Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) and reflect all adjustments, consisting of normal recurring adjustments, which managements believes are necessary to fairly present the financials positions, results of operations and cash flow of the company as of and for the periods ended June 30, 2025 & December 2024. The consolidated financial statements include the accounts of the company and its wholly owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation.

Principles of Consolidation

The consolidated financial statements include the accounts of JP 3E Holdings Inc., and its wholly owned subsidiaries. Intercompany transactions and balances have been eliminated.

Revenue Recognition

To determine revenue recognition for arrangements that are within the scope of Accounting Standards Codification (“ASC”) Topic 606, Revenue from Contracts with Customers, the Company performs the following five steps: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when (or as) the entity satisfies a performance obligation. The Company only applies the five-step model to arrangements that meet the definition of a contract under Topic 606, including when it is probable that the entity will collect the consideration it is entitled to in exchange for the goods or services it transfers to the customer.

Use of Estimates

The preparation of consolidated financials statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual events and results could materially differ from those assumptions and estimates.

Property & Equipment

Property and equipment are stated at cost and include a computer and web domain. Depreciation is calculated by the straight-line method over the estimated useful lives of depreciable assets, which is 5 years. Cost and accumulated depreciation for property retired or disposed of are removed from the accounts, and any resulting gain or loss is included in earnings. Expenditures for maintenance and repairs are charged to expense as incurred.

Impairment of Long Lived Assets

In accordance with ASC 360-10, the Company, on a regular basis, reviews the carrying amount of long lived assets for the existence of facts or circumstances, both internally and externally, that suggest impairment. The Company determines if the carrying amount of a long-lived asset is impaired based on anticipated undiscounted cash flows, before interest, from the use of the asset. In the event of impairment, a loss is recognized based on the amount by which the carrying amount exceeds the fair value of the asset. Fair value is determined based on the appraised value of the assets or the anticipated cash flows from the use of the asset, discounted at a rate commensurate with the risk involved. There were no impairment charges recorded during the periods ended June 30, 2025 & December 31, 2024.

Earnings (Loss) per Share.

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to shareholders' by the weighted average number of shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except the denominator is increased to include the number of additional shares that would have been outstanding if the potential shares had been issued and if the additional shares were dilutive. Diluted earnings (loss) per share is presented on the statements of operations.

Cash and Cash Equivalents

For purpose of the consolidated statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax basis of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

The Company's effective income tax rate for the periods June 30, 2025 & December 31, 2024 from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. This guidance also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The Company's policy is to record interest and penalties on uncertain tax provisions as income tax expense. As of June 30, 2025 & December 31, 2024, the Company has not accrued interest or penalties related to uncertain tax positions. Additionally, past tax years remain open to examination by the major taxing jurisdictions to which the Company is subject. The Company is preparing and reviewing information for tax returns for past years. Due to the Company's lack of revenue since inception management does not believe that there is any income tax liability for past years.

(Unaudited)

There are currently no open federal or state tax years under audit. Upon the attainment of taxable income by the Company, management will assess the likelihood of realizing the tax benefit associated with the use of the carry forwards. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. As of June 30, 2025 and December 31, 2024, the Company's only significant deferred income tax asset was a cumulative estimated net tax operating loss of \$10,727,181 and \$10,369,703, respectively, that is available to offset future taxable income, if any, in future periods, subject to expiration and other limitations imposed by the Internal Revenue Service. Management has considered the Company's operating losses incurred to date and believes that a full valuation allowance against the deferred tax assets may apply going forward in the future of the company.

Recent Accounting Pronouncements

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update\ (ASU) 2023-09, "Income Taxes (Topic 740) – Improvements to Income Tax Disclosures," which requires that certain information in a reporting entity's tax rate reconciliation be disaggregated and provides additional requirements regarding income taxes paid. The amendments are effective for annual periods beginning after December 15, 2024, with early adoption permitted, and should be applied either prospectively or retrospectively. Management is currently evaluating this ASU to determine its impact on the Company's disclosures. Adoption of the update will not impact the Company's financial position, results of operations or liquidity. The Company considers the applicability and impact of all ASUs.

Note 3. Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. Currently, the Company has incurred operating losses, and as of June 30, 2025 the Company also had a working capital deficit and an accumulated deficit. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management believes that the Company's capital requirement will depend on many factors including the success of the Company's development efforts and its efforts to raise capital. Management also believes the Company needs to raise additional capital for working capital purposes. There is no assurance that such financing will be available in the future. The conditions described above raise substantial doubt about our ability to continue as a going concern. The consolidated financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 4: Commitments and Contingencies

The Company is not currently a party to legal proceedings, other than routine disputes and claims from time to time arising in the ordinary course of its business. While the ultimate outcome of the pending proceedings, disputes or claims, and any resulting impact on the Company cannot be predicted with certainty, the Company's management believes that none of these matters, if ultimately decided adversely, will have a material adverse effect on the Company's financial condition, results of operations or cash flows. The Company's assessment is based on information known about the pending matters and its experience in contesting, litigating and settling similar matters. Actual outcomes could differ materially from the Company's assessment. The Company record reserves for contingencies related to outstanding legal proceedings, disputes or claims when information available indicates that a loss is probable, and the amount of the loss can be reasonably estimated.
