Note 1 - History and Organization

Organization

Raadr, Inc. (the "Company") was organized March 29, 2006 (Date of Inception) under the laws of the State of Nevada, as White Dental Supply, Inc. On December 27, 2012, the Company formed two wholly owned subsidiaries, Choice One Mobile, Inc. and PITOOEY! Mobile, Inc., under the laws of the State of Nevada. On January 7, 2013, the Board of Directors of the Company authorized and a majority of the stockholders of the Company ratified, by written consent, resolutions to change the name of the Company to PITOOEY!, Inc. The name change was effective with the State of Nevada February 7, 2013. On February 6, 2013, the Company formed a wholly owned subsidiary, Rockstar Digital, Inc., under the laws of the State of Nevada. On October 31, 2013, the Company, as part of its settlement agreement with the employees of Rockstar Digital, ceased operations of its wholly owned subsidiary, Rockstar Digital, Inc. On July 29, 2015, the Company changed their name to Raadr, Inc. The name change was effective with the State of Nevada on July 29, 2015.

Business

The Company offers a unique software tool in www.raadr.com that allows individuals to monitor social media activity online. As the digital world of the 21st Century continues to evolve, parents, guardians, and children are faced with challenges and threats not just in the real world, but in the omnipresent realm of Social Media as well. PITOOEY! INC., makers of the proprietary technology application RAADR© have developed a web based tool that provides families with peace of mind when it comes to knowing that children are safe from bullying and predatory behavior unfortunately so prevalent today.

By customizing their own unique monitoring and alert settings, parents and guardians can be alerted when their children's Facebook, Twitter, Instagram and other pertinent social media platforms under scrutiny become posted with inappropriate language. By utilizing customized keywords chosen by the user that are added to an already existing database, parents and guardians can carry a sense of assuredness that the youth they love and are responsible for are safe and acting in a fun, yet appropriate manner.

Going Concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying consolidated financial statements, the Company has limited assets and a working capital deficit of approximately $10.3 million.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is significantly dependent upon its ability, and will continue to attempt, to secure equity and/or additional debt financing. The Company is attempting to conduct private placements of its preferred and common stock to raise proceeds to finance its plan of operation. There are no assurances that the Company will be successful, and without sufficient financing, it would be unlikely for the Company to continue as a going concern.

The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. These conditions raise substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might arise from this uncertainty.

Unaudited and Unreviewed Financial Statements

The accompanying consolidated financial statements have been prepared by the Company's management pursuant to the rules and regulations of the United States Securities and Exchange Commission. These consolidated financial statements have not been audited or reviewed by an independent third party.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The Company's unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Principles of Consolidation

The consolidated financial statements include the accounts of Raadr, Inc., Choice One Mobile, Inc., PITOOEY! Mobile, Inc. and Rockstar Digital, Inc. All significant intercompany balances and transactions have been eliminated. Raadr, Inc., Choice One Mobile, Inc., PITOOEY! Mobile, Inc. and Rockstar Digital, Inc. will be collectively referred herein to as the "Company".

Risks and Uncertainties

The Company has a limited operating history and has not generated revenues from our planned principal operations.

The Company's business and operations are sensitive to general business and economic conditions in the U.S. and worldwide. These conditions include short-term and long-term interest rates, inflation, fluctuations in debt and equity capital markets and the general condition of the U.S. and world economy. A host of factors beyond the Company's control could cause fluctuations in these conditions, including the political environment and acts or threats of war or terrorism. Adverse developments in these general business and economic conditions, including through recession, downturn or otherwise, could have a material adverse effect on the Company's consolidated financial condition and the results of its operations.

The Company currently has limited sales and marketing and/or distribution capabilities. The Company has limited experience in developing, training or managing a sales force and will incur substantial additional expenses if we decide to market any of our current and future products. Developing a marketing and sales force is also time consuming and could delay launch of our future products. In addition, the Company will compete with many companies that currently have extensive and well-funded marketing and sales operations. Our marketing and sales efforts may be unable to compete successfully against these companies. In addition, the Company has limited capital to devote sales and marketing.

The Company's industry is characterized by rapid changes in technology and customer demands. As a result, the Company's products may quickly become obsolete and unmarketable. The Company's future success will depend on its ability to adapt to technological advances, anticipate customer demands, develop new products and enhance our current products on a timely and cost-effective basis. Further, the Company's products must remain competitive with those of other companies with substantially greater resources. The Company may experience technical or other difficulties that could delay or prevent the development, introduction or marketing of new products or enhanced versions of existing products. Also, the Company may not be able to adapt new or enhanced products to emerging industry standards, and the Company's new products may not be favorably received. We also may not have the capital resources to further the development of existing and/or new ones.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Loss Per Common Share

Net loss per share is provided in accordance with ASC Subtopic 260-10. The Company presents basic loss per share ("EPS") and diluted EPS on the face of the statements of operations. Basic EPS is computed by dividing reported losses by the weighted average shares outstanding. Except where the result would be anti-dilutive to income from continuing operations, diluted earnings per share has been computed assuming the conversion of the convertible long-term debt and the elimination of the related interest expense, and the exercise of stock warrants. Loss per common share has been computed using the weighted average number of common shares outstanding during the year.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

As of December 31, 2023 and 2022, respectively, the derivative liabilities are considered a level 2 item; see Note 4.

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items.

Convertible Promissory Notes

Commencing in December 2014 and through September 2018, the Company issued various convertible promissory notes to third parties to be used for operations. In most cases, these convertible promissory notes are convertible upon issuance into a variable number of shares of common stock. Based on the requirements of ASC 815, we determined that a derivative liability was triggered upon issuance due to the variable conversion price. Using the Black-Scholes pricing model, we calculated the derivative liability upon issuance and recorded the fair market value of the derivative liability as a discount to the convertible promissory notes. When a derivative liability associated with a convertible note is in excess of the face value of the convertible note, the excess of fair value of derivative is charged to the statement of operations. The derivative liability is required to be revalued at each conversion event and at each reporting period. The Company doesn't account for the derivative liability until the convertible promissory note is convertible. In addition, these convertible promissory notes include various default provisions in which increase the interest rate to rates ranging from 12% to 35% and at times the principal balance at rates ranging from 5% to 50%. Additionally, most convertible promissory notes have prepayment penalties in which range from 15% to 50%.

In May, June, September, October, November and December 2020, a total of $90,000 in convertible notes were received. The notes bear an interest rate of 10% and mature on April 1, 2021. Legal

On February 6, 2013, we formed a wholly owned subsidiary, Rockstar Digital, Inc. ("Rockstar"), under the laws of the State of Nevada. Rockstar was organized to specialize in internet branding through social media marketing, mobile marketing and iPhone ® app development Company. On October 31, 2013, the Company entered into a settlement agreement with certain former employees to assume responsibility for certain payroll taxes of Rockstar Digital, Inc. ("Rockstar") and assign its ownership of Mobile Application and Transition Services intellectual property rights to Rockstar. In addition, the Company agreed to not assert a claim against certain computer equipment (cost of $28,307) in use at Rockstar. The Company agreed to assume liability for any payroll taxes owed on payroll paid by the Company on behalf of Rockstar's employees. The Company estimated this liability at $30,000 which they have recorded in accrued liabilities as of December 31, 2023 and 2022, respectively

On July 29, 2014, a default judgment was issued against the Company in Circuit Court of the 11th Judicial Circuit in and for Miami-Dade County, Florida. This judgment stems from a legal filing by a consulting firm, with which the Company entered into an agreement for consulting services, on February 20, 2013. On September 25, 2013, the Company cancelled the agreement because it determined that services had not been provided by consulting firm, as promised per the agreed-upon contract terms. In November 2014, we entered into a settlement agreement whereby the Company shall pay the plaintiff $13,246, in monthly installments of $1,472. In addition, the Company issued options to purchase 20 shares of the Company's common stock at an exercise price of $8,750 expiring in two years. The required payments on the settlement have not been made, however, the full amount of the liability has been recorded within accrued liabilities as of December 31, 2023 and 2022, respectively.

On April 5, 2017, the Circuit Courts within the Twelfth Judicial Circuit of Florida entered an order approving the stipulation of the parties (the "Stipulation") in the matter of Northbridge Financial, Inc. ("NBF") v. Raadr Inc. Under the Stipulation, the Company agreed to issue, as settlement of liabilities owed by the Company to NBF in the aggregate amount of $272,250 (the "Claim Amount") and the following:

(a) In one or more tranches as necessary, 7,000 shares of common stock (the "Initial Issuance") and $27,500 in fees.

(b) Through the Initial Issuance and any required additional issuances, that number of shares of common stock with an aggregate value equal to the Purchase Price (defined under the Stipulation as the market price (defined as the lowest closing bid price of the Company's common stock during the valuation period set forth in the Stipulation) less the product of the Discount (equal to 50%) and the market price.

(c) If at any time during the valuation period the closing bid price of the Company's common stock is below 90% of the closing bid price on the day before an issuance date, the Company will immediately cause to be issued to BF such additional shares as may be required to affect the purposes of the Stipulation.

(d) Notwithstanding anything to the contrary in the Stipulation, the number of shares beneficially owned by NBF will not exceed 4.99% of the Company's outstanding common stock.

In connection with the Settlement Shares, the Company relied on the exemption from registration provided by Section 3(a)(10) under the Securities Act.

The Company cannot reasonably estimate the amount of proceeds NBF expects to receive from the sale of these shares which be used to satisfy the liabilities. Thus, the Company accounts for the transaction as the shares are sold and the liabilities are settled. All amounts are included within accounts payable. Shares in which are held by NBF at each reporting period are accounted for as issued but not outstanding. During the year ended December 31, 2017, the Company issued 6,263 shares of common stock in settlement of $219,250 in accounts payable. The Company valued the common stock issued at $847,250 based upon the closing market price of the common stock on the settlement date. The difference between the fair market value of the common stock and accounts payable relieved of $628,000 was recorded as additional interest expense. As of December 31, 2023 and 2022, respectively, amounts payable to NBF included within accounts payable were $53,000.
