4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

NHYF is now on a transformative path, signaling a compelling strategic direction. The Company's transition under new leadership signifies a dynamic shift towards innovation and growth, underpinned by his extensive knowledge and experience in medical technology and intellectual property development and commercialization. Central to NHYF's transformation is its commitment to harness the power of Artificial Intelligence (AI) in healthcare. AI-driven medical technology is set to revolutionize the field, promising faster, more accurate diagnoses; personalized treatment plans, and improved patient outcomes. AI's potential to transform the medical field is undeniable, offering promise of more efficient and effective healthcare for all. By leveraging machine learning algorithms, AI can analyze vast amounts of medical data, from patient records to medical images and by identifying patterns and insights that may escape human detection. This capability can lead to earlier and more accurate diagnoses, personalized treatment plans and improved patient outcomes. Importantly, AI-powered technologies can also enhance patient engagement, provide 24/7 support and help individuals manage their health proactively.

To assist in funding operations, the Company entered into a Share Purchase and Subscription Agreement with Global Corporate Finance Inc. ("GCF"), an esteemed private family office located in New York City, to provide working capital that will underpin the Company's growth. The Securities Purchase and Subscription Agreement will enable the Company to draw up to US\$5,000,000 at its discretion over a period of 30 months. In return for each drawdown, the Company will issue common stock at discount of 9% to the Company's average daily volume weighted stock price during the five (5) consecutive trading days immediately preceding the date of the Company's drawdown request.

B. List any subsidiaries, parent company, or affiliated companies.

N/A

C. Describe the issuers' principal products or services.

NHYF has executed one Option agreement and two Memorandums of Understanding to evaluate investment in and/or the further development of the following AI-based medical technology:

- **Life-Saving Innovation:** AI-based intellectual property for the fast and early identification of life threatening pulmonary embolisms using CAT scan detection software. A pulmonary embolism is a medical emergency; it may be fatal causing death. Pulmonary embolism affects around 900,000 people in the U.S. every year . The AI-powered technology aims to improve the radiologic processing time and reading performance during emergency evaluations.
- **Facial Analysis to objectively screen for PTSD:** AI-based facial analysis technology to objectively screen for post-traumatic stress disorder. The technology will analyze and interpret facial data, the result of which will be seen immediately by the user – with an option of sending it to their medical practitioner. This innovative approach will empower individuals and their healthcare providers to proactively manage mental health. The incidence of mental illness in the USA is well known; and the cost is estimated at \$300Billion annually . A quick and objective assessment of PTSD is required by patients and healthcare professionals alike.
- **Evolution in Evaluation and Treatment of Pain Management:** A breakthrough new AI program (Chatbot) to simulate conversation with individuals suffering from chronic pain. The program will be designed to immediately address the pain sufferer's acute and chronic pain and provide viable options to consider as they search for a medical personnel who has the appropriate expertise. It will also create a written dialogue that can be reviewed by medical practitioners and may become an integral part of the pain sufferer's comprehensive pain management plan.

NHYF's vision extends beyond AI, encompassing innovative nutraceutical solutions. The company is poised to launch an anti-anxiety product - the first of its nutritional supplements that can be added to medical protocols for the long-term management of anxiety. The market for nutraceuticals in the USA has been experiencing robust growth, driven by increasing consumer awareness of the link between diet, health, and wellness. With a growing emphasis on preventive healthcare, the demand for dietary supplements and functional foods that offer potential health benefits beyond basic nutrition continues to expand, creating a dynamic landscape for the Company's nutraceutical businesses to flourish.

5) **Issuer's Facilities**

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

The company leases a shared office space in Sheridan, Wyoming.

6) **All Officers, Directors, and Control Persons of the Company**

NATURAL HARMONY FOODS, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

1. Nature of operations

Natural Harmony Foods, Inc. aims to develop Artificial Intelligence-based medical technology to improve patient outcomes. Artificial Intelligence can analyze vast amounts of medical data and can identify patterns and insights that may escape human detection. This capability may lead to earlier and more accurate diagnoses and improved patient outcomes. The company also aims to market nutritional supplements known as nutraceuticals that may assist in the long-term management of health and wellness.

2. Summary of significant accounting policies

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant assumptions and estimates relate to the valuation of equity issued for services. Actual results could differ from these estimates.

Revenue Recognition

The Company is pre-revenue, however, the Company will recognize revenue when received in accordance with Accounting Standards Update ("ASU") 2014-09, "*Revenue from contracts with customers*," (Topic 606). Revenue is recognized when a customer obtains control of promised goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods. The Company applies the following five-step model in order to determine this amount: (i) identification of the promised goods in the contract; (ii) determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company only applies the five-step model to contracts when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods or services it transfers to the customer. Once a contract is determined to be within the scope of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606 at contract inception, the Company reviews the contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company expects to recognize revenues as the amount of the transaction price that is allocated to the respective performance obligation when the performance obligation is satisfied or as it is satisfied.

Fair Value Measurements and Fair Value of Financial Instruments

The Company adopted ASC Topic 820, *Fair Value Measurements*. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2: Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3: Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The estimated fair value of certain financial instruments, including all current liabilities are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

Fair Value of Financial Instruments

ASC subtopic 825-10, *Financial Instruments* ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying value of cash, accounts payable and advances from related party when reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed. The Company follows ASC subtopic 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10") and ASC 825-10, which permits entities to choose to measure many financial instruments and certain other items at fair value.

Cash and Cash Equivalents

For the purposes of the Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss, capital loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest and penalties related to unrecognized tax benefits as a component of general and administrative expenses. Our federal tax return and any state tax returns are not currently under examination.

The Company has adopted FASB ASC 740-10, *Accounting for Income Taxes*, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually from differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to

affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Net Income (Loss) Per Common Share

The Company computes loss per common share, in accordance with FASB ASC Topic 260, *Earnings Per Share*, which requires dual presentation of basic and diluted earnings per share. Basic income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding during the period. Diluted income or loss per common share is computed by dividing net income or loss by the weighted average number of common shares outstanding, plus the issuance of common shares, if dilutive, that could result from the exercise of outstanding stock options and warrants.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Subsequent Events

In accordance with ASC 855, *Subsequent Events*, the Company evaluated subsequent events through the consolidated financial statements were available for issue.

3. Going concern

The accompanying financial statements have been prepared on a going concern basis. For the year ended December 31, 2023, the Company had a net loss of \$471,099, had \$100 in working capital, accumulated deficit of \$2,920,307 and stockholders' deficit of \$444,694. These matters raise doubt about the Company's ability to continue as a going concern for a period of one year from the date of this filing. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due, to fund possible future acquisitions, and to generate profitable operations in the future. Management plans to provide for the Company's capital requirements by continuing to issue additional equity and debt securities. The outcome of these matters cannot be predicted at this time and there are no assurances that, if achieved, the Company will have sufficient funds to execute its business plan or generate positive operating results. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

To help mitigate the abovementioned going concern risk, on October 21, 2023, the Company entered into a Securities Purchase and Subscription Agreement with Global Corporate Finance Inc. ("GCF"), an esteemed private family office located in New York City, to provide working capital that will underpin the Company's growth. The Securities Purchase and Subscription Agreement will enable the Company to draw up to US\$5,000,000 at its discretion over a period of 30 months. In return for each drawdown, the Company will issue common stock at a discount of 9% to the Company's average daily volume weighted stock price during the five (5) consecutive trading days immediately preceding the date of the Company's drawdown request. This agreement is subject to the Company being able to deliver DWAC (Deposit Withdrawal at Custodian) stock to GCF.

4. Commitments and contingencies

During the normal course of business, the Company may be exposed to litigation. When the Company becomes aware of potential litigation, it evaluates the merits of the case in accordance with FASB ASC 450-20-50, *Contingencies*. The Company evaluates its exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If the Company determines that an unfavorable outcome is probable and can be reasonably estimated, it establishes the necessary accruals. As of December 31, 2023 and 2022, the Company is not aware of any contingent liabilities that should be reflected in the financial statements.

5. Related party transactions

The Company's operations are being funded by its CEO and Preferred Shareholder, Mr. Solitario. As at December 31, 2023 Mr Solitario has contributed \$110,744 to cover operating expenses of the Company. Mr Solitario provides the funds on an interest-free basis and repayable as and when the Company has sufficient funds to do so. In addition, Mr Solitario earned \$150,000 in compensation expense during the year ended December 31, 2023, which is included in Accounts Payable on the accompanying balance sheet.

6. Income Taxes

The Company adopted the provisions of uncertain tax positions as addressed in ASC 740-10-65-1. As a result of the implementation of ASC 740-10-65-1, the Company recognized no increase in the liability for unrecognized tax benefits. As of December 31, 2023 the Company had net operating loss carry forwards of approximately \$2,920,000 that may be available to reduce future years' taxable income in varying amounts through 2030. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has not recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

The valuation allowance at December 31, 2023 was approximately \$99,000. The net change in valuation allowance during the year ended December 31, 2023 was \$99,000. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized.

The components of the net deferred tax asset (liability) at December 31, 2022 and 2023 and the statutory tax rate, the effective tax rate and the elected amount of the valuation allowance are indicated below:

	December 31, 2023	December 31, 2022
Net operating loss carry-forward	\$ 99,000	\$ -
Valuation Allowance	\$ (99,000)	-
Net Deferred Tax Asset (Liability)	\$ -	\$ -

Income tax benefit resulting from applying statutory rates in jurisdictions in which we are taxed (Federal and State of Florida) differs from the income tax provision (benefit) in our financial statements. The following table reflects the reconciliation for the years ended December 31, 2023 and 2022:

	December 31, 2023	December 31, 2022
Benefit at federal and statutory rate	(21%)	(21%)
Change in valuation allowance	21%	21%
Effective tax rate	0	0
