less at the time of purchase. The Company maintains cash and cash equivalent balances at several financial institutions, which are insured by the Federal Deposit Insurance Corporation for up to \$250,000.

E. FIXED ASSETS Fixed assets are carried at cost. Depreciation is computed using the straight-line method of depreciation over the assets estimated useful lives. Maintenance and repairs are charged to expense as incurred; major renewals and improvements are capitalized. When items of fixed assets are sold or retired, the related cost and accumulated depreciation is removed from the accounts and any gain or loss is included in the income. In February 2019 the Company acquired Mammoth Ventures Inc. which included all assets owned by Mammoth including the Marion, North Carolina facility and all bottling equipment and other assets formerly known as the North Cove Springs Bottling and Beverage from BNL Capital LLC

F. COMPUTATION OF EARNINGS PER SHARE

Net income per share is computed by dividing the net income by the weighted average number of common shares outstanding during the period.

F. INCOME TAXES

In February 1992, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards 109 of "Accounting for Income Taxes." Under Statement 109, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

NOTE 4 – BUSINESS DEVELOPMENTS DURING FISCAL 2023

Increased Retail Locations and Marketing

Greene Concepts, Inc. (GCI) continues its year of exponential growth through 2023 and experienced even more significant retail expansion along with revenue increase. This includes growth to 105 Amazon Fulfillment Centers throughout the U.S. (up from 55 which represents 95% of all U.S. – based Amazon Fulfillment Centers), approval to sell its flagship Be Water through Walmart Marketplace (online webspace) and receiving approval from Walmart to sell Be Water within Walmart’s brick-and-mortar retail locations. This results in greater speed, expediency, and consistency of BE WATER availability and delivery across the U.S.

The Company received the approval after showcasing the brand at Walmart’s corporate headquarters in Bentonville, Arkansas during the October 24 and 25, 2023 Walmart Open Call event. The approval to sell at Walmart comes after the giant retailer selected Greene Concepts as a supplier out of thousands of applicants. GCI announced its present growth to nearly 2,000 retailers nationwide which does not yet include upcoming Walmart distribution. This significant event is expected to increase revenue and the retail store counts significantly in 2024.

The growing list of retailers carrying GCI brands include: Walmart, Walmart Marketplace, Camping World, Lowes, Vitamin Outlet, Bashas, Amazon, Piggly Wiggly and others, and its market penetration and sales volume continues to rise.

Increased Marketing

The company continues its marketing efforts by advertising in BevNET’s 2023 Annual Natural Beverage Guide to coincide with its NASCAR advertisement during NASCAR’s 2023 season. In addition, GCI’s brand ambassador, Pancho Alvarez, continues to effectively promote the Be Water brand regionally within 75 miles of the Company’s bottling plant and also on a national level through social media platforms.

Company Expansion and Product Line Increase

Simultaneously, the Company is in the planning stages of expanding its bottling plant by 20,000 square feet to 80,000 square feet to serve national accounts along with white label manufacturing. These growth initiatives include the installation of a high-speed line and also the Company’s ability to blow its own bottles which will bring down the cost of goods considerably thereby providing a higher profit margin for GCI.

To support the increased production, GCI is in the process of hiring additional plant personnel to meet the increased demand and growing its distribution channels while scaling down costs and maximizing new opportunities.

GCI continues to produce and distribute 24-pack and 6-pack Be Water configurations with gallon-size production due out shortly to meet the needs of national accounts and expanded customer reach.
