1-800-939-6738 (phone)

1-800-939-6738 (FAX, same as direct
phone)

III. The jurisdictions and date of issuer's incorporation or organization:

Incorporated in the State of Delaware; October, 18th,
1995

PART B: Share Structure

IV. The exact title class and description of securities outstanding, number of shares and the total amount outstanding for each class of securities authorized:

Common Stock – CUSIP number 08771W 10 9, Symbol “BEEN.PK”

Voting common stock; 10,000,000,000 shares authorized; 2,193,266,672 shares and issued and outstanding.

Preferred Stock:

Series A voting preferred stock; 5,000,000,000 shares authorized; 0 shares issued and outstanding

V. Par or stated value and description of the security

- A.** Common Stock; \$.0001 par value
Series A voting preferred stock, \$.0001 par value; no stated face value

B. 1. Common Stock Dividends and other rights. No special rights and to date no dividends. 1 vote per share.

2. Preferred Stock Description “The Board of Directors shall be authorized to fix pre-emptive rights in the Class A Convertible Preferred Stock, or any series issued thereof.”

Section 1. Issuer: Better Environment Concepts Inc., a Delaware corporation (the “Company”).

Section 2. Designated Series: Class A Convertible Preferred Stock.

Section 3. Par Value: \$.0001

Section 4: Maximum Number of Shares in Series: 5,000,000,000 (the “Shares”).

Section 5: Issue Price: \$.0001 per Share or such other and higher value as the Company may from time to time designate.

Section 6: Dividends: Holders of the Shares shall be entitled to such dividends as the Board of Directors may declare from time to time, payable from the funds of the Company lawfully available therefore. Any prior accrued dividends are hereby waived and forever discharged.

Section 7: Liquidation Preference:

7.1 Distribution Amount: In the event of a voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of the Shares are entitled to receive out of the assets of the Company available for distribution to stock holders, before any other distribution of assets is made to holders of common stock or other stock ranking junior to the Shares as to liquidation, a liquidating distribution as to each Share in an amount equal to the Issue Price. If upon voluntary or involuntary liquidation, dissolution or winding up of the Company, the amounts payable with respect to the Shares are not paid in full, the holders of the Shares will share ratably in such distribution of assets of the Company in proportion to the full respective preferential rights to which they are entitled. After payment of the full amount of the liquidating distribution to which they are entitled, the holders of the Shares will not be entitled to any further participation in any distribution of assets by the Company.

7.2 Consolidation or Merger: A consolidation or merger of the Company with or into any other corporation or corporations or a sale of all or substantially all of the assets of the Company, or a series of related transactions in which more than 50% of the voting power of the Company is disposed of, shall **not** be deemed to be a liquidation, dissolution or winding up within the meaning of this Section 7.

7.3 Non-cash Distributions. If any of the assets of the Company are to be distributed other than in cash under this Section 7, then the Board of Directors of the Company shall promptly engage independent competent appraisers to determine the value of the assets to be distributed to the holders of the Shares. The Company shall, upon receipt of such appraiser’s valuation, give prompt written notice to each holder of Shares of the Appraiser’s valuation.

Section 8. Conversion: The holders of the Shares shall have conversion rights, as follows (the “Conversion Rights”):

8.1 Conversion Rate. Subject to the limitations set forth below, each Share shall be convertible, at the option of either the Company or the holder of the Shares, at any time after the date of issuance of such Shares, at the office of the Company or any transfer agent for such Shares, into five thousand (5,000) shares of the Company’s common stock for no additional consideration.

8.2 Availability of Common Stock on Conversion. The Company shall keep in reserve at all times sufficient shares of Common Stock to satisfy conversion of all issued and outstanding Shares. No Shares shall be convertible by the holder thereof unless on the date of the proposed conversion the Company shall have available shares of Common Stock which are authorized, un-issued and not reserved for any other event or contingency, in an amount sufficient to convert all of the Shares issued and outstanding on the date of the proposed conversion. If the Company does not keep sufficient shares in reserve, it shall amend its Articles of Incorporation, or otherwise adjust its capital structure, so as to provide for conversion of the Shares, as soon as practicable after receiving written demand for conversion from a holder of the Shares. Non-availability of common stock sufficient to satisfy conversion of the Shares shall not in any way affect the Voting Rights of the Shares. Such Voting Rights of the shares are additional to any conversion rights the Shares have. In the event of a reverse split of the Company's common stock the rights and ownership of the preferred shares shall not be altered and shall remain in tact and in control of the interest and voting rights of the Company.

8.3 Mechanics of Conversion. No fractional shares of Common Stock shall be issued upon conversion of the Shares. The number of Shares of Common Stock to be issued shall be rounded up to the next whole share. Any conversion of Shares pursuant to this Section by any person shall be done on an aggregate basis taking into account all Shares held by such person (i.e., rounding up shall occur only once for each person). Before any holder of Shares shall be entitled to convert the same into whole shares of Common Stock, such holder shall surrender the certificate or certificates therefore, duly endorsed, at the office of the Company or any transfer agent for the Shares. Before any conversion of Shares, the holder of the Shares shall give written notice to the Company at such office that said holder elects to convert the same, and shall state therein the name in which said holder wishes the certificate or certificates for shares of Common Stock to be issued, as well as the address where such certificates shall be sent. The Company shall, as soon as practicable thereafter, issue and deliver to such address and to such holder of Shares, or to said holder's nominee or nominees, a certificate or certificates for the number of shares of Common Stock to which said holder shall be entitled. Except as set forth in this Section 8, such conversion shall be deemed to have been made immediately prior to the close of business on the day of such surrender of Shares to be converted, and the person or persons entitled to receive the shares of Common Stock issuable upon such conversion shall be treated for all purposes as the record holder or holders of such shares of Common Stock on such date. Upon conversion of only a portion of the number of Shares represented by a certificate so surrendered for conversion, the Company shall issue and deliver to the holder of the certificate so surrendered for conversion, or such holder's nominee, at the expense of the Company, a new certificate covering the number of Shares representing the unconverted portion of the certificate so surrendered.

8.4 Adjustments to Conversion Ratio.

(a) Adjustments for Combinations or Consolidation of Stock. There shall be no adjustments made for any combination or consolidation of the Company's stock, whether such stock be common or preferred stock. The conversion ratio shall remain the same under all circumstances.

(b) Adjustments for Merger or Reorganization, etc. There shall be no adjustments made to

the conversion ratio in the case of any merger of the Company with or into another company or the conveyance of all or substantially all of the assets of the Company into another company.

(c) Adjustments for Reverse Splits. In the event that the Company declares a reverse split of any ratio, there shall be no adjustment to the number of preferred shares issued or outstanding.

8.5 Transfer Costs. The Shareholder shall pay any and all documentary stamp and other transactional taxes attributable to the issuance or delivery of shares of Common Stock upon conversion of any Shares.

8.6 Registration. If any shares of Common Stock to be reserved for the purpose of conversion of Shares require registration or listing with, or approval of, any governmental authority, stock exchange or other regulatory body under any federal or state law or regulation or otherwise, before such shares may be validly issued or delivered upon conversion, the Company may, in its sole discretion, at its expense, endeavor to secure such registration, listing or approval, as the case may be. All shares of Common Stock issuable upon conversion under this Section 8 shall be issued in unregistered form as “restricted securities” under the Securities Act of 1933, as amended; provided, however, that the Company shall have the right—in its sole discretion—to register such shares of Common Stock prior to issuance.

8.7 Status of Shares. All shares of Common Stock issued upon conversion of the Shares will upon issuance by the Company be validly issued, fully paid, non-assessable and free from all taxes, liens and charges with respect to the issuance thereof.

8.8 Cancellation of the Shares: Upon conversion of any Shares into Common Stock, said converted Shares shall be cancelled and not thereafter be re-issued by the Company as Shares but shall instead be restored to the status of authorized but un-issued shares of preferred stock of the Company undesignated as to series.

Section 9. Super Voting Rights: The holders of the Shares shall be entitled to notice of any shareholders’ meeting and to vote upon any matter submitted for a vote (or a written consent to action without a meeting) by the holders of the Company’s preferred or common stock. Each share of Class A Convertible Preferred Stock shall be entitled to Five thousand (5,000) votes on all matters presented to the stockholders, including the election of directors. The holders of the Preferred Shares may take action without a meeting, and without sending notice of a meeting to other holders of the Shares, if the holders of a majority of Preferred Shares then outstanding execute a written consent to action without a meeting.

a. It is also ratified by the Board that the majority of the votes cast by the Preferred Share holders will control all actions of the Company and will supersede the votes of the Common Stock holders.

Section 10. Notices: Any notice required by the provisions of the foregoing paragraphs to be given to the holders of Shares shall be deemed given if deposited in the United States mail, postage prepaid, and addressed to each holder of record at his address appearing on the books of the Company.

Section 11. Amendments: Upon receiving either (1) a valid action of the Company's Board of Directors or (2) the consent of the holders of at least a majority of the Preferred Shares then outstanding, the Company may amend or modify any of the foregoing rights, privileges and preferences with respect to the Shares.

4. Describe any provision in the issuer's charter or by-laws that would delay, defer or prevent a change of control of the issuer. None, other than as stated in the description of the Preferred above.

VIII. The nature of the company's business:

A. Business Development

Better Energy Concepts Inc., operates as an energy consulting company in the United States with a focus on the mid- Atlantic region. It acquires controlling interests in or participates in the creation of those projects while providing financial, management, and technical support to development stage businesses, primarily in the green or alternative energy industry.

Better Energy Concepts is a venture capital and consulting company promoting several conventional and renewable energy projects in South Carolina, with the intent of positioning itself as an emerging energy business hub in the Mid-Southeast. We facilitate joint venture

projects through direct customers, regional environmental engineering companies, and the government. The company assists energy industry target companies in various areas, including the development and implementation of business models and corporate infrastructure, such as management teams, qualified sales and marketing departments, information technology, finance and business development; and the management of rapid growth. It also assists target companies in evaluating, structuring, and negotiating joint ventures, strategic alliances, joint marketing agreements and other corporate transactions by providing advice relating to corporate finance, financial reporting, and accounting operations. The Company currently identified 4 energy projects, which are in the early stages of development. The total capital costs of \$620 mm are proposed to be financed with project debt of \$410 mm and equity of \$210 mm (Pre-development Equity of \$10 mm).

1. The Company is a C Corporation

11. There are no existing legal matters from the past or pending.

Part D

XI. Officer and Directors: Cloyce Brent Riddle, Chairman, President, CEO, CFO and control person. Mr. Riddle has for the last 11 years, operated as an international business development consultant. After returning from Cairo, Egypt in 2004 and continued his career as a specialist in corporate development management. From 1988 through 1997 Mr. Riddle was in the US Navy or working with the Department of Defense, where he was a Plant Engineer specialist. His primary responsibilities were to manage the maintenance and repair of equipment, boiler water chemical treatment, and general oversight of electrical distribution systems, and diesel generating plants. After being honorably discharged from the Navy and from Naval Post Graduate School in 1997, Mr. Riddle then became the Operating Engineer for NASA's AMES Research Center located in Mountain View, California. At that position through 1999, he was charged with the responsibility of operating and maintaining NASA's research and development facilities. Mr. Riddle has earned credentials from Rosemont Control School, Rosemont, California for Digital Control Systems for Plant Engineers, Association of Plant Operating Engineers, Long Beach, California for Operations of Stationary Steam Generating Plants, US Navy, Gage Calibration Program, for calibration of high pressure steam air, and vacuum gages, and the US Navy, Water Chemistry School, for plant feed water and potable water chemistry control and testing. The combination of Mr. Riddle's back ground in finance and plant engineering uniquely qualifies him as the President of a company specializing in bio-fuels and alternative energy manufacturing development.

Compensation; The CEO of the Company is receiving 250,000,000 shares of the Company's Common stock for compensation. No other compensation commitments have been arranged at this time.
