A Supplemental Information Report was filed as of March 9, 2023, and discloses a change in the Shell Status of Plandai Biotechnology, Inc. ("Plandai"). Previously, Plandai disclosed that it was a shell company in its Alternative Reporting Disclosures with OTC Markets. As of the effective date of March 9, 2023, Plandai was no longer a shell company (see discussion below).

By virtue of a Binding Memorandum of Understanding with Good Salt, LLC, a Florida limited liability company ("Good Salt") (included herewith as an exhibit), Plandai and Good Salt agreed to formalize a share exchange agreement whereby (i) Plandai would exchange restricted unregistered common shares, and separately, (ii) Plandai's majority shareholder would exchange Series "A" Preferred Common Stock with Good Salt, in exchange for (iii) all of the authorized and issued limited liability company interests of Good Salt.

On August 1, 2023, there was a recession of the material definitive agreement with ByoPlant: The material definitive agreement, which was initially entered into on May 16, 2023, outlined the terms and conditions for the acquisition of the Company by Good Salt. However, despite diligent efforts and ongoing communications, conditions subsequent to the closing were unmet, and essential considerations were not settled. As a result, Plandai had no choice but to initiate the rescission process. The rescission will render the material definitive agreement null and void, and both parties will revert to their pre-agreement status.

Per a Settlement Agreement drafted as of November 20, 2023, the Company has agreed to settle its debt with Dr. Giles Edward Duffield which the Company had entered into on December 31, 2015, at which time the Company entered into a note payable with Dr. Giles Edward Duffield for \$52,500 that matured fifteen months from the date of payment of Consideration. The note is subject to 15% interest annually. As of September 30, 2023, there was \$43,500 of principal, and \$54,049.75 of interest remains outstanding. The settlement calls for the Company to provide Dr. Duffield with a cash payment of \$35,000 upon the subsequent closing of the anticipated sale of the Plandai corporate shell to a qualified buyer, the closing expected to occur within 30 days. The settlement also calls for Company to issue Dr. Duffield 500,000 shares of common stock. The Settlement Payment will be made within ten (10) days of the closing of the sale of Plandai, and the funds will be delivered to counsel for Duffield. The settlement agreement is pending signatures, but the terms have been orally confirmed and agreed to per the Company's management.

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

All shares of Common Stock shall be of junior rank to all Series A Preferred Shares.

2. **For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

These Series A Preferred Shares shall not bear dividends.

These Series A Preferred Shares are convertible to six hundred shares of the Company's common stock for each one share of preferred stock. These conversions can happen at any time on or after the earlier of (i) 30 days after the Issuance Date or (ii) the date that a registration statement covering the resale of Common Stock issued upon conversion of the Series A Preferred Share is declared effective by the Securities Exchange Commission (the SEC).

At every meeting of stockholders of the Company, the Series A Preferred Stock shall be entitled to voting rights equal, in aggregate, to the total number of then issued and outstanding shares eligible to vote on any manner, plus one additional vote.

In the event of any voluntary or involuntary liquidation, dissolution, or winding up of the Company, the holders of the Series A Preferred Shares shall be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders (the "Preferred Funds"), before any amount shall be paid to the holders of any of the capital stock of the Company of any class junior in rank to the Series A Preferred Shares in respect of the preferences as to the distributions and payments on the liquidation, dissolution, or winding up of the Company, an amount per Series A Preferred Shares equal to the Stated Value.

All shares of Common Stock shall be of junior rank to all Series A Preferred Shares.

3. **Describe any other material rights of common or preferred stockholders.**

N/A

4. **Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.**

Plandai Biotechnology, Inc

Notes to the Financial Statements

For the period ended September 30, 2024

NOTE 1 - ORGANIZATION AND OPERATIONS

Current Operations

Plandai Biotechnology, Inc. (“ PLPL ” or the “ Company “), a Nevada corporation, is a publicly quoted company. The Company's current operations are conducted at offices provided without charge in San Diego, California. PLPL does not have any ownership interest in the offices and there is no lease for the offices. The Company expects to utilize these offices indefinitely, pending the Company's possible merger with another entity.

PLPL had previously owned intellectual properties related to its prior research, development and production of botanical extracts including, but not limited to: trademarks, trade secrets, and product formulations for green tea and citrus products from discontinued operations. The Company's intellectual properties were the result of research and development endeavors with North-West University in Potchefstroom, South Africa, and the Company's former Senteeko Tea Estate located in Mpumalanga, South Africa.

The Company holds no current assets, and holds no other assets, as of December 31, 2023, and June 30, 2023. There was no revenue produced within the period, as entity was acting as a shell for the period. Expenses incurred in period were related to prorated accrued interest on convertible debt.

A Supplemental Information Report was filed as of March 9, 2023, and discloses a change in the Shell Status of Plandai Biotechnology, Inc. ("Plandai"). Previously, Plandai disclosed that it was a shell company in its Alternative Reporting Disclosures with OTC Markets. As of the effective date of March 9, 2023, Plandai was no longer a shell company (see discussion below).

By virtue of a Binding Memorandum of Understanding with Good Salt, LLC, a Florida limited liability company ("Good Salt") (included herewith as an exhibit), Plandai and Good Salt agreed to formalize a share exchange agreement whereby (i) Plandai would exchange restricted unregistered common shares, and separately, (ii) Plandai's majority shareholder would exchange Series "A" Preferred Common Stock with Good Salt, in exchange for (iii) all of the authorized and issued limited liability company interests of Good Salt.

On August 1, 2023, there was a rescission of the material definitive agreement with ByoPlant: The material definitive agreement, which was initially entered into on May 16, 2023, outlined the terms and conditions for the acquisition of the Company by Good Salt. However, despite diligent efforts and ongoing communications, conditions subsequent to the closing were unmet, and essential considerations were not settled. As a result, Plandai had no choice but to initiate the rescission process. The rescission will render the material definitive agreement null and void, and both parties will revert to their pre-agreement status.

Gaelic for “plant food,” Plandai historically engaged in the research and development of all-natural nutraceutical ingredients and unlocking their pharmaceutical potential. The Company invested in research and development and developed valuable intellectual property in delivery mechanisms for the delivery of therapeutic level of essential plant-based nutrients to human cells. The IP developed and owned by the Company includes targeted products that contain plant-curative properties. The Company's proprietary trade secret extraction methods allow plant nutrients to be properly absorbed and remain in the system long enough for a therapeutic effect. The Company's technology restructures plant

nutrients into a highly purified form that the body can more easily process while also increasing their absorption into the blood plasma and the length of time those nutrients remain present and active in your system. The Company produced and trademarked products associated with its extraction and delivery systems, including “Phytofare,” a product with all of the phytonutrients in a stable, highly bioavailable active extract.

Business Plan

PLPL has closed a transfer of control to San Global Dining Ltd and has changed management control. San Global Dining Ltd is a catering operation in Taiwan.

Corporate History

The Company was incorporated in the State of Nevada on February 24, 2004. PLPL has since remained incorporated in Nevada. The Company operated as a shell company up until March 9, 2023, when the Company changed to non-shell status via a pending share exchange agreement. For more details, please see “Current Operations” disclosure above.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim unaudited financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The unaudited financial statements include all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary in order to make the condensed financial statements not misleading. Notes to the financial statements which would substantially duplicate the disclosures contained in the annual financial statements for the most recent fiscal period, as reported in the Annual Report, have been omitted.

Financial Instruments

Pursuant to ASC Topic 820, Fair Value Measurements, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument’s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

- Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.
- Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of June 30, 2024, and June 30, 2023, the Company's held \$0 in cash.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Income Taxes

The Company accounts for income taxes using the asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. In estimating future tax consequences, the Company generally considers all expected future events other than enactments of changes in the tax law. For deferred tax assets, management evaluates the probability of realizing the future benefits of such assets. The Company establishes valuation allowances for its deferred tax assets when evidence suggests it is unlikely that the assets will be fully realized. The Company recognizes the tax effects of an uncertain tax position only if it is more likely than not to be sustained based solely on its technical merits as of the reporting date and then only in an amount more likely than not to be sustained upon review by the tax authorities. Income tax positions that previously failed to meet the more likely than not threshold are recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more likely than not threshold are derecognized in the first subsequent financial reporting period in which that threshold is no longer met. The Company classifies potential accrued interest and penalties related to unrecognized tax benefits within the accompanying consolidated statements of operations and comprehensive income (loss) as income tax expense.

Beneficial Conversion Feature

The Company measures its convertible debt using a non-detachable conversion feature known as a beneficial conversion feature, or BCF. A convertible instrument contains a BCF when the conversion price is less than the fair value of the shares into which the instrument is convertible at the commitment date. From time to time, the Company may issue convertible notes that may contain a beneficial conversion feature. A beneficial conversion feature exists on the date a convertible note is issued when the fair value of the underlying common stock to which the note is convertible into is in excess of the remaining unallocated proceeds of the note after first considering the allocation of a portion of the note proceeds to the fair value of the warrants, if related warrants have been granted. The intrinsic value of the beneficial conversion feature is recorded as a debt discount with a corresponding amount to additional paid-in capital. The debt discount is amortized to interest expense over the life of the note using the effective interest method.

Derivative Financial Instruments

The fair value of derivative instruments is recorded and shown separately under liabilities. Changes in the fair value of derivatives liability are recorded in the consolidated statement of operations under other (income) expense.

Our Company evaluates all of its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. For stock-based derivative financial instruments, the Company uses Black-Scholes Option Pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date.

On August 5, 2020, the FASB issued ASU 2020-06 which simplifies the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. The ASU is part of the FASB's simplification initiative, which aims to reduce unnecessary complexity in U.S. GAAP.

Stock-based Compensation

The Company has share-based compensation plans under which employees, consultants, suppliers, and directors may be granted restricted stock, as well as options and warrants to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost to employees is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period under ASC 718. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock to non-employees and other parties are accounted for in accordance with the ASC 718.

Basic Income (Loss) Per Share

Under the provisions of ASC 260, "Earnings per Share," basic loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that would then share in the income.

Related Party Transactions

Management has evaluated subsequent events pursuant to the requirements of ASC Topic 850 and has determined that no material subsequent events exist through the date of this filing apart from the following:

None noted.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements, the Company has incurred recurring net losses since its inception and has raised limited capital. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The financial statements do not include any adjustment relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company is taking certain steps to provide the necessary capital to continue its operations. These steps include but are not limited to: 1) focus on our new business model and 2) raising equity or debt financing. However, there can be no assurance that the Company will be successful in its efforts.

NOTE 4 – CONVERTIBLE NOTES

On September 21, 2016, the Company entered into a convertible note payable with EMA Financial, LLC for \$57,500 that matured on September 21, 2017. The note is subject to 10% interest annually and is convertible to common shares at 50% of lowest traded price during 25 consecutive trading days prior to the conversion date. As of June 30, 2022, all principal had been converted, and \$38,397.30 of interest remained outstanding.

On February 16, 2018, the Company entered into a convertible note payable with Adar Bays, LLC for \$148,753 that matured on February 16, 2019. The note is subject to 8% interest annually and is convertible to common shares at a conversion price equal to the lower of \$0.05 per share or 60% of the lowest trading price for the twenty prior trading days including the day upon which a Notice of Conversion is received by the Company.

On March 1, 2018, the Company entered into a convertible note payable with Adar Bays, LLC for \$25,000 that matured on March 1, 2019. The note is subject to 8% interest annually and is converted to common shares at a conversion price equal to the lower of \$0.05 per share or 60% of the lowest trading price for the twenty prior trading days including the day upon which a Notice of Conversion is received by the Company.
