BIG SCREEN ENTERTAINMENT GROUP AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - BUSINESS ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Big Screen Entertainment Group (“Company”) or (“BSEG”) was incorporated under the laws of the state of Nevada. The Company produces and distributes feature films and video games.

Revenue Recognition.

The Company determines revenue recognition pursuant to Accounting Standards Codification (“ASC”) 606, Revenue from Contracts with Customers, through the following steps:

1. Identification of the contract, or contracts, with a customer.
2. Identification of the performance obligation(s) in the contract.
3. Determination of the transaction price.
4. Allocation of the transaction to the performance obligation(s) in the contract.
5. Recognition of revenue when, or as the Company satisfies a performance obligation.

Royalty income from film contracts is derived from the sale of DVDs or from the licensing of film rights to third parties. A significant portion of royalty income is paid to the Company based on the timetable associated with royalty statements generated by third-party processors and is not typically known by the Company on a timely basis. Consequently, this revenue is not recognized until the amount is either known or reasonably estimable or until receipt of the statements from the third parties. The Company contracts with various agencies to facilitate collection of royalty income. When the Company is entitled to royalties based on gross receipts, revenue is recognized before deduction of agency fees, which are included as a component of cost of revenue.

Film and Gaming Costs. Investment in film and gaming costs includes the capitalization of costs incurred to produce the film content including direct negative costs, production overhead, interest, and development. These costs are recognized as operating expenses on an individual film basis in the ratio that the current year's gross revenues bear to management's estimate of total ultimate gross revenues from all sources to be earned over a seven-year period. Capitalized production costs are stated at the lower of unamortized cost or estimated fair value on an individual film basis. Revenue forecasts, based primarily on historical sales statistics, are continually reviewed by management, and revised when warranted by changing conditions. When estimates of total revenues and other events or changes in circumstances indicate that a film has a fair value that is less than its unamortized cost, an impairment loss is recognized in the current period for the amount by which the unamortized cost exceeds the film's fair value.

Basis of Presentation. The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP” or “GAAP”). In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at December 31, 2023, and for all periods presented herein, have been made.

Basis of Consolidation. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates and Assumptions. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentrations. Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and cash equivalents and accounts receivable. Account receivables are typically unsecured and are derived from revenues earned from customers located in the United States.

Recent Accounting Pronouncements. The Company has reviewed recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its results of operations, financial position or cash flows. Based on that review, the Company believes that none of these pronouncements will have a significant effect on its financial statements.

Cash and Cash Equivalents. For the purpose of reporting cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Income Taxes.

The Company accounts for income taxes pursuant to ASC 740, *Income Taxes*. Under ASC 740, deferred income taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The provision for income taxes represents the tax expense for the period, if any, and the change during the period in deferred tax assets and liabilities. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

ASC 740 also provides criteria for the recognition, measurement, presentation, and disclosure of uncertain tax positions. Under ASC 740, the impact of an uncertain tax position on the income tax return may only be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority.
