Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Shareholders of the Company's common stock (the "Common Stock") have the right to one vote per share and the right to receive dividends if the board of directors authorizes dividends.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

The Company has authorized 10,000,000 shares of preferred stock, of which 1,000,000 shares have been designated as Series A Preferred Stock, par value \$0.001 ("the Series A Preferred Stock"); 1,100,000 shares have been designated as Series C Preferred Stock, par value \$0.001 ("the Series C Preferred Stock"); and 7,900,000 shares undesignated preferred stock, par value \$0.001.

The powers, preferences, qualifications, limitations or restrictions, and relative rights of the Series A Preferred Stock are as follows:

The Series A Preferred Stock shall not be convertible into Common Stock of the Company. The outstanding shares of Series A Preferred Stock shall be entitled to the number of votes, collectively, which shall be equal to 70% of the total number of votes that may be cast (including the votes of the issued and outstanding Common Stock as well as any voting preferred stock) at the time of such vote, at each meeting (or by written consent) of shareholders of the Company for their action or consideration, including the election of directors. The Company shall not amend, alter or repeal the Series A Preferred Stock, special rights or other powers of the Series A Preferred Stock so as to affect adversely the Series A Preferred Stock, without written consent or affirmation vote of the holders of at least a majority of the then outstanding aggregate number of shares of such adversely affected Series A Preferred Stock, given in writing or by vote at a meeting, consenting or voting (as the case maybe) separately as a class.

The rights of the Series C Preferred Stock shareholders are as follows:

Conversion Rights.

Each outstanding share of Series C Preferred Stock may be converted at the option of the holder thereof (the "Holder") into fully paid, nonassessable shares of Common Stock of the Company. The number of shares of Common Stock issuable upon a conversion hereunder shall equal the quotient obtained by dividing (x) the stated value of the shares of Series C Preferred Stock to be converted by (y) the Conversion Price. The "Conversion Price" in effect on any Conversion Date shall be equal to the lesser of \$0.01 per share or 50% of the lowest closing market price for the Common Stock on the Principal Market during the 30 trading days preceding the Conversion Date. The "Conversion Date" shall be the business day on which the Company receives the Conversion Notice (defined below). The "Principal Market" shall be the national securities exchange or NASDAQ, if the Common Stock is so listed, and shall otherwise be the trading platform sponsored by OTC Markets on which the Common Stock is listed for quotation. No fractional shares of Common Stock shall be issued upon conversion of Series C Preferred Stock. In lieu of any fractional share to which the holder would otherwise be entitled, the Company shall round up to the nearest whole share.

Liquidation Preference.

Upon the liquidation, dissolution and winding up of the Company, the holders of the Series C Preferred Stock shall be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders, before any amount shall be paid to the holders of Common Stock, a sum equal to the stated value per share, after which the holders of Series C Preferred Stock shall share in the distribution with the holders of the Common Stock on a pari passu basis, except that in determining the appropriate distribution of available cash among the shareholders, each share of Series C Preferred Stock shall be deemed to have been converted into the number of shares of the Company's Common Stock into which that holder's Series C Preferred Stock could be converted on the record date for the distribution without giving effect to the limitation on conversion.

Voting Rights.

The holders of shares of Series C Preferred Stock shall have the following voting rights: Each share of Series C Preferred Stock shall entitle the holder thereof, on all matters submitted to a vote of the stockholders of the Company, to that number of votes as shall be equal to the aggregate number of shares of Common Stock into which such holder's shares of Series C Preferred Stock are convertible on the record date for the stockholder action.

Dividends. In the event that the Company's Board of Directors declares a dividend payable to holders of any class of stock, the holder of each share of Series C Preferred Stock shall be entitled to receive a dividend equal in amount and kind to that payable to the holder of the number of shares of the Company's Common Stock into which that holder's Series C Preferred Stock could be converted on the record date for the dividend.

Protective Provisions.

So long as shares of Series C Preferred Stock are outstanding, the Company shall not take any action that would impair the rights of the holders of the Series C Preferred Stock set forth herein and shall not without first obtaining the approval (by vote or written consent, as provided by law) of the holders of at least a majority of the then outstanding shares of Series C Preferred Stock alter or change the rights, preferences or privileges of the shares of the Series C Preferred Stock or any other securities so as to affect adversely the Series C Preferred Stock.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None

3) Issuance History

*The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.***

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. Using the tabular format below, please describe these events.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Mesa Home Resources, Inc., Founded over 30 years ago as Mesa Garage Doors, Inc. (www.mesagaragedoors.com) ("MESA"), is the clear Southern California leader in the otherwise highly fragmented business of sales, installation, and service for garage doors. Over these 30 years, Mesa has serviced well over a half million customers utilizing its own staff of installers, technicians, and repair employees. With a strong reputation and extensive customer base, Mesa has leveraged its financial strength, scalability, operations & service call center and professional management to arguably become the single largest garage door specialty company in the United States. While Mesa's current corporate name certainly implies garage doors, the Company has expanded over the years to include other related installations and services for entry doors, custom wood gates, and garage door openers and is planning additional expansion over the coming months.

- B. List any subsidiaries, parent company, or affiliated companies.

The merger of MESA and HTSC has been accounted for as a Reverse Acquisition. HTSC has two subsidiaries as mentioned below and management of MESA has agreed to spin-off the legacy subsidiaries of HTSC and focus on its home improvement sector in the 2024 fiscal year. As of the year-end on December 31, 2023, HTSC had not yet completed the spin-off of its operations, including the Fortune Nickel and Gold activities. These operations remain consolidated within HTSC's financials.

Fortune Nickel and Gold Inc. is an exploration company that owns 190 mining claims in the heart of the Abitibi greenstone belt in the Timmins mining camp in Ontario, Canada. The claims are in one of the largest nickel sulfide mining camps, which possesses established infrastructure, including roads, rail, power, water, contractors, producing mines and mills. Less than 10 miles away is the Crawford Nickel Project that has confirmed the robust economics of the camp's deposits with a preliminary economic assessment showing a \$1.2 billion after tax net present value (using an 8% discount rate).

ICF Industries Inc. seeks to participate in earth-friendly and sustainable businesses. It owns a license to grow hemp in the state of Iowa. Executive Industries, a division of ICF Industries Inc., offers corporate advisory, consulting, and financial reporting services to publicly owned companies. It owns a basket of minority positions in publicly traded equities. It received these equity positions in exchange for marketing and financial reporting services. The holdings include 65,000,000 shares of Tamino Minerals Inc (OTC:TINO), which is a gold and lithium exploration company; 2,200,000,000 shares of IDGlobal Corp. (OTC:IDGC), which owns a design and engineering company that focuses on high energy-efficient solutions in renewable energy sectors; 1,000,000 shares of Firma Holdings Corp. (OTC:FRMA), which seeks to develop advanced carbon materials; 79,000,000 shares of Agri-Dynamics, Inc (OTC:AGDY), which is a gold exploration company; 30,000,000 shares of Pervasip Corp. (OTC:PVSP), which is a commercial cannabis operation in Washington State that produces the 9th best-selling brand in the USA; 2,000,000 shares of AgTech Global International, Inc. (OTC:AGGL); and beneficial ownership of 30,100,000 shares of a psilocybin research company, KRTL Holding Group, Inc.

- C. Describe the issuers' principal products or services.

The Company's principal business is the sales, installation, and service for garage doors and has expanded over the years to include other related installations and services for entry doors, custom wood gates, and garage door openers. The Company is planning additional expansion over the coming months to expand its product and service offerings to other areas of home and property improvement.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

In the fiscal year ended December 31, 2023, The Company has its Operational Headquarters & Product Showroom in Anaheim California.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities. If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

MESA HOME RESOURCES INC. AND SUBSIDIARIES
F/K/A HERE TO SERVE HOLDING CORP.
Notes to the Consolidated Financial Statements
December 31, 2023

NOTE 1 - ORGANIZATION AND NATURE OF THE BUSINESS

DCE Construction, Inc. dba: Mesa Garage Doors ("Mesa Garage Doors", "Mesa", "DCE") is a family-owned construction business. Mesa is a contractor of new garage door installation and is a builder of custom wood garage doors and provides installation and servicing for these customized garage doors, entry doors, gates, and fencing for residential and commercial properties throughout the Los Angeles, San Diego, San Bernardino, Riverside, and Orange County areas. Mesa assists their clients in installing the highest quality products and services to enhance their residential properties. Mesa Garage Doors was founded in 1989 by Dwight Esnard and then it was formed on December 29, 1993 as a corporation and named DCE Construction, Inc. Mesa Garage Doors is a wholly owned and managed subsidiary of DCE Construction, Inc. DCE Construction, Inc. operates its business from its office located in Anaheim, California.

Here To Serve Holding Corp. ("HTSC") was incorporated in the State of Delaware as New Ithaca Corporation on September 22, 1983. In 2006, HTSC operated as F3 Technologies and began trading on the OTC Market Exchange under the symbol FTCH. In September 2013, it began operating as Here To Serve Holding Corp. trading under the symbol HTSC. Over the next several years, HTSC consulted in the software development industry. The management of MESA has agreed to spin-off the legacy subsidiaries of HTSC and focus on its home improvement sector in the 2024 fiscal year. HTSC Shareholders of record as of November 2, 2023 are entitled to receive ownership shares in such spin-off entities. As of the year-end on December 31, 2023, HTSC had not yet completed the spin-off of its operations, including the Fortune Nickel and Gold activities. These operations remain consolidated within HTSC's financials. The responsibility for the spin-off lies with Mesa, and as of the reporting date, the process was still underway, involving necessary actions with FINRA. Due to this, the financial statements for HTSC as of December 31, 2023, include the operations of Fortune Nickel and Gold, reflecting the company's status prior to the completion of the spin-off transaction. This spin-off transaction will not expect to have a major effect on the Company's financial results.

The merger of Mesa and HTSC has been accounted for as a Reverse Acquisition (see Basis of Presentation below).

On February 5, 2024, Mesa Home Resources, Inc. (OTC PINK: MHRE) ("Mesa" or the "Company") is the new corporate name and ticker symbol of Here To Serve Holding Corp. (OTC PINK: HTSC).

NOTE 2 – LIQUIDITY AND GOING CONCERN

MESA's financial statements as of December 31, 2023, are prepared on a going concern basis. The company reported net loss of \$31,906 for the year ended December 31, 2023, compared to net income of \$580,472 for the year ended December 31, 2022. This decrease is primarily attributed to increased in professional services and advertising and marketing expenses.

Notably, the year 2023 reflected a positive operating cash flow of \$525,971, a significant shift from the negative cash flow of \$1,833,251 in 2022. This increase in operating cash flow is largely due to increases in net income, accounts payable and a decrease in account receivables.

Additionally, the Company completed the Reverse Acquisition with HTSC (Note 18), the acquisition sets the stage for Mesa's plans to horizontally diversify into other home improvement areas in addition to garage door installation/repairs. It also helps to facilitate Mesa's new plans for growth through an aggressive M&A campaign of strategically aligned businesses throughout the US.

Despite these challenges, management is actively implementing strategies to enhance liquidity:

- Capital Raising: Initiatives to issue equity and debt securities.
- Strategic Partnerships: Forming alliances to support business growth.
- Business Development: Engaging in transactions to ensure operational continuity.

These measures reflect management's commitment to improving MESA's financial position and ensuring its viability as a going concern.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - On November 3, 2023, Mesa and HTSC completed a reverse acquisition resulting in HTSC acquiring all issued shares of common stock of Mesa in exchange for issuing 1.4 billion common shares of HTSC. Mesa's business became the primary business of HTSC, and the former shareholders of Mesa became controlling shareholders of HTSC. The acquisition was affected pursuant to the terms of a Share Exchange and Reorganization Agreement, which was executed on October 23, 2023. The merger occurred on November 3, 2023. The financial statements are prepared using Reverse Acquisition Accounting and as such, for legal purposes Mesa was the acquiring company and for GAAP accounting, HTSC was the acquiring company. Therefore, the financial statements are presented using the historical financial statements of Mesa. The combined HTSC and Mesa are collectively referred to as the Company.

The Company prepared the accompanying financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP") and pursuant to the rules and regulations of the Securities Exchange Commission ("SEC").

Principles of consolidation - The consolidated financial statements include the financial statements of the Company and its subsidiaries. All significant intercompany transactions and balances between the Company and its subsidiaries are eliminated upon consolidation.

Emerging Growth Company Status - The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended (the "Securities Act"), as modified by the Jumpstart our Business Startups Act of 2012, (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates - The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period in which they are determined to be necessary.

In preparing the financial statements, management makes estimates and assumptions regarding:

- the realization of deferred taxes
- the useful life of the long-lived assets
- the valuation of stock-based compensation
- the measurement of deferred tax assets
- the incremental borrowing rate ("IBR") used in the measurement of right-of-use lease assets and lease liabilities
- fair values of investments and other financial instruments (including measurement of credit or impairment losses)

Cash and Cash Equivalents - Cash and cash equivalents include all short-term highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less from the date of purchase. As of December 31, 2023, and 2022, the Company had cash of \$36,764 and \$4,360, respectively maintained in U.S. bank accounts, of which all U.S. bank account balances were below the \$250,000 FDIC coverage limit.

Restricted Cash - The Company did not have any restricted cash balances, deposits held as compensating balances or cash segregated in compliance with federal or other regulations as of December 31, 2023, and 2022.

Investments - The Company follows ASU No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, for the recognition, measurement, presentation, and disclosure of financial instruments.

Accounts Receivable and Credit Risk – In January 2023, the Company adopted ASU 2016-13, Topics 326-Credit Loss, Measurement of Credit Losses on Financial Instruments, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology, as its accounting standard for its trade accounts receivable.

The adoption of the credit loss accounting standard has no material impact on the Company's consolidated financial statements as of January 1, 2023. Accounts receivable is recognized and carried at carrying amount less an allowance for credit loss, if any. Accounts receivable is generated from sales of the Company's products. The Company provides an allowance for doubtful collections, which is based upon a review of outstanding receivables, historical collection information, and existing economic conditions. The allowance for credit losses at December 31, 2023 and 2022 was \$145,989 and \$86,691, respectively.

Other Receivable -The Company's other receivable balance was \$954,833 and \$953,333 as of December 31, 2023 and 2022, respectively.

The Company qualified for the Employee Retention Tax Credit (ERTC) in 2022 as permitted under the Coronavirus Aid, Relief and Economic Security (CARES) Act. This refundable tax credit is available to eligible employers who retained employees during mandated COVID-19 related closures or periods of significant revenue loss.

The Company recognizes the credit when qualifying wages are incurred as a reduction of payroll tax expense. As of December 31, 2023 and 2022, the Company has an ERTC receivable of \$895,962 and \$895,962, respectively, included in other receivable on the balance sheet. This amount represents the ERTC refund owed based on qualifying wages to date.

Inventories – Inventories are stated at the lower of cost or net realizable value. Cost is calculated on the standard cost basis and includes all costs to acquire and other costs to bring the inventories to their present location and condition, which approximates actual cost on the monthly weighted average cost method. The Company records inventory write-downs for excess or obsolete inventories based upon assumptions on current and future demand forecasts. If the inventory on hand is in excess of the future demand forecast, the excess amounts are written off. The Company also reviews inventory to determine whether its carrying value exceeds the net amount realizable upon the ultimate sale of the inventory. This requires the determination of the estimated selling price less the estimated cost to convert inventory on hand into a finished product. Once inventory is written down, a new, lower-cost basis for that inventory is established and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

Effective January 1, 2022, the company changed its method of accounting for inventories from the first-in, first-out ("FIFO") method to the weighted average cost method. The Company believes the new method is preferable as it provides better matching of cost of goods sold with revenue, improves the precision of inventory cost at the balance sheet dates. In addition, the change in cost of inventory better aligns with the way the Company manages its business with a focus on the actual margin realized. We recorded the cumulative effect of this change in accounting principle as of January 1, 2022. The effects of this change in accounting principle as of January 1, 2022 were not material to our consolidated financial statements. We were not able to determine the impact of the change to the weighted average cost method. Therefore, we did not retroactively apply the change to prior periods.

The Company uses the weighted average cost method to account for its inventory as of December 31, 2023 and 2022, the inventories consist of raw materials, work-in-process, and finished goods, and determined the carrying amount of inventories as of December 31, 2023 and 2022 was at \$2,093,812 and \$2,039,659, respectively.

Exploration and Evaluation of Mineral Properties - Exploration and evaluation assets represent properties on which the Company is conducting exploration to determine whether significant mineralization exists or for which the Company has identified a mineral resource of such quantity and grade or quality that it has reasonable prospects for economic extraction. All costs incurred prior to obtaining the legal right to undertake exploration and evaluation activities on an area of interest are expensed as incurred. Once the legal right to explore has been obtained, exploration expenditures are capitalized in respect of each identifiable area of interest until a technical feasibility study has been completed and the commercial viability of extracting a mineral resource is demonstrable. Exploration and evaluation activities include the following:

- acquiring the rights to explore.
- researching and analyzing historical exploration data.
- gathering exploration data through topographical, geochemical, and geophysical studies.
- exploratory drilling, trenching, and sampling.
- determining and examining the volume and grade of the resource; and
- compiling pre-feasibility and feasibility studies.
- exploration and evaluation assets are recorded at historical cost, less any impairment, if applicable.

Long-Lived Assets – Long-lived Assets are stated at cost less accumulated depreciation or amortization and any recorded impairment. Depreciation and amortization are computed using the straight-line method over the estimate useful lives of the assets, as follows:

CLASS OF ASSETS:	ESTIMATED USEFUL LIFE:
Automobiles & Trucks	5
Leasehold Improvements	15
Machinery & Equipment	5
Furniture & Fixtures	7
Office Equipment	5
Computer Hardware	5
Computer Consultations	5
Computer Software	3
CRM Software	5

Total depreciation and amortization expense was \$169,435 and \$3,821 for the years ended December 31, 2023 and 2022, respectively.

When assets are retired or otherwise disposed of, the cost, accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is reflected in the consolidated statements of operations in the period realized. Maintenance and repairs that do not enhance or extend the asset's useful life are charged to operating expense as incurred.

Impairment of Long-Lived Assets - The Company evaluates long-lived assets for impairment on an annual basis, when relocating or closing a facility, or when events or changes in circumstances may indicate the carrying amount of the asset group, generally an individual warehouse, may not be fully recoverable. For asset groups held and used, including warehouses to be relocated, the carrying value of the asset group is considered recoverable when the estimated future undiscounted cash flows generated from the use and eventual disposition of the asset group exceed the respective carrying value. In the event that the carrying value is not considered recoverable, an impairment loss is recognized for the asset group to be held and used equal to the excess of the carrying value above the estimated fair value of the asset group. For asset groups classified as held-for-sale (disposal group), the carrying value is compared to the disposal group's fair value less costs to sell. The Company estimates fair value by obtaining market appraisals from third-party brokers or using other valuation techniques.

Segment reporting - The Company operates as one segment, in which management uses one measure of profitability, and all of the Company's assets are located in the United States of America. The Company does not operate separate lines of business or separate business entities with respect to any of its product candidates. Accordingly, the Company does not have separately reportable segments.

Leases – The Company accounts for leases in accordance with Accounting Standards Codification (“ASC”) 842, *Leases* (“ASC 842”), which requires lessees to recognize the rights and obligations created by leases on the balance sheet and disclose key information about leasing arrangements. The Company adopted ASC 842 along with all applicable ASU clarifications and improvements on January 1, 2022, using the modified retrospective transition method and used the effective date as the date of initial application. Consequently, financial information is not updated and disclosures required under ASC 842 are not provided for periods before January 1, 2022. ASC 842 provides a number of optional practical expedients that companies can elect to apply during the standard's transition.

The Company determines if a contract contains a lease based on whether it has the right to obtain substantially all of the economic benefits from the use of an identified asset and whether it has the right to direct the use of an identified asset in exchange for consideration, which relates to an asset which the Company does not own. Right-of-use (“ROU”) assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets are recognized as the lease liability, adjusted for lease incentives received. Lease liabilities are recognized at the present value of the future lease payments at the lease commencement date, net of lease incentive receivable. The interest rate used to determine the present value of the future

lease payments is the Company's incremental borrowing rate ("IBR") unless the interest rate implicit in the lease agreement is readily determinable. Lease payments may be fixed or variable, however, only fixed payments or in-substance fixed payments are included in the Company's lease liability calculation. Variable lease payments are recognized in operating expenses in the period in which the obligation for those payments is incurred.

Operating leases are included within operating lease ROU assets, operating lease liabilities, current, and operating lease liabilities, noncurrent on the Company's consolidated balance sheet as of December 31, 2023 and 2022. Finance leases are included in property and equipment, net, accrued expenses and other current liabilities, and other liabilities on the Company's consolidated balance sheet as of December 31, 2023 and 2022. As of December 31, 2023 and 2022, property and equipment financed under finance leases cost was \$52,450 and \$57,321, respectively, amortization expense was \$52,450 and \$57,321, respectively.

We lease our office space under an operating lease. The lease term commences earlier on the date when we become legally obligated for the rent payments or the date on which we take possession of the property. We have occupied the premises since September 1, 2015. For tenant improvement, the landlord installed the LED lighting in the warehouse area in 2020 when the new lease was signed. We recorded a deferred rent liability in accrued expenses and other liabilities in the financial statements. As of the date of this financial report, our office space is leased on a month-to-month basis without penalty or future obligation upon 30 days' written notice of our intent to vacate. Our lease expense was \$410,906 and \$425,306 for the year ending December 31, 2023 and 2022, respectively.

Property and equipment under finance leases are initially recorded at the present value of minimum lease payments. Assets acquired under a finance lease are amortized in a manner consistent with the Company's depreciation policy for owned assets if the lease transfers ownership to the Company at the end of the lease term or contains a bargain purchase option. Otherwise, assets acquired under a finance lease are amortized over the lease term.

Revenue Recognition - The Company's revenue is generated from the sale of doors and provide installation and service. The Company recognizes revenue when control of goods or services is transferred to its customers in an amount that reflects the consideration it is expected to be entitled to in exchange for those goods or services. To determine revenue recognition, the Company performs the following five steps: (i) identify the contract(s) with a customer; (ii) identify the performance obligation(s) in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligation(s) in the contract; and (v) recognize revenue when (or as) the performance obligation(s) are satisfied. Revenue is recognized upon shipment or delivery to the customer, as that is when the customer obtains control of the promised goods and the Company's performance obligation is considered satisfied. As such, accounts receivable is recorded at the time of shipment or will call, when the Company's right to the consideration becomes unconditional and the Company determines there are no uncertainties regarding payment terms or transfer of control. Sales discounts are recorded in the period in which the related sale is recognized.

Revenue related to installations and services is recognized when earned, and the associated expenses are recorded as cost of goods sold. Upfront fees are classified as customer deposits until installation or service completion. Deferred revenue accounts for pre-service payments and is recognized as revenue when services are rendered. Installation services, provided under contract, are standardized yet tailored to each client's needs, with fixed pricing for materials. Payment terms vary per contract, with revenue recognized accordingly—either upon contract execution or upon payment receipt based on the agreed schedule. Advance payments are recorded as deferred revenue and recognized as services are completed.

Judgments and Estimates - The estimation of variable consideration for each performance obligation requires the Company to make subjective judgments. The Company enters contracts with customers that may include promises to transfer multiple services, such as digital marketing, financial statement preparation, offering statements, and consulting services. For arrangements with multiple services, the Company evaluates whether the individual services qualify as distinct performance obligations. In its assessment of whether a service is a distinct performance obligation, the Company determines whether the customer can benefit from the service on its own or with other readily available resources, and whether the service is separately identifiable from other services in the contract. This evaluation requires the Company to assess the nature of each individual service offering and how the services are provided in the context of the contract, including whether the services are significantly integrated, highly interrelated, or significantly modify each other, which may require judgment based on the facts and circumstances of the contract.

When agreements involve multiple distinct performance obligations, the Company allocates arrangement consideration to all performance obligations at the inception of an arrangement based on the relative standalone selling prices ("SSP") of each performance obligation. Where the Company has standalone sales data for its performance obligations which are indicative of the price at which the Company sells a promised service separately to a customer, such data is used to establish SSP. In instances where standalone sales data is not available for a particular performance obligation, the Company estimates SSP by the use of observable market and cost-based inputs. The Company continues to review the factors used to establish list price and will adjust standalone selling price methodologies as necessary on a prospective basis.

Service Revenue - Revenue from subscriptions to the Company's digital marketing service or energy monitoring service is recognized over time on a ratable basis over the subscription term beginning on the date that the service begins. Payments received in advance of subscription services being rendered are recorded as a deferred revenue. Professional services revenue is recognized in accordance with the terms of the service contract.

When a contract with a customer is signed, the Company assesses whether collection of the fees under the arrangement is probable. The Company estimates the amount to reserve for uncollectible amounts based on the aging of the contract balance, current and historical customer trends, and communications with its customers. These reserves are recorded as operating expenses against the contract assets.

Contract Assets - Contract assets are recorded for those parts of the contract consideration not yet invoiced but for which the performance obligations are completed. The revenue is recognized when the customer receives services. Contract assets are included in other current or non-current assets in the consolidated balance sheets, depending on if their reduction will be recognized during the succeeding twelve-month period or beyond.

Deferred Revenue - Deferred revenues represent billings or payments received in advance of revenue recognition and are recognized upon transfer of control. Balances consist primarily of prepaid services not yet provided as of the balance sheet date. Deferred revenues that will be recognized during the succeeding twelve-month period are recorded as current deferred revenues in the consolidated balance sheets, with the remainder recorded as other non-current liabilities in the consolidated balance sheets.

Costs to Obtain a Customer Contract - Sales commissions and related expenses are considered incremental and recoverable costs of acquiring customer contracts. These costs are capitalized as other current or non-current assets and amortized on a straight-line basis over the life of the contract, which approximates the benefit period. The benefit period was estimated by taking into consideration the length of customer contracts, technology lifecycle, and other factors. All sales commissions are recorded as consulting fees within the Company's consolidated statement of operations.

Remaining Performance Obligations - The Company's subscription terms are typically less than one year. All of the Company's revenues are considered contract revenues. As of December 31, 2023 and 2022, there was \$123,038 and \$0, respectively, of contract revenue which has not yet been recognized.

Cost of Goods Sold - For the fiscal year ended December 31, 2023 and 2022, the Cost of Goods Sold ("COGS") amounted to \$13,698,815 and \$12,869,589, respectively. This figure has been derived utilizing the weighted average method for inventory accounting. Our COGS encompasses all direct costs associated with the production of goods which were sold over the course of the year. These costs are detailed as follows:

Raw Materials Costs amounted to \$5,426,563 and \$7,037,925 as of December 31, 2023 and 2022, respectively, reflecting the primary materials utilized in the creation of our products.

Direct Labor Costs, representing the workforce directly involved in the manufacturing process, totaled \$363,162 and \$120,563 as of December 31, 2023 and 2022, respectively.

Manufacturing Overhead Costs, which include indirect expenses such as utilities, maintenance, and factory supplies necessary for production, were \$6,281,497 and \$5,535,471 as of December 31, 2023 and 2022, respectively.

Other Direct Costs, capturing all other direct expenditures related to the production of the company's goods, amounted to \$1,627,593 and \$175,630 as of December 31, 2023 and 2022, respectively.

The aggregation of these components has led to the comprehensive total that represents our COGS for the year. Each category has been carefully monitored and controlled to reflect an accurate cost associated with the production of goods sold by our company.

Cost of Services - The cost of services consists of direct costs that we pay to third parties to provide the services that generate revenue.

Income Taxes - The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The

ultimate realization of deferred tax assets is dependent upon the generation of future taxable income and the reversal of deferred tax liabilities during the period in which related temporary differences become deductible. A valuation allowance has been established to eliminate the Company's deferred tax assets as it is more likely than not that any of the deferred tax assets will be realized.

The Company records uncertain tax positions in accordance with ASC 740 on the basis of a two - step process whereby (1) we determine whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more - likely - than - not recognition threshold, we recognize the largest amount of tax benefit that is more than 50% likely to be realized upon ultimate settlement with the related tax authority.

Based on the Company's history of losses and tax loss carryforwards available, it has concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

The Company may in the future become subject to foreign, federal, state, and local income taxation though it has not been since inception. The Company is not presently subject to any income tax audit in any taxing jurisdiction.

Until January 1, 2022, the Company's subsidiary, DCE elected under the Internal Revenue Code to be taxed as an S Corporation. Subchapter S Corporations do not pay entity-level taxes; results of operations are reported to the member for inclusion in personal tax returns. Accordingly, DCE is not subject to Federal and state income taxes and makes no provision for income taxes in its financial statements. DCE's tax return and the amount of allocable profits and losses are subject to examination by the state and Federal authorities. If such examinations result in changes to the DCE's profits and losses, the tax liability of the shareholders could be changed accordingly. Although income taxes are assessed to the individual members, DCE is required to withhold state income taxes from the cash distributions it makes to its members. As of December 31, 2022, DCE made no such cash distributions.

Effective January 2, 2022, DCE converted to tax as a C corporation and, as a result, became subject to corporate federal and state income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets, including tax loss and credit carryforwards, and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company had no accrual for interest or penalties on the Company's balance sheet at December 31, 2023 or 2022 and did not recognize interest and/or penalties in the statement of operations for the years ended December 31, 2023 and 2022, since there are no material unrecognized tax benefits. Management believes no material change to the amount of unrecognized tax benefits will occur within the next twelve months.

Earnings Per Share - Basic earnings per common share ("EPS") is computed by dividing net income attributable to the common shareholders of the Company by the weighted-average number of common shares outstanding. Diluted EPS is computed in the same manner as basic EPS, except the number of shares includes additional common shares that would have been outstanding if potential common shares with a dilutive effect had been issued.

Advertising - The Company conducts advertising for the promotion of the products. In accordance with ASC 720-35, advertising costs are charged to operations when incurred. The Company recorded advertising expense of \$3,273,011 and \$2,269,104 for the year ended December 31, 2023, and 2022, respectively.

Related Parties - The Company is indebted to certain members of the Company at December 31, 2023 and 2022. Transactions between the Company and the members are summarized in Note 4.

Goodwill - Goodwill represents the excess of the purchase price over the fair value of assets acquired and liabilities assumed. The Company accounts for goodwill under ASC Topic 350, Intangibles-Goodwill and Other.

Goodwill is not amortized but is reviewed for potential impairment on an annual basis, or if events or circumstances indicate a potential impairment, at the reporting unit level. The Company's review for impairment includes an assessment of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value, including goodwill. If it is determined that it is more likely than not that the fair value of a reporting unit is less than its carrying value, including goodwill, a quantitative goodwill

impairment test is performed, which compares the fair value of the reporting unit with its carrying amounts, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired. However, if the carrying amount of the reporting unit exceeds its fair value, an impairment loss will be recognized in an amount equal to that excess, limited to the total amount of goodwill allocated to that reporting unit.

Business Combinations - The Company accounts for business combinations under the acquisition method of accounting in accordance with ASC 805, Business Combinations, by recognizing identifiable tangible and intangible assets acquired, liabilities assumed, and non-controlling interests in the acquired business at their fair values. The excess of the costs of the acquired business over the fair value of the identifiable tangible and intangible assets acquired and liabilities assumed is recorded as Goodwill. Acquisition related costs are expensed as incurred.

Fair Value of Financial Instruments - Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future value.

Stock-Based Compensation - The Company utilizes the Black-Scholes option pricing model to estimate the fair value of warrants granted to employees and consultants as of the date of grant, which requires the input of highly subjective assumptions, including expected volatility and expected life. Changes in these inputs and assumptions can materially affect the measure of estimated fair value of share-based compensation. These assumptions are subjective and generally require significant analysis and judgment to develop. The Company estimates volatility by considering the historical stock volatility. The Company has opted to use the simplified method for estimating the expected term.

On December 14, 2021, the company issued two warrants that expire on September 30, 2026 as compensation for the Company's two independent board members, to each purchase up to 750,000 shares of the Company's common stock at a price of \$0.069. Using the Black-Scholes valuation method with assumptions including: (1) a term of 4.8 years; (2) a computed volatility rate of 386%; (3) a discount rate of 1.18%; and (4) zero dividends, each warrant was valued at \$50,999. The Company recorded consulting expenses of \$101,998 in fiscal 2022 for the issuance of these warrants.

On October 11, 2021, the company issued a warrant that expires on September 30, 2025 as compensation for advisory services, to purchase up to 250,000 shares of the Company's common stock at a price of \$0.063. Using the Black-Scholes valuation method with assumptions including: (1) a term of 3.97 years; (2) a computed volatility rate of 386%; (3) a discount rate of 0.82%; and (4) zero dividends, the warrant was valued at \$15,773. The Company recorded a consulting fee of \$15,773 in fiscal 2022 for the issuance of this warrant.

Effective March 17, 2021, the company issued a warrant that expires on September 30, 2026 as compensation related to aboriginal rights in Timmins, Ontario, to purchase up to 100,000 shares of the Company's common stock at a price of \$0.1475. Using the Black-Scholes valuation method with assumptions including: (1) a term of 5.54 years; (2) a computed volatility rate of 386%; (3) a discount rate of 0.8%; and (4) zero dividends, the warrant was valued at \$13,750. Twenty-five percent of the warrant vested every six months, and fifty percent of the warrant vested on September 30, 2021. Consequently, \$6,875 was recorded as an addition to mineral interests in fiscal 2022.

The Company also issued restricted shares of common stock as stock-based compensation. The shares were valued at the closing price on the day of issuance. 5,000,000 shares, valued at \$125,000, issued in October 2022, were recorded as a marketing and advertising expense, based on the terms of a consulting contract. Recently accounting pronouncements - In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU No. 2023-07, Improvements to Reportable Segment Disclosures (Topic 280). This ASU updates reportable segment disclosure requirements by requiring disclosures of significant reportable segment expenses that are regularly provided to the Chief Operating Decision Maker ("CODM") and included within each reported measure of a segment's profit or loss. This ASU also requires disclosure of the title and position of the individual identified as the CODM and an explanation of how the CODM uses the reported measures of a segment's profit or loss in assessing segment performance and deciding how to allocate resources. The ASU is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Adoption of the ASU should be applied retrospectively to all prior periods presented in the financial statements. Early adoption is also permitted. This ASU will likely result in us including the additional required disclosures when adopted. We are currently evaluating the provisions of this ASU and expect to adopt them for the year ending December 31, 2024.

In December 2023, the FASB issued ASU No. 2023-09, Improvements to Income Tax Disclosures (Topic 740). The ASU requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as additional information on income taxes paid. The ASU is effective on a prospective basis for annual periods beginning after December 15, 2024. Early adoption is also permitted for annual financial statements that have not yet been issued or made available for issuance. This ASU will result in the required additional disclosures being included in our consolidated financial statements, once adopted.

NOTE 4 - RELATED PARTY TRANSACTIONS

On December 31, 2017, the Company entered into a note agreement with Mesa Garage Doors as the lender and DCE 50/50 Trust as the borrower, both of which are related parties as defined by ASC 850, Related Party Disclosures.

Principal Amount: The principal amount of the loan is \$1,591,347.

Interest Rate: The loan carries an interest rate of 5%.

Terms: The loan is unsecured and is payable on demand. Repayment of any principal amount is required by December 31, 2025.

Default: Failure to make any payment by the due date shall constitute a default under the terms of the agreement.

Remedies: Upon default, the lender has the option to pursue any remedies available under the applicable law.

Governing Law: The agreement shall be governed by and construed in accordance with the laws of the State of California.

The principal balance of the loan as of December 31, 2023 and 2022 is \$2,697,831 and \$2,331,231, respectively, the accrued interests as of December 31, 2023 and 2022 is \$129,453 and \$0, respectively, which is included in the Due from related parties line item in our financial statements. There have been no repayments of principal during the current period. This loan has been provided on a non-arm's length basis and is not secured by any collateral.

The Company has evaluated the collectability of the receivable and believes that the amount is fully collectible; however, no assurances can be provided that the borrower will comply with the terms of the agreement. The Company intends to monitor this related party receivable closely and take appropriate steps as necessary to protect its interest.

On January 5, 2023, the Company received unsecured advances from Jim Mahoney, a related party, in amount of \$275,000, due December 31, 2024 with 0% interest rate. The principal of the note was \$37,500 and \$87,500 as of December 31, 2023 and 2022, respectively. No interest accrued as of December 31, 2023 and 2022.

NOTE 10 – SIMPLE AGREEMENT FOR FUTURE EQUITY (SAFE)

During the fiscal year 2023 and 2022, the Company entered into several Simple Agreements for Future Equity (“SAFE”). These agreements provided the Company with a total of \$1,125,000 in investments from various parties, with the terms stipulating that these investments would convert into common shares at a 30% discount in the event of a qualifying public trading commencement, such as the Company's shares being traded or quoted on a recognized exchange like the NYSE, NASDAQ, or OTC markets. If no such public trading event occurs within one year, the SAFE investment converts into an interest-bearing promissory note bearing interest at an annual rate of 15% for the period between the initial investment date and the payoff date of the note.

As of December 31, 2022, the Company does not expect any such qualifying event to occur by the one year anniversary of the investment. Consequently, in accordance with the terms of the SAFE agreements, investments are recognized as interest-bearing promissory notes. The interest is accrued at a rate of 15% annually, applicable from the initial investment date.

As of December 31, 2023, the outstanding principal amount under these SAFE agreements, totaling \$1,125,000, is subject to the conversion and interest terms. Mesa and HTSC completed the Reverse Acquisition on November 3, 2023, and listed on OTC markets. The Company did not accrue interest for the year 2023. As of the date of the issued financial statements, no SAFE holders have selected to convert their SAFE note.

As of December 31, 2023 and 2022, the SAFE notes payable principal balance totaling \$1,125,000 and \$1,025,000, respectively, and accrued interest totaling \$49,962 and \$49,962.

Shares Issued in Reverse Acquisition

On November 3, 2023, HTSC acquiring all issued shares of common stock of Mesa in exchange for issuing 1,400 million common shares of HTSC. MESA's business became the primary business of HTSC, and the former shareholders of MESA became controlling shareholders of HTSC. The shareholders of Mesa representing an ownership interest of approximately 90% in HTSC in exchange for all of the issued and outstanding shares of Mesa (Note 18).

Shares Issued for Services

On May 1, 2023, the Company entered into a corporate advisory services agreement with Pinnacle Consulting Services, Inc., a Nevada corporation (“Advisor”), the agreement was effective for twelve (12) months from the effective date. Under the terms of this agreement, the Advisor shall be compensated for the Advisory Services via common shares (“Advisory Shares”). On June 30, 2024 (the “True-up Date”), the Advisory Shares shall be allowed a one time true to be valued based on the closing price of the Company’s common stock. If the value of the Advisory Shares at that time is less than \$700,000, then the Company shall issue additional advisory shares to Advisor to “gross-up” the value of the Advisory Shares to \$700,000. If the contemplated merger/acquisition with HTSC is not consummated by the three (3) month anniversary of this Agreement, then in the discretion of Advisor, Advisor shall receive a single payment of thirty thousand dollars (\$30,000) as cash payment wired to the bank account provided in the agreement. If the Advisor elects to receive the cash payment, then Advisor shall forfeit and promptly return to the Company fifty percent (50%) of the Advisory Shares.

Preferred Stock

The powers, preferences, qualifications, limitations or restrictions, and relative rights of the Series A Preferred Stock shall be as follows:

The Series A Preferred Stock shall not be convertible into Common Stock of the Company. The outstanding shares of Series A Preferred Stock shall be entitled to the number of votes, collectively, which shall be equal to 70% of the total number of votes that may be cast (including the votes of the issued and outstanding common stock as well as any voting preferred stock) at the time of such vote, at each meeting (or by written consent) of shareholders of the Company for their action or consideration, including the election of directors. The Company shall not amend, alter or repeal the Series A Preferred Stock, special rights or other powers of the Series A Preferred Stock so as to affect adversely the Series A Preferred Stock, without written consent or affirmation vote of the holders of at least a majority of the then outstanding aggregate number of shares of such adversely affected Series A Preferred Stock, given in writing or by vote at a meeting, consenting or voting (as the case may be) separately as a class.

On June 26, 2018, the Company filed a Certificate of Designation for its Series C Preferred Stock. The rights of the Series C shareholders are as follows:

Conversion Rights

Each outstanding share of Series C Preferred Stock may be converted at the option of the holder thereof (the "Holder") into fully paid, nonassessable shares of Common Stock, \$.001 par value per share, of the Company. The number of shares of Common Stock issuable upon a conversion hereunder shall equal the quotient obtained by dividing (x) the Stated Value of the shares of Series C Preferred Stock to be converted by (y) the Conversion Price. The "Conversion Price" in effect on any Conversion Date shall be equal to the lesser of \$0.01 per share or 50% of the lowest closing market price for the Common Stock on the Principal Market during the thirty trading days preceding the Conversion Date. The "Conversion Date" shall be the business day on which the Company receives the Conversion Notice (defined below). The "Principal Market" shall be the national securities exchange or NASDAQ, if the Common Stock is so listed, and shall otherwise be the trading platform sponsored by OTC Markets on which the Common Stock is listed for quotation. No fractional shares of Common Stock shall be issued upon conversion of Series C Preferred Stock. In lieu of any fractional share to which the Holder would otherwise be entitled, the Company shall round up to the nearest whole share.

Liquidation Preference

Upon the liquidation, dissolution and winding up of the Company, the holders of the Series C Preferred Stock shall be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders, before any amount shall be paid to the holders of Common Stock, a sum equal to the Stated Value per share, after which the holders of Series C Preferred Stock shall share in the distribution with the holders of the Common Stock on a pari passu basis, except that in determining the appropriate distribution of available cash among the shareholders, each share of Series C Preferred Stock shall be deemed to have been converted into the number of shares of the Company's Common Stock into which that holder's Series C Preferred Stock could be converted on the record date for the distribution without giving effect to the limitation on conversion.

Voting Rights

The holders of shares of Series C Preferred Stock shall have the following voting rights: Each share of Series C Preferred Stock shall entitle the holder thereof, on all matters submitted to a vote of the stockholders of the Company, to that number of votes as shall be equal to the aggregate number of shares of Common Stock into which such holder's shares of Series C Preferred Stock are convertible on the record date for the stockholder action.

Dividends. In the event that the Company's Board of Directors declares a dividend payable to holders of any class of stock, the holder of each share of Series C Preferred Stock shall be entitled to receive a dividend equal in amount and kind to that payable to the holder of the number of shares of the Company's Common Stock into which that holder's Series C Preferred Stock could be converted on the record date for the dividend.

Protective Provisions

So long as shares of Series C Preferred Stock are outstanding, the Company shall not take any action that would impair the rights of the holders of the Series C Preferred Stock set forth herein and shall not without first obtaining the approval (by vote or written consent, as provided by law) of the holders of at least a majority of the then outstanding shares of Series C Preferred Stock alter or change the rights, preferences or privileges of the shares of the Series C Preferred Stock or any other securities so as to affect adversely the Series C Preferred Stock.

NOTE 16 – FAIR VALUE

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures of financial instruments on a recurring basis.

Fair Value Hierarchy

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- Level 2: inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs are unobservable inputs for the asset or liability.

Financial assets measured at fair value on a recurring basis are summarized below as of December 31, 2023 and 2022:

	Level 1		Level 2		Level 3		Total	
December 31, 2023								
Equity securities at fair value	\$	-	\$	703,620	\$	-	\$	703,620
Related party equity securities at fair value	\$	-	\$	722,400	\$	-	\$	722,400
Goodwill	\$	-	\$	-	\$	1,545,586	\$	1,545,586
December 31, 2022								
Equity securities at fair value	\$	-	\$	-	\$	-	\$	-
Related party equity securities at fair value	\$	-	\$	-	\$	-	\$	-

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows that could significantly affect the results of current or future value.

Following is a description of valuation methodologies used for assets and liabilities recorded at fair value and for estimating fair value where it is practicable to do so for financial instruments not recorded at fair value (disclosures required by the Fair Value Measurements Topic of the FASB Accounting Standards Codification).

Cash and cash equivalents, accounts receivable, and accounts payable

In general, carrying amounts approximate fair value because of the short maturity of these instruments.

Debt

The debt is carried at its face value plus accrued interest. Based on the small size of the Company, it is impracticable for the Company to estimate the fair value of its debt.

The Company has no instruments with significant off balance sheet risk.

NOTE 17 – EARNING (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted earnings per share for the years presented:

Numerator:	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Net (loss) Income	\$ (31,906)	\$ 580,472
Denominator:

Weighted average number of common shares outstanding - Diluted	334,685,052	134,249,568
Basic net income per common share	\$ (0.0001)	\$ 0.0068
Diluted net income per common share	\$ (0.0001)	\$ 0.0043

Due to the anti-dilutive effect, the computation of basic and diluted EPS did not include the shares below as the Company had a net loss for the year ended December 31, 2023:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Weighted average shares used in computing net income per share of common stock, basic	334,685,052	85,909,093

SAFE notes converted	25,728,029	-
Weighted average shares used in computing net income per share of common stock, diluted	371,811,889	134,249,568

During year ended December 31, 2023, and 2022, the Company has stock-based compensation balance of 11,398,808 and 48,340,475 shares, respectively. In addition, the Company has SAFE notes payable balance of \$1,125,000 and related interest payable amount to \$49,962 which could convert at 30% discount of average share price. As of December 31, 2023 and 2022, the Company's SAFE notes convertible was 25,728,022 shares and nil.

NOTE 18 - REVERSE ACQUISITION

On November 3, 2023, HTSC entered into a Share Exchange and Reorganization Agreement and completed a reverse acquisition with DCE Construction Inc., a California Corporation (doing business as, "Mesa Garage Doors").

Pursuant to the terms of the Agreement, HTSC 1) acquired all the issued and outstanding shares of Mesa Common Stock solely in exchange for an aggregate of 1,400,000,000 shares of authorized, but theretofore unissued, shares of common stock of HTSC; 2) issued 43,200,000 shares of Common Stock in consideration of the cancellation of indebtedness in the form of unreimbursed expenses owed by HTSC to the stockholder in the amount of \$15,321.15; 3) the Mesa stockholders made a cash payment in the amount of \$47,656 to HTSC's Stockholder as payment in full of a liability owned to HTSC's Stockholder by HTSC. HTSC issued 1,400,000,000 common shares to the shareholders of Mesa representing an ownership interest of approximately 90.47%.

As a result of the reverse acquisition, former shareholders of Mesa acquired control of HTSC and the substance of the transaction was a reverse acquisition, where the transaction constitutes a business combination for accounting purposes and is accounted for using the acquisition method under ASC 805. Mesa is deemed to be the acquiring company and its assets and liabilities, equity and historical operating results are included at their historical carrying values, and the net assets of HTSC are recorded at the fair value as at the date of the transaction.

HTSC had 104,290,692 shares of common stock outstanding with a closing price of \$0.0276/share on the acquisition date. The total fair value of the consideration was \$2,878,400. Considering that the fair value of the net asset of HTSC was \$1,333,601 at the acquisition date, goodwill of \$1,544,799 was recorded related to the reverse merger. Goodwill for impairment will be evaluated on an ongoing basis and adjusted as necessary.

As per the Exchange Agreement, on the Measuring Date, twelve months post-Closing Date as of November 3, 2023, an adjustment mechanism was in place for HTSC common stock. If the Market Price of 63,114,264 HTSC common shares ("Measuring Shares") was below \$1,200,000, additional shares ("True-Up Shares") were to be issued. This issuance aimed to ensure that the total Market Price of both Measuring Shares and True-Up Shares equaled the Measuring Share Price. However, this amount was subject to reduction to \$600,000 if HTSC was identified as a former shell company by at least two broker-dealers before the Measurement Date.

The following table summarizes the consideration given for the Company and the fair values of the assets of liabilities assumed at the acquisition date.

NOTE 19 - COMMITMENTS AND CONTINGENCIES

Litigation

Except as described below, the Company believes it is not presently a party to any litigation the outcome of which, if determined adversely against the Company, would individually or in the aggregate have a material adverse effect on the Company's business, financial condition, cash flows, or results of operations.

DCE has incurred a use tax obligation with the California Department of Tax and Fee Administration ("CDTFA") related to purchases it made from FlexiForce Canada, Inc. ("FlexiForce"), during the period of January 2015 through December 2020. DCE filed a timely Petition for Redetermination against the billings and it is currently in an active administrative appeal with the CDTFA. All collection action on the debt at issue has been withheld as the case proceeds through the appeals process. DCE contends that the applicable tax at issue is sales tax due FlexiForce, not use tax due DCE. CDTFA contends that use tax is due DCE because the items purchased were shipped into California from outside of the state with little to no in-state involvement from FlexiForce with regards to negotiating and/or consummating the sale inside the state. The anticipated date of resolution on the matter is late 2024 to late 2026.

The liability, as of February 16, 2024, consists of the following disputed amounts:

Date of Assessment	October 1, 2020	September 16, 2021
Period	January 2015 through December 2018	January 2019 through December 2020
Tax	415,567	277,975
Interest	164,836	63,452
Penalty	N/A	27,896
Total	580,403	369,323

Contingencies

A novel strain of coronavirus, or COVID-19, spread throughout Asia, Europe and the United States, and was declared to be a pandemic by the World Health Organization. The Company's business has encountered delays, but the Company's long-term business goals have not been significantly impacted by the COVID-19 outbreak. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

As of December 31, 2023, management has conducted a review of the Company's operations in accordance with ASC Topic 450 to identify any pending or threatened legal actions that could have a material adverse impact. No material contingencies were noted except for the following:
